The Association of Universities of the British Commonwealth is a voluntary society whose members are institutions of university standing in the various countries of the Commonwealth. It was founded in 1912 as the Universities Bureau of the British Empire and changed to its present name in 1948; it is incorporated under the Companies Acts of the United Kingdom. The Association is governed by an executive council consisting of a chairman, vice-chairman, hon. treasurer and sixteen members elected annually at a general meeting at which each member university is entitled to be represented by its executive head or his personal deputy. There are at present 123 member institutions.

The headquarters of the Association are situated at No. 36 Gordon Square, London, W.C.1 (tel.: Euston 8572), close to the University of London Senate House and University College. Members of the teaching staff or other officers of any member university are invited, when visiting London, to call at these premises, where there is a common room and facilities for interviews. Overseas visitors are especially requested to register, on or before arrival in the United Kingdom, their names and addresses with the secretary at 36 Gordon Square, to enable enquiries and communications for them to be dealt with. A branch office for Commonwealth Scholarships and Appointments was opened in 1961 at Marlborough House, Pall Mall, London, S.W.1 (tel.: Whitehall 6617).

A full description of the functions of the Association, with its legal constitution and a list of its members and their representatives, will be found in Appendix VII at page 1480.

PREFACE

THIS is the thirty-ninth edition of the *Commonwealth Universities Yearbook*, which was first published in 1914.

The *Yearbook* is compiled to provide annually, in a single volume and in an up-to-date form suitable for quick reference, the essential facts about Commonwealth universities needed by university teachers and administrators, students, and others seeking detailed information about staff, organization, facilities and admission requirements. It is published as a directory to university institutions of good standing in all countries of the Commonwealth and is not restricted to the 123 universities and colleges which comprise the membership of the Association.

In the year preceding the publication of this edition there has been considerable further expansion in the facilities for higher education; new university institutions were established or planned in all the major countries of the Commonwealth. For the first time, entries appear herein for Royal College, Nairobi, and University College, Dar es Salaam (together with a note on the proposed University of East Africa); Kwame Nkrumah University of Science and Technology, Ghana; Pius XII College, Basutoland; Nanyang University, Singapore; the University of Ife, Nigeria; and the University of York, England.

Among the main features of the *Yearbook* are the 'national introductions' which precede the pages for Commonwealth countries with more than one or two universities. Each introduction (written by a leading university figure) is primarily intended as a factual guide for people abroad who wish to obtain a general outline of university education in that particular country before turning to the separate university entries but who will not necessarily be familiar with the basic assumptions of its citizens about that country's educational system. These authoritative essays range over the entire university scene in the country concerned and are set out under carefully selected headings. Among the entirely new items in the 1962 book is an introduction to the pages for Nigeria which has been contributed by Sir Alexander Carr-Saunders, formerly director of the London School of Economics and Political Science. Mr. Colin McDougall, registrar of McGill University, has provided a fresh introduction to the Canadian section; this (in accordance with the editors' general policy of making changes from time to time in the authorship of introductions which have appeared in revised form in several editions) replaces the essay written by the president of Acadia University which appeared first in the 1958 *Yearbook*.

Despite the addition of this new material, the main reason for the eighty-page increase in the length of this book, as compared with its predecessor, is the steady growth of the teaching staffs and academic activities of existing universities.

One of the functions of the *Yearbook* is to provide basic data to assist a student, who proposes to go to a Commonwealth country for study, in his choice of a particular university there (to the registrar of which he should, of course, subsequently write for complete and official information). In addition to the particulars of, for example, 'First Degrees' and 'Higher Degrees', which are given in the separate chapter for each university, a detailed 'Directory to Subjects of Study' appears as part of each national introduction; there, in many cases in tabular form, is given a summarized statement on 'where to study what' in that country's universities. There is a new directory for Canada in the present edition.

One of the most frequently used sections of the *Yearbook* is the Names Index. By means of this index it is possible to find at which university any of the 50,000 men and women who comprise the university teaching and administrative staff of the Commonwealth is serving. Although in many parts of the Commonwealth most of these staff members have graduated at a university in the country where they now teach, there is also considerable movement from one country to another, which is illustrated by the overseas degrees appearing after names in the staff lists. In some of the national introductions (e.g., for Australia, on p. 11) there are now notes which provide an indication of the extent of this mobility.

The appendices contain, *inter alia*, full entries for the universities of two countries now outside the Commonwealth which have expressed a wish to remain in the *Yearbook*—those of the Republic of Ireland (which, though not in actual membership of the Association, retain close associations with the universities of the Commonwealth) and those of the Republic of South Africa (which under a legal ruling remain for the time being members of the A.U.B.C.). Appendix VII describes in summary form the Commonwealth Scholarship and Fellowship Plan which was drawn up at the first Commonwealth Education Conference at Oxford in 1959 and which has been reviewed at the second conference in Delhi in January 1962. For the first time there is included a table (which it is hoped will be an annual feature) showing the countries of origin and study of Commonwealth Scholars.

In this edition for the first time, the names of

PREFACE

countries have been inserted in black type as foot-notes on each right-hand page, and a brief contents list has been added in the first and last 'openings' of the book. It is hoped that these aids will make it easier for the reader to locate quickly the individual national sections.

The editors wish to make the *Yearbook* as effective a work of reference as possible and will give careful consideration to any constructive suggestions for its improvement which readers may wish to offer. Copies of the book may be consulted in the library or registrar's office of all Commonwealth universities and are understood to be available for reference in many other university libraries throughout the world.

The *Yearbook* is a co-operatively compiled work, the material for which is supplied from some 200 university or college offices in 22 countries to the office of the A.U.B.C. in London where it is edited before being sent to press. The Executive Council of the Association again wishes to express its thanks to the registrars, and to the authors of the national introductions, without whose sympathetic help this volume would not have been produced. It must be understood, however, that neither the Association nor the universities, while taking every care to ensure reliability, can accept responsibility for any error that may appear among the very many statements of fact which the book contains.

GUIDE TO THE UNIVERSITY ENTRIES

The date at the beginning of each *Yearbook* university entry is the date at which the material was completely revised and brought up to date by the university for this edition. Resignations, retirements and new appointments which it was known then would take effect before March 1962 were taken account of in the compilation of the staff lists; and, where universities supplied the necessary information, subsequent senior staff changes were also incorporated up to the time of going to press.

DATE OF FOUNDATION. The date of foundation is given immediately below the name of the uni-

versity and is normally the year in which the institution came into legal existence with the title of university *i.e.* the year the act or charter incorporating it with the title of university came into force. (In the case of colleges which do not have the title of university, read 'college' for 'university' in the previous sentence).

The PRINCIPAL DIVISIONS of each *Yearbook* university entry are: (1) Principal Officers; (2) Teaching Staff; (3) Administrative and Other Staff; (4) Constituent, Affiliated or Associated Institutions; (5) General Information; (6) 'The Year 1960'.

PRINCIPAL OFFICERS AND TEACHING STAFF

DEPARTMENTS. The directory of teaching staff is subdivided into departments (indicated by bold headings) normally arranged in alphabetical order for ease of reference. Because of the divergent practices of different universities about the organization of subjects, it has not been considered advantageous to group these departments under faculty headings, but in special cases where there is a group of departments constituting a more or less distinct entity to which it is obviously helpful to be able to refer in a consecutive and separate entry (*e.g.* a *multi-departmental* school of engineering, of medicine, or of dentistry), they are set out together at the end of the main list, each group under a separate bold-type heading in capital letters, and cross-references to the subject headings in this grouping have been inserted at appropriate places in the main list.

Where the department of physical education is a teaching department, it is placed in the general subject list in alphabetical order, but where its main function is that of promoting the physical welfare of students of the whole university the names of its staff appear under the 'Administrative and Other Staff' heading.

SPECIAL LECTURESHIPS (and the names of the current holders thereof) which carry for the holder the status of a temporary member of the staff of the university or college and which involve an extended course of lectures (rather than merely one or two single lectures) are inserted before the list of 'Administrative and Other Staff', as are also entries for the *teaching* officers of such special institutes and departments, *etc.*, as institutes of education, research institutes and extra-mural departments.

ORDER AND STATUS. The names of members of staff are arranged under each subject heading in

order of seniority, wherever possible, and not in alphabetical order. Each individual's special subject (*e.g.* inorganic chemistry, civil engineering, modern history) and status (*e.g.* professor, reader, senior lecturer, lecturer) is indicated opposite his name. Where a Chair or other post has a distinctive title, that title is incorporated in the staff list opposite the holder's name (*e.g.* Slade Prof., Laurence Reader, Sidgwick Lectr.).

PART-TIME members of staff are indicated by the symbol †.

EMERITUS PROFESSORS are not included unless they are still active members of the teaching staff.

RESEARCH OFFICERS (including research fellows) are not listed by name unless they are regarded as regular members of staff.

JUNIOR STAFF. The most junior staff (such as temporary assistants and junior demonstrators) are not listed by name; such staff are normally covered only by a composite reference, *e.g.* 3 Jr. Demrs.

MEN'S FIRST NAMES are designated only by initials (*e.g.* Smith, J. D.) except in the case of knights and baronets, or where it is necessary to distinguish between two men with the same initials and surname, at the same university or college. One first name of a knight or baronet is given in full.

WOMEN'S NAMES are indicated by the writing in full of one first name, any other first names being represented by initials only (*e.g.* Smith, Mary J.) The word 'Mrs.' is inserted before the names of married women, but the word 'Miss' is omitted except where the woman's first name is likely to be unfamiliar as such to English-speaking

readers (as in the case of certain Eastern and African names).

ON LEAVE. Absence from the university on study leave, on secondment, on government duty, etc., is indicated by '(on leave)'. It is inserted only where the teacher will be on leave during the greater part of the 12 months following March 1962. If, however, the teacher has been seconded to the university from another university or other body, then '(on secondment from [name of institution])' is inserted.

ABBREVIATIONS. Lists of abbreviations (and relevant expansions) used for names of universities, for degrees, for university diplomas and certificates, and for certain non-university qualifications appear on pages xv-xxxi.

Each individual's university DEGREES, DIPLOMAS AND CERTIFICATES and any of his non-university qualifications which are mentioned in the next paragraph are noted in abbreviated form after his name. The university of origin of degrees, diplomas and certificates is also given but it should be noted that degrees, diplomas and certificates awarded by the university in whose entry the name of the staff member appears are indicated by being placed, *without* the name of the university,* after any other degrees, diplomas or certificates. For example, the qualifications of a teacher possessing an MA of Sydney, a PhD of Adelaide and a diploma in education of Adelaide would be set out as follows if his name appeared in the Adelaide entry: MA Syd., PhD DipEd. If his name appeared in the Sydney entry his qualifications would be set out thus: PhD DipEd Adel., MA. The abbreviations for the names of universities

are set in italic type; it should be noted that these abbreviations are not necessarily identical with those usually employed by the awarding universities. To save space, the word 'Hons.' (= Honours) is not placed after degrees in the staff lists, but 'Hon.' (= Honorary) is inserted before honorary degrees.

NON-UNIVERSITY QUALIFICATIONS. The *Yearbook* aims at providing in the staff directories an accurate and comprehensive list of each teacher's university qualifications. Because of the need to save space, however, the number of titles not of university origin has had to be kept to a minimum and, to ensure consistency, it has been decided to list only the following such qualifications:

- (1) *Honours* conferred by the Crown (listed on pages xxix-xxxi).
- (2) *Fellowships* of learned bodies of high standing. Only those listed on pages xxix-xxxi are included in this edition of the *Yearbook*.
- (3) *Memberships* of the senior professional bodies in each country for physicians and for civil, electrical and mechanical engineers (listed on p. xxxi). Only one such membership is allowed after any one person's name. Associate memberships are not mentioned.

In setting out titles and qualifications after names the following order is observed:

- (1) Honours conferred by the Crown.
- (2) University degrees, diplomas and certificates.
- (3) Fellowships and memberships of certain institutions (*see above*).

ADMINISTRATIVE AND OTHER STAFF

This section includes administrative staff who do not appear in the list of 'Principal Officers'.

THE YEAR 1960

The purpose of this section is to provide a detailed record of events in the university during the calendar year ending December 31, 1960 (the period covered by the sections relating to Degrees, Diplomas and Certificates Awarded is, however, the academic year 1959-60 (southern hemisphere, 1960) plus the long vacation following, and the information about student numbers relates to the beginning of the academic year 1960-61 (southern hemisphere, 1961)).

PRINCIPAL BENEFACTIONS. Only gifts of more than £10,000 or equivalent are listed. Government grants are not included. The total monetary

value of all benefactions received is frequently given.

MAJOR BUILDING DEVELOPMENTS. This entry records information about buildings completed or approaching completion during the period under review.

RESIGNATIONS of staff members of the rank of lecturer (or equivalent) and above are recorded.

DEATHS of staff members, or of distinguished staff members who had retired, are recorded.

STUDENT NUMBERS. Students are classified as

* But where a teacher has a degree with the same abbreviation from two universities, both are named, even though it is in the entry for one of them that his name appears, e.g. the holder of an MA of Cambridge and an MA of Adelaide would be listed in the Adelaide entry as MA Camb. & Adel.

part-time if they are engaged in regular employment during the academic year and therefore cannot devote their full time to their studies. If a university has indicated that it has used a different definition a note has been added to the text. By *new admissions* is meant the number of students entering the university or college for the first time. For *Yearbook* purposes a student 'from another country' is one whose permanent home residence is in that other country, i.e. one whose parents are only temporarily resident or employed abroad is not included, nor is one who was born in another country and may therefore have a foreign nationality but is now living per-

manently in the country in which the university or college is situated.

It should be noted that, although every effort has been made by the editors to secure uniformity, the figures of student numbers given in the individual university entries may possibly be compiled on slightly different statistical bases even in the one country.

The lists of DEGREES, DIPLOMAS AND CERTIFICATES AWARDED give the numbers of students who have the right, under the regulations of the university, to use the title of the degree, diploma or certificate regardless of whether or not it has been ceremonially conferred.

B. COMMONWEALTH DEGREE ABBREVIATIONS

In the following list the degree title opposite each abbreviation is the expanded form normally used by the university, or universities, in the Commonwealth which currently award that degree.

Many of these degrees are awarded with honours (the courses for some honours degrees being quite distinct from the courses for the corresponding pass degrees), but, for reasons of space, the honours form of the abbreviation and title is not given below (*e.g.* BA *hons.* is excluded). Similarly 'special' and 'general' degrees are not separately distinguished, *e.g.* BSc(Sp) and BSc(Gen) are excluded. For the purposes of this list, a 'conjoint' degree, such as MB ChB, is listed as two separate degrees.

Honorary degrees are included in the list below, but they are not distinguished from other degrees.

It should be noted that many of the degrees listed below are awarded by only one university and that many others are awarded by only a relatively small number of universities.

D. ABBREVIATIONS FOR ORDERS, DECORATIONS AND QUALIFICATIONS OTHER THAN UNIVERSITY DEGREES, DIPLOMAS AND CERTIFICATES

To save space, non-university distinctions are omitted from the staff lists, with the exception of honours conferred by the crown and certain fellowships of learned bodies as set out in this list (*see also* p. xii). In the case of physicians and civil, electrical and mechanical engineers one membership of the senior professional body as set out in this list may be included. It is regretted that considerations of space have imposed these limitations on the references which can be included to professional qualifications; no disparagement is, of course, intended of professional or other non-academic qualifications which cannot be included in this work.

The abbreviations used are not in all cases those adopted by the body concerned, *e.g.* FIP is used instead of FInstP.

THE UNIVERSITIES OF AUSTRALIA

[Contributed by Professor C. Sanders, Professor of Education in the University of Western Australia]

HISTORY. The history of the Australian universities may, for convenience, be divided into five periods covering a span of over a century. The first period, which extended from the middle to the end of the nineteenth century, saw the growth towards nationhood of the Australian colonies. During this period four universities were established, and their earliest architecture in the Gothic style bears witness to their Victorian origins. The second period began with the federation of the colonies as Australian states, and the creation of the Commonwealth of Australia in 1901. It continued until the conclusion of the first world war when there were six universities in the state capital cities, the first three—Sydney (New South Wales), Melbourne (Victoria) and Adelaide (South Australia)—carrying the names of the cities themselves, and the second three—Tasmania (Hobart), Queensland (Brisbane) and Western Australia (Perth)—the names of the states in which they were established. The third period lasted from 1918 until the conclusion of the second world war. During its first seven years there was a post-war enrolment bulge followed by a short resettlement, after which the depression of the thirties limited development. Two university colleges, Canberra University College (1930) and New England University College, Armidale, New South Wales (1938), were established during the period.

In the main, the years between the wars were years of consolidation rather than of spectacular progress. Student enrolments in the universities and university colleges during 1939 numbered 14,500. This was a modest total; but Australia, in keeping with the university traditions of Great Britain, does not recognize many educational institutions as having university status in the American sense. However, some such institutions, as is explained later, are affiliated for various purposes to the universities.

The cessation of hostilities in 1945 marked the beginning of the fourth period of university growth and the admission to the universities of large numbers of financially assisted ex-service students. The period was associated with heavy enrolments in science, applied science and technology. By 1948, student numbers rose to 32,500, and although an easing occurred with the disappearance of assisted ex-service students, two or three years later, an increasing war-time and post-war birth-rate, migration on a larger scale than hitherto, and a constant need for scientists, technologists and teachers, heralded in the present and fifth period, in which there appears to be no limit to the possible future expansion of higher education in Australia.

Increasing financial difficulties among the universities, during the fourth period, gave rise in

1950 to an interim enquiry into Australian university finance, and then in 1957 to the enquiry conducted by the Committee on Australian Universities under the chairmanship of Sir Keith Murray, chairman of the U.K. University Grants Committee.

The fifth period began, when early in 1958 the Commonwealth government announced, after considering the Murray committee's report, that it would provide an extra £A21,400,000 during the triennium 1958-60. The provision of additional money was a first step towards university rehabilitation, and it was followed by a further decision during 1958 to create a permanent national body, to be concerned, amongst other things, with university finance. This body, in accordance with Commonwealth legislation passed in 1959, is now called 'The Australian Universities Commission' and its present chairman is Sir Leslie Martin, formerly of Melbourne.

Sydney (1850) and Melbourne (1853) are the most senior of the Australian universities. As institutions of higher learning dating from the colonial period, they are of approximately equal size and are also about the oldest of their kind in the Asian-Australasian hemisphere. The remaining universities established before the first world war include Adelaide (1874), which began with private endowments, Tasmania (1890), Queensland (1909) and Western Australia (1911). To these now need to be added the Australian National University, Canberra (1946), now incorporating the earlier Canberra University College, the University of New England (1954), which began as the second of the inter-war university colleges, the University of New South Wales, Sydney (1958), originally established in 1949 as the New South Wales University of Technology, and Monash University (1958) at Clayton, near Melbourne in Victoria, which began teaching in 1961. At the time of writing, therefore, there are ten universities in Australia, including three in New South Wales and two in Victoria (see also 'The Universities To-day', below).

Canberra University College was a Commonwealth creation in the Australian Capital Territory to provide for the higher education of civil servants and their families when the Commonwealth parliament moved from Melbourne to the national capital in 1927. This college in 1960 became the school of general studies (in arts and science) of the Australian National University. New England University College in northern New South Wales was, until its elevation, an offshoot of the University of Sydney. To-day it is the only institution of full university status outside an Australian capital city.

Nevertheless, there is a trend towards further

decentralization of university education in Australia. For example, Newcastle University College (1951) functions as a constituent institution of the University of New South Wales, while the University College of Townsville (1961), is a constituent institution of the University of Queensland.

CONSTITUTION. (a) *Structure of Universities.* The Australian universities are unitary teaching, examining and research institutions in the arts, social sciences, sciences and applied sciences; and among them to-day, at the undergraduate level, there is considerable emphasis on education for the professions. Most of the universities have residential colleges or halls, associated with them, in which tutorial assistance is provided for resident students, and sometimes for other students. Such teaching, however, is generally supplementary to the teaching of the universities which conduct the examinations and award the degrees. Historically, the universities are secular institutions although many of the residential colleges (located on the university sites) are religious foundations. Each university has certain characteristics which give it individuality. Some more than others have affiliations with governmental research institutes, agricultural colleges, forestry schools, technological institutes, technical colleges and teachers' colleges (see section below on 'Institutions of Higher Education other than Universities').

Among universities created since the second world war, more significant differences are to be observed than among universities of earlier establishment. The Australian National University, which began as a postgraduate research institution, was reorganized in 1960 to include undergraduate studies when Canberra University College became its school of general studies. The original university, which incorporated four postgraduate schools, was renamed the institute of advanced studies. At this level the university is substantially residential. Further, the University of New England, which for internal students is almost entirely residential, now makes provision for a large number of external students. Moreover, the teaching work of the predominantly scientific and technological University of New South Wales, which has power to incorporate constituent colleges, is undertaken not only at Newcastle but also in other industrial centres of the state which it serves. Since the war all the universities have greatly extended their departments of science, medicine, engineering and social science. Newer institutions have very strongly reflected the trend towards science and technology, while postgraduate studies and research now receive a much greater emphasis than formerly.

(b) *Internal Government.* Except for the Australian National University in the Australian Capital Territory, the universities are situated in the six Australian states, and mainly in or near the Australian capital cities. Although it is now becoming a practice to refer to these institutions as 'state' universities, they have a considerable

measure of independence, and their staffs are conscious of the importance of university autonomy and academic freedom (see 'Relationship to Government', below).

Some differences in the legislative and academic practices of the 'state' universities arise from their geographical separation as well as from their history. Most of them were created to serve local needs and Commonwealth interest in their welfare is of fairly recent origin. Even to-day they are regional institutions, and most Australian students expect to receive their undergraduate education within the boundaries of their own states.

Periodic royal commissions, or committees of enquiry, and the subsequent or independent actions of legislatures, both state and national, have altered from time to time the constitutions of the universities as well as the composition of their governing bodies. Each governing body in its own way is representative of community interests, and most governing bodies are also representative of the body of graduates and the academic staff. The Australian National University, since its reconstitution in 1960, has a board of studies responsible for the institute of advanced studies and a board responsible for the school of general studies. There is in addition a professorial board, which, although it has no executive powers, acts in an advisory capacity to the governing body, or council, of the university. The vice-chancellor serves as chairman of each of the academic bodies.

Among the universities some appointments to governing bodies are made by governors-in-council, and on a number of the governing bodies there are parliamentary members, or *ex-officio* members, such as a state director of education or an appointee of a state treasury, or co-opted members. In some universities the students are represented on the governing body, while at Melbourne and at the University of New South Wales, industry and commerce have specific representation. Among the universities the size of the governing bodies varies between nineteen and thirty-eight.

Except for Sydney, Queensland and Western Australia, the governing body of each university is called the council. At the three universities mentioned the term 'senate' is employed to denote the governing body.

Each Australian university, with the exception of the University of New South Wales, has a second body with a certain amount of responsibility in university government. This body, which mainly consists of university graduates, has several names. At most of the universities it is called convocation; but at Queensland it is called the council, and at Adelaide the senate.

The major function of the graduate body is to elect members to the governing body; but only at the University of Adelaide does the graduate body have a preponderance of representation. In other universities it provides about one-fifth to two-fifths of the membership. Although in none of the universities has the graduate body power to initiate legislation, it occasionally has

authority to approve, refer back or delay statutes and similar legislation referred to it by the governing body, and it may make suggestions regarding university welfare. In exercising its functions it sometimes works through standing committees.

The governing body, whether council or senate, generally meets at least once a month. It appoints standing committees or committees to deal with finance, investments, buildings, site development, staff and establishments, and so forth. Some of its work may be channelled through a general purposes committee, or there may be a joint committee of governing body and teaching staff to deal with matters of common policy. The powers, functions and procedures of governing bodies and graduate bodies are generally defined in university acts and statutes. When a governing body adopts statutes or by-laws, they must, as a rule, be submitted for final approval to a minister, governor or governor-in-council, or the particular legislation must be laid on the table of each house of parliament. Although the universities are not divorced from public criticism, most governing bodies have power without further reference to establish rules and regulations for ordinary university working.

The titular head of an Australian university is the chancellor, usually a citizen of distinction, who acts as chairman of the governing body and confers degrees and diplomas. He is supported by a deputy or pro-chancellor.

The vice-chancellor is central to the organization of university government. He provides the liaison between the various deliberative and executive bodies, both general and academic, although his powers and functions vary somewhat from university to university. The vice-chancellor holds a permanent appointment as chief executive officer of the university, and is a member of the governing body. At most of the universities the chairman of the chief academic body or a senior professor acts in the absence of the vice-chancellor. Some universities have created the position of deputy or pro-vice-chancellor. Melbourne has two pro-vice-chancellors who are senior members of the academic staff, while at Sydney, where the vice-chancellor is also the principal of the university, there is a deputy vice-chancellor as well as an assistant principal and a registrar. In the majority of the universities, however, the registrar is the senior officer under the vice-chancellor, although the chief financial officer exercises a considerable amount of authority. At each of the older universities the state governor acts as 'visitor'.

The chief academic body is generally called the professorial board and corresponds to some extent with the senate of a university in the United Kingdom. It consists of deans, professors and certain other staff, some of whom may be non-professorial heads of departments, or staff representatives below professorial rank. The board usually appoints its own chairman and it may work through committees such as a committee of deans. At the Australian National University, as mentioned previously, the vice-chancellor acts as chairman of the professorial board, and action has

been taken in Tasmania for the vice-chancellor to perform a similar function. Instead of a professorial board Adelaide has an education committee including chancellor, vice-chancellor, council members, heads of academic departments and the librarian.

University government usually works from below upwards, the chief academic body advising the governing body on academic matters or transmitting legislation for the governing body's imprimatur or further action. Below the senior academic body are the faculties in which degrees are awarded, or the boards of study responsible for diploma or similar courses. Many matters remain at faculty level and most of the rest are finally dealt with by the professorial board or its equivalent. The deanship is an honorary academic office in most universities; but sometimes the dean receives an allowance. At Melbourne there is a permanent dean of graduate studies.

RELATIONSHIP TO GOVERNMENT. The Australian universities, by legislative enactment or charter, are autonomous and self-governing, and as most of the earlier ones were created by colonial or state governments, they were, until 1958, mainly financed by state parliaments. The Commonwealth is directly responsible only for the Australian National University. However, the second world war made clear the national as well as the local importance of the state universities, and as already indicated, this led during the post-war period to an increasing Commonwealth interest and financial support, culminating in the Murray recommendations in 1957 and the creation of the Australian Universities Commission in 1959. Thus, at the present time, the universities are a Commonwealth as well as a state responsibility, the commission providing the link between the various parties.

Most university governing bodies, as explained above, contain members of the local parliament or appointees of the governor-in-council. A reason for parliamentarians, usually not drawn from one house or party, is to have spokesmen in the legislatures. Mostly the idea has worked well and it has tended to be incorporated in the constitutions of universities of recent creation.

Communication between a university governing body and a state government is usually by way of vice-chancellor and state premier or state minister of education. However, the work of universities generally lies outside the function of the minister of education, who is more directly responsible for the schools. Occasionally the chancellor will lead a deputation to the premier on an important issue. Each year the universities present a report on their activities to the local parliament. The first report of the Australian Universities Commission was presented to the Commonwealth government in 1960.

After the war the Commonwealth provided special grants to the universities to assist in the higher education of ex-servicemen. It also made increasing sums of money available for research.

It converted a war-time assistance scheme for reserved students into a broadly based system of scholarships, and it began to sponsor students from Asia and the Pacific islands under the Colombo Plan. This increase in Commonwealth activity, now supported by the Murray recommendations, and the existence of the Australian Universities Commission, has greatly added to the importance of the Australian Vice-Chancellors' Committee at the national level, even though the committee's function is consultative rather than executive. To-day the National Union of Australian University Students (N.U.A.U.S.) concerns itself with national as well as international issues affecting students. Thus it may be referred to by the appropriate authorities, or it may submit its own proposals for consideration. Within each university there is a student body which negotiates with university and other authorities on matters affecting student interests.

FINANCE. In the early post-war years the time-honoured method of university finance by state government grants, student fees and income from endowments began to collapse. During the war the Commonwealth gained control of income tax collection which previously had been shared with the states. After the war considerable numbers of ex-service students were admitted to the universities, and to assist their education the Commonwealth made special annual grants towards university running costs, and by agreement with the states it made capital grants for buildings. However, with the tapering off of Commonwealth moneys for ex-service students, most of the universities began to feel the effects of financial stringency. As a result, the Commonwealth, after negotiations with the states, appointed in 1950 the interim committee of enquiry into university finance, referred to earlier. This action represented a positive step towards a permanent co-operative relationship between Commonwealth and states in the maintenance and development of the universities.

After considering the interim committee's findings, the Commonwealth enacted legislation to make grants to the universities on the basis of £A1 for each £A3 of state grant and fees to a specified maximum. In 1951 the States Grants (Universities) Act was passed, and subsequent acts were passed in 1953, and annually from 1955 to 1958. With the enactment of the 1951 legislation, previous Commonwealth grants and subsidies for various purposes, including grants for research, were consolidated into a single amount to be paid to each university through its state government. However, following receipt of the Murray committee's report in 1957, the Commonwealth enacted new legislation in 1958 and 1959 so that there is now a triennial review of university finance undertaken by the Australian Universities Commission. As indicated previously, the initial triennial grant was made on the recommendation of the Murray committee, and a considerable part of it was regarded as emergency

money to compensate for existing deficiencies. The first report of the Australian Universities Commission was published in October 1960. It surveyed developments during the period 1958-60 and made recommendations for the triennium 1961-63. The financial recommendations of the commission were given effect in the States Grants (Universities) Act (1960) of the Commonwealth government.

In 1959, total university income from all sources (i.e. revenue and capital income for 'general' and 'special' purposes), amounted to £A25,495,897. The revenue income for 'special' purposes, included in the total sum, was £A3,369,824. The capital income ('general' and 'special'), for buildings and equipment, amounted to £A5,582,953 (Commonwealth, 49 per cent.; states, 41 per cent.; other, 10 per cent.).

Income from endowments and donations, included in the total university income, was £A1,469,368, or about 6 per cent. of the whole. But of the amount received from endowments and donations, £A1,137,470 was for 'special' purposes. Revenue and capital income for research, during the year, totalled £A1,573,288.

If 'general' revenue, for ordinary university running expenses only, is taken into account (i.e. when all capital income, as well as revenue income for 'special' purposes, is excluded), then the total amount available to the universities during 1959 was £A16,543,120 (Commonwealth, 34 per cent.; states, 47 per cent.; fees, 14 per cent.; other, 5 per cent.).

In 1959, Commonwealth and state governments provided 81 per cent. of the money needed to meet the day-to-day expenses of the universities, and they also provided 90 per cent. of the money for buildings and larger capital equipment.

PRE-UNIVERSITY EDUCATION (see also Appendix III). Students are usually admitted to the Australian universities between the ages of 17½ and 18½ years after twelve years of schooling although there is a trend in some states towards increasing the length of secondary education by a year. In at least three states children transfer to secondary education between the ages of 12 and 13 years after spending seven years in primary schools. Thus the children in these states usually receive five years of secondary education before being admitted to the universities. In Victoria the transfer is made a year earlier and in Queensland a year later so that children in these states receive six years or four years respectively of secondary education before entering the university. However, the pattern, organization and content of secondary education are being re-examined in most Australian states; and a rapidly increasing proportion of children is continuing at school between the ages of 15 and 17 years inclusive. In New South Wales, following the government's receipt of a report, prepared by a committee under the chairmanship of the director of education, Dr. H. S. Wyndham, a system of seven years of primary education, followed by five years of

secondary education, is to be replaced by six years of each, with transfer of children at about the age of 12 years.

In all states the examinations, often called 'public examinations', which mainly qualify for matriculation are held in November or December, while students tend to enter the universities in the following March. In New South Wales, pending the changes referred to above, and in Western Australia, matriculation is mostly gained by means of a leaving certificate examination set at the age of 17 to 18 years. Under the proposals of the Wyndham committee, however, it is intended that in New South Wales a school certificate examination will be held after four years of secondary education, followed by a higher school certificate examination, set two years later and linked with university matriculation. In Queensland the examination, at the age of 17 to 18 years, is called the senior public examination, and in Victoria and Tasmania it is called the matriculation examination. In South Australia matriculation is gained at a leaving certificate examination set to school pupils between the ages of 16 and 17 years; but there is at least one further year of study beyond the minimum matriculation level, and many intending university students take the additional year and sit for a leaving honours examination at the end of it. Victoria also has a leaving examination for school pupils between 16 and 17 years, and Tasmania a similar examination called the schools board examination. In Victoria and Tasmania the examinations mentioned are taken a year before the matriculation examination, and in Tasmania passes in the schools board examination may help to qualify for matriculation.

In all states except New South Wales the universities either conduct the public examinations or co-operate in their organization. In New South Wales the state department of education undertakes the responsibility. Some universities conduct a supplementary leaving or matriculation examination in February each year; but in each case where a 'matriculation examination' is set it is directly under a university matriculation board or the university's professorial board. In several states there still exists an examination between the ages of 15 years and 16 years. This is called either the junior examination or the intermediate examination, and sometimes passes in the examination exempt from certain matriculation requirements. In Queensland the junior examination is conducted by the state education department, while the university remains responsible for the senior public examination on which matriculation is based.

In the organization of Australian secondary education there are many independent secondary schools modelled on the pattern of the English grammar schools. Most of these schools are religious foundations. In the state educational systems, most secondary schools, although by no means all, are called high schools. Many of the older state secondary schools are of the academic type but newer schools are being erected on the

comprehensive principle adapted to Australian conditions. For many years more students entered the universities from independent (i.e. non-government) schools than from state (i.e. government) schools, and although this continues to be so in some states, the balance is changing, due to the rapid post-war growth of secondary education in every Australian state.

ADMISSION (see also Appendix III). Each university decides its own matriculation requirements; and though there is no general standard for Australia, the universities recognize each other's qualifications. However, where faculty prerequisites apply, or where entry is restricted, a matriculated candidate from another state usually needs to comply with the local conditions.

The universities of Adelaide, New England, New South Wales, Sydney, Tasmania and Western Australia, as well as the Australian National University and the Monash University, have a general matriculation with minimum or no faculty prerequisites. The University of New South Wales, however, recognizes in addition the qualifying examination of the department of technical education of the state of New South Wales. Universities, other than those mentioned, have prerequisites for entry to faculties. For admission to the University of Melbourne a student must pass the leaving examination to sit for the university's matriculation examination. He must also meet prerequisites, and at the time of writing, competitive selection for entry to most faculties also operates.

Some universities have subgraduate diploma or certificate courses to which admission may be gained on qualifications less than matriculation. Most universities have some provision for unmatriculated students not proceeding to a degree; but there are restrictions on this form of enrolment. All universities make provision for students of mature age, and various tests of fitness are used in mature age examinations, including tests of general ability as well as of English usage.

A student with United Kingdom matriculation is generally admitted to matriculant status without further examination unless he has prerequisites to meet or there is a faculty entry restriction. Ordinary G.C.E. passes and Scottish leaving lower passes are insufficient, so that all or some of local requirements must generally be met. Students from Asia with principal level passes in the Cambridge High School Certificate examination, or an equivalent qualification, have a reasonable chance of acceptance into unrestricted courses provided they meet any special conditions including an adequate command of English. However, most universities treat applications individually. Thus, although Melbourne specifies the qualifications from abroad it is prepared to accept for matriculation, it employs, as pointed out above, additional selection measures. Some universities prefer an Asian student to spend a period in an Australian school or technical college and, if possible, gain a local matriculation before university

entrance. Graduates of recognized universities are usually accorded matriculant status and such additional status as each university is prepared to grant.

There is a summary of admission requirements in Appendix III, but students from abroad must always obtain direct from the registrar of the university concerned up-to-date information about the precise conditions of entry to first degree or postgraduate courses.

To-day most universities insist that students shall have a clean bill of health to gain admission. Apart from Melbourne, there is a restricted entry to certain faculties and courses in other universities. This is particularly true in medicine. Restriction in medical and other faculties, giving rise to selection following matriculation, is due mainly to insufficient facilities to meet a rapidly increasing number of qualified applicants. In some cases intending medical students, as well as students wishing to enter other faculties, need to qualify for matriculation in the state in which the university is placed. To continue in a course, and especially a course with restricted enrolment, students, whether Australian or other, may need to show a satisfactory rate of progress.

Admission to postgraduate diplomas demands graduation from a recognized university and often passes in an undergraduate course relevant to the diploma course. The admission of overseas students to higher degrees is decided by each faculty and university. To proceed to the degree of master in faculties of arts or science, a bachelor degree with honours is normally needed. Graduates with a lesser qualification must undertake additional study and pass an examination at honours standard before being permitted to present a thesis. The PhD degree is awarded in a number of departments and faculties in the Australian universities (see 'Directory to Subjects of Study', below). For admission to the course for the PhD degree, students need to be graduates of senior standing with first or second class honours, and preferably with a master's degree or some research experience if their honours work has not involved research. Most universities have a special committee or board of studies to decide applications. Reference to the higher doctorates (LittD, LL.D, DSc, etc.) is made in the next section.

STRUCTURE OF DEGREE AND DIPLOMA COURSES.

The pattern of Australian degree courses has been influenced more by the pattern of degree courses in England and Scotland than elsewhere. But there are differences in the structure of degree courses as between Australia and the United Kingdom. For example, although Australia endeavours to keep its standards in line with those of the United Kingdom, it places more emphasis on the importance of the pass degree. Its universities usually have more faculties, and there is a considerable stress on professional education at the university level. In addition, most Australian universities, but not all, admit 'external' students, at least within their own states, as well as 'part-

time' internal students. There is also a tendency in Australia, especially in science and applied science, for honours courses to require an additional year of study, including research, while at the undergraduate level, examinations in most university departments tend to be set at the end of each academic year of study.

The 'unit' of study is an academic year's work (30 weeks approx.) in 'part' of a 'subject'; but a unit in the American sense would represent only a small, or very small, section of an Australian bachelor course. Australian universities, like universities in Britain, throw responsibility on the student, and hours in class are seldom an adequate criterion as to the quantity and quality of work expected to be covered by students. Although general-type courses exist, there is more emphasis on 'depth' and less on 'breadth' in the structure of Australian degree courses.

A 'faculty' consists of a broad division of knowledge (e.g. arts, science, medicine, engineering, etc.), including its teachers, and it may incorporate a single 'department' or many departments. In the former case the head of the department may by annual or periodic election become the permanent dean of the faculty. In the latter case the deanship tends to rotate. A department is responsible for a 'course of study' in a subject (e.g. English) or in a group of subjects (e.g. modern languages). The course of study is divided into stages or parts by 'years of study' (e.g. year I or part I or stage I of the course, etc.), the parts comprising the units of the course (e.g. English I, II, III), English I being a first-year unit and English III a third-year unit. Students are not generally allowed to proceed to units of higher grade until they have passed the corresponding units of lower grade. Sometimes after the first year a department sets out its offerings in the following manner: English IIA, English IIB, English IIC, etc., students being allowed to select two or more units in their second and third years. Occasionally there is selection in each year of study, honours candidates being required to take certain specified units or more units than pass candidates.

Departments often suggest 'schemes of study', and sometimes related departments combine to make 'schools of study'. A unit in the arts faculty may involve from two to four lectures a week plus assignments, tutorials, attendance at discussion groups and so on. The lecture requirement is similar in science, but four, six or more hours of laboratory work are required.

Nine units spread over three years are normally needed to complete a bachelor course in arts or science, but courses of ten units exist. A typical nine-unit course would include four units in the first year, three in the second and two in the third, an 'annual' examination being held at the end of each year. A science student taking a first-year unit might spend six or more hours a week in classwork. The same student taking a third-year unit would probably spend twelve or more hours a week, most of them in the laboratory.

Because of the time-consuming demands of science courses, there is to-day a trend in some universities to retain the three-year pass course but reduce the total academic load, while in other universities the lengthening of the course to four years (for pass and honours) is being attempted or debated.

The failure-rate in the first-year examinations is fairly high (of the order of 35 per cent on average). In Australia the first year of study tends to operate as a diagnostic year. This means that the first-year examinations function as internal selection examinations; but after their successful completion the chances of a full-time student completing his course are fairly good in most, though not in all, faculties. Many students take longer than the minimum period to complete their courses because they are required to repeat failed units or to repeat a year of study.

Practical tests in science subjects and oral tests in language subjects are employed as part of the annual examinations. Supplementary examinations may be allowed students who fail one or more units at an annual examination; but the type and time of examination vary with faculty and university, and not all faculties grant supplementaries. The terms used in grading passes also vary, such expressions as high distinction, distinction, honours, merit, credit, etc., being employed. The University of Melbourne and the Monash University use the term 'honours' to grade their units as well as their degrees.

The units in professional courses are greater in number than in arts and science, and often part-units are introduced in higher years of study. Lesser units or part-units are also found in diploma courses. Altogether there are fourteen faculties among the Australian universities, including arts and science, the basic pass courses of which are still of three years' duration in most of the universities. The length of professional courses for the bachelor degree varies from three to six years, e.g. agriculture, forestry, law, economics-commerce, education, music—mostly 4 years (although at Sydney economics takes 3 years and there is an alternative course of 3 years in agriculture); engineering, technology—4 or 5; architecture, veterinary science, dental science—5 (but at Sydney the dental course is 4 years); medicine—6. Some of the shorter courses require an additional year for honours, while professional courses usually begin with a pre-professional year in arts or science. In some faculties bachelor degrees are given only at the postgraduate level, for example, in divinity, and at Melbourne and Queensland in education. In divinity the major work may be undertaken at an affiliated theological college or even outside the university altogether (see section on 'Institutions of Higher Education other than Universities', below). The most common qualification in education is a diploma in education involving one year of professional training following a first degree; and in some universities promising candidates may proceed direct to the MEd degree on completion of the DipEd. There are first degree

courses of 4 years for the BEd degree at Sydney and Western Australia; but both these institutions award the DipEd to graduates. However, while at Sydney a graduate who has completed the DipEd may, under certain conditions, proceed direct to the MEd degree, in Western Australia he must first complete the BEd degree.

In some universities, where the content of honours courses during the second and third years in arts is more demanding than the content of pass courses, a student may succeed in completing a BA with honours in three years. But the trend of the times is towards a four-year honours course particularly in science. In law and medicine, honours are usually decided on the quality of the passes in the course. In basic faculties students are allowed in some universities to take either a pass course or an honours course, although students mostly need to obtain permission to undertake honours and many avoid doing so because of the extension of time. Students who do not gain honours may be credited with a pass degree, while some students who take only pass courses produce not undistinguished records. The increased subsidization of students to-day, especially in science, is encouraging a rising percentage to proceed to honours, and particularly when an additional honours year involves not only extra study but also an honours thesis based on research.

Australian students not studying full-time are frequently called 'part-course' students. Such students are 'part-time' in that they are mostly in full-time employment. Generally, students of this type are not allowed to enrol in all the units of a given academic year. Often the maximum permitted is two per year; hence the expression 'part-course'. Part-time enrolments in the faculties of arts and commerce cause lectures to be repeated in the late afternoon. Thus the minimum period for graduation of part-course students is often five or six years. Some universities allow the enrolment of part-time students who attempt a full-time course, but this is discouraged (see section on 'Students', below).

Further, most of the undergraduate teaching universities make provision for 'part-time external' students in remote country districts. Many such students are teachers in primary or secondary schools. The universities of Queensland and New England have special external departments, and Queensland makes provision for external 'overseas' students, some of whom are enrolled under the Colombo Plan. The University of Sydney, however, does not permit external enrolment (see section on 'Students', below).

The minimum period of full-time study for an MA or an MSc degree is five years from matriculation or two years from completion of the ordinary bachelor degree. But, if a BA or BSc degree with honours is obtained in four years, a student can usually proceed with his research and present his master's thesis without further examination. Pass graduates must undertake additional study and undergo further examination, usually

at honours standard, before being permitted to present their theses for the master's degree.

In professional faculties, including medicine, law, engineering and education, there are varying procedures at the master level, often involving additional examinations and sometimes professional experience. For graduates proceeding to higher degrees the current trend is towards the supervision of their work up to the degree of PhD.

To-day an increasing number of candidates with good honours degrees in science is by-passing the master's degree and proceeding direct to the degree of PhD, although some departments, particularly in the arts faculty, prefer students to take a master's degree first. The minimum period for the PhD degree is usually six years from matriculation, although seven or eight years of study and research are common among able students. The PhD is the highest award for supervised research work and the thesis usually needs to be acceptable for publication in whole or in part if its material has not already been published. Not all faculties or departments permit students to enter for the degree (see p. 18), which in most universities is controlled by a special committee. Students enrolled for the PhD degree may be required to take special units of study appropriate to their doctoral researches. Some universities allow part of the course to be carried out under approved supervision in other universities or research institutions, or else they permit a section of the work to be undertaken part-time. The higher doctorates (LittD, LLD, DSc, etc.) are generally awarded to-day to graduates of high standing for published work or independent research which represents a substantial contribution to knowledge. Most universities will not accept submissions for the higher doctorates unless candidates are their own graduates or unless they are members of staff.

Diploma courses vary in length from one to three years; some are awarded for subgraduate study and others for postgraduate study. Most diploma or certificate courses have a practical bearing and emphasize techniques and skills although they not infrequently include units which form part of degree courses. The practical work required is often carried out in affiliated or associated institutions such as hospitals, schools, teachers' colleges, technical colleges, conservatoriums, etc.

The 'practical' requirement in degree courses in science and applied science frequently includes 'field work' (e.g. in botany, zoology and geology), or experience on farms, in industry, or in engineering works. Sometimes practical experience of this type is 'sandwiched' into a course by using occasional terms or long vacations. More often, perhaps, the experience necessary for registration by professional bodies needs to be obtained after the completion of the degree course. At the University of New South Wales, students working for degrees in science, engineering, architecture and technology, not only take certain units in the

humanities and social sciences, but they also spend a part of each year in industry.

TEACHING STAFF. The head of a full university department is a professor; but in large departments there may be several professors, one acting as the administrative head with an appropriate title. In a university research institute one of the professors may hold an appointment as director. Departments of more junior standing are often administered by staff of sub-professional rank. Although in some universities it is not uncommon to fill professorial chairs by internal promotion, such positions are usually advertised. It is a more frequent practice to fill positions of lower rank by internal promotion from among lecturers with a good teaching or research record.

Professorships are regarded as permanent appointments although they may need to be confirmed after an initial term of service. Below professorial rank there are various gradings. The most junior positions (tutors, teaching fellows, graduate assistants, etc.) are often limited in tenure, with a maximum of three years. Demonstrators in science departments, according to their qualifications and experience, may hold short-term or long-term appointments, and some of the more senior posts rank with lectureships. In departments of science and applied science there are positions of varying seniority including laboratory manager and technical assistant, which may be held by graduates or by the holders of technical qualifications.

Most university teaching staff hold the rank of lecturer or senior lecturer, and above these positions there is a grading of associate professor or reader. These positions are regarded as permanent, even though they may be subject to periodic review. In the institute of advanced studies of the Australian National University the permanent grades include: professor, reader, senior fellow and fellow. Short-term appointments in the institute are made to the positions of senior research fellow and research fellow. Among the Australian universities, the normal retiring age for holders of permanent appointments is 65 years; but holders of more senior positions, and especially of chairs, occasionally have their appointments extended beyond this age.

The usual teaching methods include lecture, seminar and tutorial. In science departments these methods are supplemented by demonstration and laboratory class, and often by field work or work in a museum. The use of audio-visual aids, as well as mechanical aids to computation, is common to-day in most departments. Essays, assignments, dramatic work and methods of oral expression are frequent in arts departments, and some universities are experimenting with the idea of supplementing class work by television broadcasts. Because research and publication provide avenues for promotion an attempt is made to limit the teaching load of more junior lecturing staff even though enrolments in first-year classes are heavy. Some staff members devote their time to

research and to postgraduate students, but most lecturing staff, according to their teaching, tutorial and laboratory commitments, have about one-half of their time theoretically available for their own special pursuits. Heads of departments, however, need to give a considerable amount of time to administrative duties including attendance at faculty and other meetings.

Among the Australian universities academic salaries are reasonably comparable, and although some differences between them occur from time to time, the similarities are usually greater than the differences. For certain positions in medicine, law, engineering and science, the standard salaries may be supplemented, especially at the professional level. Allowing for some variation between institutions, at the time of writing, the approximate standard rates of salary being paid in Australia are: professor, £A4000 to £A4250, according to the institution concerned; reader or associate professor, between £A2900 and £A3300; senior lecturer, between £A2400 and £A3000; lecturer, between £A1640 and £A2450. Salaries at the lower levels are graded, while salaries at the higher levels tend to be fixed.

Sabbatical or study leave is granted to teaching staff of the grade of lecturer or above, and a number of the universities provide grants of varying amount, in addition to salary, to assist staff members to travel overseas during their leave. Financial provision is also made by some universities to help staff travel to conferences in Australia and occasionally abroad. All the universities have superannuation schemes, mostly on the lines of the F.S.S.U., although some schemes are more generous than others. Sydney, for example, grants its professors a retiring allowance in addition to benefits under a scheme similar to F.S.S.U. Its lecturing staff, on the other hand, mainly comes under the New South Wales state superannuation scheme. Among other amenities are staff houses or clubs at a number of the universities. Each university has its staff association, and there is a federal council of staff associations. Various universities own or rent houses or flats for the benefit of newly arrived staff, and most of them also have schemes to assist the purchase of homes by staff members.

The usual Australian practice is to advertise vacant teaching posts. There is no statutory restriction as to nationality and vacancies are generally open to candidates of foreign birth or nationality provided they have an adequate command of the English language. The advertisement of junior positions is frequently confined to Australia and New Zealand, but lectureships and more senior posts are very often advertised in the United Kingdom, and to a lesser extent in European countries and North America. With the most senior posts (e.g. professor or reader), even though positions are advertised, a university may retain the right to appoint by invitation after private enquiry.

In 1959, the total number of full-time and part-time teaching and research staff in the Australian universities (part-time staff in brackets) was:

professors, 322 (including a part-time); readers, associate professors, lecturers-in-charge, etc., 287 (3); senior fellows and fellows of the A.N.U., 42; senior lecturers and lecturers, 2811 (955); senior research fellows and research fellows of the A.N.U., 51, tutors, demonstrators, etc., 1305 (658). Total, 4818 (1618). In addition, professional library staff numbered 357 (4).

Disregarding part-time and visiting staff, as well as junior staff (tutors, demonstrators, teaching fellows, graduate assistants, etc.), who are mostly recruited locally, Australian full-time staff from lecturer to professor in 1959 consisted of: (a) Australian graduates without degrees from other countries, 49 per cent. (local degrees 27%, graduates from other Australian universities 22%); (b) graduates from the United Kingdom, 34 per cent. (London 9%, Cambridge 8½%, Oxford 7½%, other English 6½%, other U.K. 2½%); (c) graduates from other British Commonwealth universities, 4 per cent.; (d) graduates from continental Europe and the U.S.A. (in about equal proportions), 10 per cent; and (e) others, 3 per cent.

One-half of staff with U.K. degrees consisted of Australian graduates, who mostly studied at the doctoral level. As two-thirds of staff with U.S. degrees and one-quarter of staff with European degrees were also Australians, the total effect was that in 1959 seven full-time staff members out of ten were Australian born.

Further, the more populous universities of Sydney, Melbourne, Queensland and Adelaide appointed one-quarter of senior staff members, of the rank of reader or professor, from among those who did not hold degrees of other universities. In the less populous universities of Western Australia, Tasmania and New England such senior appointment by promotion was negligible. However, the first group of universities appointed 52 per cent. of senior staff from those holding degrees of the United Kingdom (three-fifths of them Australians), while the second group appointed 63 per cent. from the same source (three-quarters of them Australians).

STUDENTS. In 1959 there were 47,663 students enrolled in the Australian universities. Of these, 28,403 were full-time (60 per cent.); 14,306 were part-time (30 per cent.); and 4,864 were external (10 per cent.). The number of women was 10,763 (23 per cent.). In the total were 2230 graduates proceeding to higher degrees (5 per cent.) of whom 118 (including 10 women) were full-time students in the institute of advanced studies of the Australian National University. During 1959, 13,985 new students were enrolled (30 per cent. of total students). Of the new students 6 per cent. were age 16, 31 per cent. age 17, 20 per cent. age 18, 8 per cent. age 19 and 35 per cent. age 20 years and over. Most of the new students in the last category were part-time or external.

Part-time students usually study in the evening. However, there are part-time day students, and in some universities there are evening students who

take full-time courses. As mentioned earlier, part-time enrolments of this type are often called 'part-course' because students not enrolled full-time are generally limited in the number of units they may take in each academic year. Sometimes tutorial classes for external students are arranged in country districts or at convenient centres during vacations. This is done by the universities of New England and Queensland, while lecture notes, reference lists and not infrequently library books are sent to these students (see section below on 'Extra-Mural Classes and University Extension').

Australian students mainly live at home (72 per cent.). The reason is that the majority of the universities are situated in areas of greatest population density. The percentage quoted relates to the year 1960 when there were 41 residential colleges or halls. These, however, accounted for only 8 per cent. of students, while a further 20 per cent. were living in lodgings. At the University of New England almost all internal students are in residence. The Australian National University is largely a residential institution at the postgraduate level. University House provides accommodation for staff as well as for postgraduate students without children. A hall of residence has been built for undergraduates of the school of general studies, while for senior students with families, flats and houses are often available.

Most universities have a student union responsible for student amenities including refectory, club rooms, sports buildings and ovals, occasionally a theatre, and so on. Student affairs are generally under the control of a student representative council and there is a wide range of sporting, social, cultural, religious and political clubs and societies. At the University of Western Australia, student amenities as well as clubs and societies are under the control of a body called the guild of undergraduates, while at the Australian National University the social life of the staff and postgraduate students is centred in University House, which is also a residential college. At most of the universities there is an officers' training corps or university regiment and at a number of the universities there is also an air training squadron. During the short vacations inter-university cultural and athletic contests are held. The federal body dealing with student affairs is the National Union of Australian University Students.

Various welfare services exist for the benefit of students. A number of the universities have health services, and students to-day are required to undergo a compulsory X-ray examination of the chest. There are also student advisers, counsellors or guidance officers. At some of the universities there is a warden of students, or a similar officer of senior standing, who is responsible for the general administration of student buildings and affairs, and for the co-ordination of student activities. Most universities have an appointments board or an appointments officer; and various universities have special research officers or staff members, associated with

their administrations, or with their departments of education and psychology, to study student problems as well as the broader issues involved in university education at the present time. To-day many students take paid employment during their long vacations, and even at other times, to assist them financially with their studies. Some of the universities have housing officers; otherwise information is obtainable from the central administrations or the student bodies. In most universities the student bodies gather information about lodgings or hostel accommodation. Most student bodies publish their own newspapers, and a number of them also produce orientation booklets at the commencement of each year for the benefit of new students. To help such students, student organizations and teaching staffs co-operate during an 'orientation week' before lectures begin.

The general fee for membership of student bodies, including the use of union facilities, varies from a nominal amount up to about £A15 p.a. according to the amenities provided. Additional charges are made for individual membership of student clubs and societies. The fees charged by residential colleges and halls are separate from ordinary university fees, including the fees of the student bodies which are usually collected at enrolment time. College fees include residence during term as well as tutorial assistance. Additional costs are involved when a student remains in residence during vacation. The charges made by university colleges or halls of residence vary between £A150 and £A300 a year, and taking account of university and other fees, college students may need up to £A600 to carry them through a full academic year. The normal cost of reasonable lodgings or hostel accommodation varies from £A5 to £A7 per week. Tuition fees vary according to university and faculty; but in the Monash University there is an overall fee irrespective of faculty. In addition, the Monash University makes no compulsory charge for student amenities.

Most university students are Australian born; but since the war increasing numbers of students from migrant families have been enrolled. Many of these have come not only from the United Kingdom, but also from continental Europe. In addition, 2871 students from Malaya-Singapore, Hong Kong, India, Pakistan, Ceylon and Indonesia, as well as from other countries in south-east Asia and the Pacific, were enrolled in the universities during 1959 (including 521 under the Colombo Plan). The university enrolment represented about three-tenths of all overseas enrolments from primary school to university.

Of all students enrolled in the Australian universities (i.e. including full-time, part-time and external students) one-half are assisted by scholarships, bursaries, free places and other forms of financial assistance; but of full-time students only the proportion is four in five. Further, 78 per cent. of the total assistance available comes from Commonwealth and state governments, of which 44 per cent. is represented by scholarships

under the Commonwealth Scholarship Scheme*. This scheme was established by the Commonwealth government in 1951. Under it 4000 new scholarships are provided annually for open competition among intending students who wish to undertake courses in the Australian universities or in other approved institutions of higher education. The scholarships are awarded on merit; and because of rapidly rising numbers of qualified applicants selection standards have been increasing in severity. To qualify for the scholarships, applicants and their parents must be resident in Australia at the time of the award of a scholarship and must intend to remain permanently in Australia. The maximum annual value of an undergraduate award to a full-time student, including (i) fees, etc., and (ii) living allowance (the latter being subject to a means test) at a high-cost university, such as Sydney, and in a high-cost course such as medicine is:—*living at home*: fees, etc., £A120 plus living allowance £A234, total £A354; *living away from home*: fees, etc., £A120 plus living allowance £A364, total £A484. Many students, because of the means of their parents, do not qualify for the living allowance. Additional Commonwealth scholarships and fellowships of a value varying from £A600 p.a. to £A1250 p.a. are available for postgraduate study and research. A residential qualification attaches to these awards, as it does to the undergraduate awards. Financial assistance provided by the states to university students includes 'bonded' awards which bind recipients to subsequent professional service in the states concerned. Bonded awards are often made to prospective teachers, scientists and engineers.

There are relatively few awards open to overseas students although considerable numbers of Asian students have their higher education paid for by the Commonwealth under the Colombo Plan. Other students are assisted under Unesco schemes or by scholarships awarded to them in their own countries. However, greater opportunities for postgraduate study by overseas students are now available under what is called the 'Commonwealth Scholarship and Fellowship Plan' (see last paragraph of section on 'Inter-University Organizations', below). To-day, such bodies as the C.S.I.R.O., as well as banks and industrial organizations, provide scholarships for undergraduate and, especially, for postgraduate study, but few such awards are open to overseas students.

Estimates of future university enrolments indicate a rise from approximately 37,000 students of all types in 1957, at the time of the Murray report, to a total of approximately 88,000 by 1965. The latter figure represents an estimate made by the Australian Universities Commission in 1960.

ACADEMIC YEAR. The Australian academic year accords with the seasons of the southern hemisphere. On average the teaching year of

three terms begins in early to mid-March following the enrolment of students and, in a number of the universities, an orientation week. The first term ends about the second or third week in May. The second term begins during the first or second week of June and continues until the first or second week of August. The third term begins about the first of September and continues until the end of October or early November, after which the examinations, occupying a period of three weeks to a month, are held. In most universities the ordinary teaching and examining work of the year finishes about mid-December, when the long vacation begins (see next section).

VACATION COURSES. Regular summer sessions of the American type, with university credit for work successfully performed, are not held in Australia but 'summer schools' for extra-mural students are held; in most states these are not under direct university auspices even though university staff assist. Practical field work, and work in industry, hospitals or schools, required as part of degree or diploma courses, is often done during long vacations; similarly, staff and postgraduate students usually use these vacations to further their personal researches. At some universities seminars for students who study externally are arranged in the vacations. During vacations and occasionally during term, individual university departments arrange conferences or run in-service courses for the benefit of teachers, business and professional groups, farmers and those engaged in the social services or in scientific occupations. Sometimes this work is linked with adult education activity (see next section).

EXTRA-MURAL CLASSES AND UNIVERSITY EXTENSION. University extension lectures began at Sydney University in 1886 and at Melbourne in 1891. In 1913 workers' educational associations were formed in most states. Since then changes have taken place in the organization of the work which is now mostly known as adult education. However, where the W.E.A. continues, it is assisted by university staff in the conduct of tutorial classes, a university officer usually acting as director. The Sydney organization includes a joint committee of W.E.A. and university, the committee appointing the tutors and supervising their work. In Victoria adult education is under a statutory council set up by the state government, while the University of Melbourne has a separate extension board. In Tasmania there is a board of adult education with university representation, and a body of the same name exists in Queensland. Adult education in South Australia is shared between the University of Adelaide department of adult education, the W.E.A., which works in close collaboration with the university department, and the state education department. In Western Australia, where adult education is an extra-mural

* This Commonwealth [of Australia] Scholarship Scheme is completely distinct from the [British] Commonwealth Scholarship and Fellowship Plan (see pp. 14, 15 and Appendix A/II) in which many countries of the British Commonwealth participate.

function of the university, there is an adult education board responsible to the university senate. The University of New England also takes responsibility for adult education in its area, while the University of New South Wales conducts extension courses in scientific and technological subjects. At the Australian National University there is a department of adult education within the school of general studies. In states which have adult education boards, whether under direct university auspices or not, the responsible officer is usually called the director of adult education. For many of their courses the boards depend on the co-operation of university teachers, and during the summer schools held in January, professors and senior lecturers are among the leaders. The boards are not only responsible for classes and study groups in city and country, but they also sponsor drama, music, ballet, art, etc., and arrange for groups of performers as well as tutors and lecturers to tour country districts.

Although not specifically regarded as part of adult education or university extension, the comprehensive system of correspondence education developed for external university students (and even for overseas students) by the University of Queensland, supplemented by classes in country districts, represents a substantial extra-mural function. A somewhat similar service is conducted by New England, while some other universities have less ambitious schemes (see sections on the 'Structure of Degree Courses, etc.' and 'Students', above). Despite these particular activities, as well as tutorial class activities in New South Wales, adult education in most Australian states is not regarded as instrumental in the attainment of higher technical or academic qualifications, but rather as a means towards general cultural education, or assisting with leisure-time pursuits and skills.

INTER-UNIVERSITY ORGANIZATIONS. The present Australian Vice-Chancellors' Committee developed from a standing advisory committee created to deal with matters of common interest following a university conference in Sydney in 1920. Although it is still in the main a consultative body, the committee now performs many important functions where general university policy and the national interest are involved. This is especially true since the report of the Murray committee and the increased interest of the Commonwealth in the welfare of the universities, including the establishment of the Australian Universities Commission, of which Sir Leslie Martin, CBE, is the chairman. The secretary of the commission is Mr. D. St. A. Dexter and its address is Commonwealth Offices, Treasury Place, Melbourne, C.2, Victoria. The Vice-Chancellors' Committee keeps in touch not only with the Australian Universities Commission but also with the Commonwealth government and its departments, including the Commonwealth Office of Education and the Commonwealth Scholarships Board on matters particularly relating to the

[British] Commonwealth Scholarship and Fellowship Plan. The committee usually meets five or six times a year. Its present chairman is Professor J. P. Baxter, CMG, OBE, vice-chancellor of the University of New South Wales. The deputy chairman is Mr. S. L. Prescott, OBE, vice-chancellor of the University of Western Australia, and the secretary is Brigadier R. G. H. Irving, CBE, University of Melbourne, Parkville, N.2, Victoria. Under the committee's auspices an annual conference of university registrars is held, usually in the middle of each year.

The staff associations of the universities have combined to establish a Federal Council of University Staff Associations of Australia. The president of the Federal Council, which came into existence in 1952, is Professor R. H. Thorp, department of pharmacology, University of Sydney. The hon. secretary/treasurer is Mr. K. D. Buckley, department of economics, University of Sydney. The council publishes a journal called *Vestes*; and in 1961 the Australian Vice-Chancellors' Committee, in co-operation with the Federal Council, organized the first of a series of biennial conferences of the Australian universities.

The National Union of Australian University Students dates from 1937, when, during an Australasian university conference at Adelaide, it was decided by the representatives of the student bodies to form a union on the lines of the union in England. The N.U.A.U.S. has its own council to which the student bodies send their delegates. Each year the N.U.A.U.S. holds a congress in January. Office-bearers, at the time of writing, are: Mr. R. J. Wallace, N.U.A.U.S. Office, University of Sydney (president), and Mr. P. Walmsley, N.U.A.U.S. Office, Newcastle University College (secretary/treasurer).

To administer the scheme by which students granted reservation for university study during the war were financially assisted, the Commonwealth government established a Universities Commission in 1942. However, with the creation of the Commonwealth Office of Education by means of the Commonwealth Education Act of 1945, the Universities Commission became responsible for the Commonwealth Scholarship Scheme as its major function. Then in 1959, to avoid confusion with the new Australian Universities Commission, an amendment was made to the Education Act whereby the name of the older commission was changed to the Commonwealth Scholarships Board. The director of the Commonwealth Office of Education is Mr. W. J. Weeden, who is also chairman of the Commonwealth Scholarships Board. The address of the Commonwealth Office of Education and of the Commonwealth Scholarships Board (the secretariat of which is provided by the C.O.E.) is 50 Myler Street, North Sydney, or Post Office Box 189, North Sydney, New South Wales. There are branch offices of the C.O.E. and of the Commonwealth Scholarships Board in each state except Tasmania. As a result of the legislative changes in 1959, the Commonwealth Office of

Education and the Australian Universities Commission function as separate entities under the prime minister's department. Before the establishment of the Australian Universities' Commission, the Commonwealth Office of Education was responsible for Commonwealth grants to the universities under the States Grants (Universities) Act.

One of the continuing activities of the Commonwealth Office of Education is responsibility for the university training of students from south and south-east Asia. The C.O.E. is specially charged with the responsibility for Colombo Plan students. It is also responsible for the postgraduate students who come to Australia under the [British] Commonwealth Scholarship and Fellowship Plan, which resulted from the conference at Oxford in 1959.

THE UNIVERSITIES TO-DAY. By 1960 the universities of Sydney and Melbourne had each enrolled more than 11,000 students, a total above the expected optimum of these institutions; and other universities had shown a corresponding growth. After the conclusion of the second world war none of the universities experienced a settling-down period. Research deficiencies, which became evident during the war, an increasing demand for higher professional, technological and academic qualifications, new national and international responsibilities, and an accelerated industrialization have all affected the growth and pattern of Australian higher education, and especially of the universities. During the past few years, apart from large-scale power and water schemes, defence projects involving also the United Kingdom, and nuclear research and automation, there has been an increasing tide of adolescent youth remaining longer in the secondary schools. This particular evidence of rising educational expectations has not only created problems of organization and staffing in the schools, but it has also caused the universities to be flooded with applicants qualified for admission according to the accepted matriculation standards. In this regard, it has not been easy to apply educational solutions, characteristic of countries with long traditions, small land area and high population density, to a continent, such as Australia, with shorter traditions, large land area and low population density. Nevertheless, the University of Melbourne has lately found it necessary to introduce post-matriculation selection, to cope with numbers, of a type which is reminiscent of post-war Britain.

Reference has already been made to the increasing commitment of the Commonwealth government in university finance since the war. A major effect of this development has been a general acceptance, during the past ten years, of the view that the universities can now function successfully only on the basis of a joint Commonwealth-states responsibility. This attitude is to be seen in the recommendations of the Murray committee of 1957 and in the first report of the Martin Commission of 1960, the financial pro-

posals of which for the triennium 1961-63 were accepted in full by the Commonwealth government. The charter of the Martin Commission required that it should (1) act as a liaison body between Commonwealth, states and universities; (2) report on university development every three years; and (3) make recommendations to the governments concerned on university finance.

Developments in the Australian universities since the report of the Murray committee have been considerable. More money has been available for staff and other expenses, salaries have been raised, many new buildings have been started or erected, new equipment has been supplied, research work has been extended, new departments established and new universities created; this growth has not been without controversy. Symptomatic of latest developments is the creation of the University of New South Wales in 1958 from the earlier New South Wales University of Technology, the establishment in the same year of the Monash University in Melbourne, the change in status and organization of the Australian National University, Canberra (in 1960) and the beginnings of university decentralization in Queensland with the opening of the University College of Townsville (in 1961).

In March 1961, the Monash University opened with 350 students in the faculties of arts, economics and politics, engineering, medicine and science. When fully developed it is expected that the Monash University will have about 8000 full-time students and 4000 part-time students. Also early in 1961 the government of Victoria appointed a committee to survey university needs during the next decade, and it asked the committee to report whether a further university should be established in Victoria, or whether there should be university colleges in city and country.

Apart from the above developments, a conference of university staff members, who had been conducting research into post-war problems of university education in Australia, was held at the University of Melbourne in July 1960. Later in the same year, when the Australian Vice-Chancellors' Committee considered the conference report, the committee, with the co-operation of the Federal Council of University Staff Associations, agreed to hold biennial, and broadly based, university conferences in Australia. This decision reflects the model of the Home Universities Conference of Great Britain. At the time of writing it is proposed to hold the first of the series of conferences at the University of Sydney in August 1961.

INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES. It has been mentioned already that there are Australian institutions of higher education which are not regarded as university institutions (*e.g.* technical colleges, schools of mines, agricultural colleges, forestry schools and teachers' colleges) although a number of them are affiliated to or are associated with universities. In Australia there are no private or

denominational universities, and, with one exception (*see below*), only the universities have the right to award the degrees of bachelor, master and doctor. Non-university institutions award certificates, diplomas or associateships; but some higher level institutions award fellowships and similar qualifications. Entrance to most diploma courses is at a lower standard than that of matriculation and is often at the level of the junior or intermediate certificate examinations (*see Appendix III*). However, there are varying admission standards according to the types of course students elect to take. Some courses (*e.g.* architecture) normally require university matriculation or its equivalent, while holders of certain college diplomas may be granted university matriculation, or in addition they may receive partial credit towards university degrees.

Agricultural Colleges. The colleges of agriculture such as Gatton (Queensland), Hawkesbury and Wagga (N.S.W.), Longerenong and Dookie (Victoria), Roseworthy (South Australia) and Muresk (Western Australia) provide courses up to four years in length in the different aspects of agriculture. Their admission standards are generally below that of matriculation although most of them are associated with the universities in the practical or the experimental aspects of agriculture. A number of the agricultural colleges assist in the training of teachers for rural communities.

Conservatoriums of Music. There are conservatoriums at the universities of Adelaide and Melbourne and degrees in music as well as diplomas are awarded. In these institutions the standard of admission to major courses is at the level of matriculation, but at Adelaide many conservatorium students, studying to become performers or teachers of music, are admitted below the matriculation level. In New South Wales and Queensland there are state conservatoriums separate from the universities. These admit students below the normal university entrance standard, although applicants need to possess practical qualifications in music.

Forestry Schools. The best known school of forestry is the Australian Forestry School in Canberra and degrees in forestry are awarded to students who spend part of their time in a university science faculty and part of it at the Australian Forestry School. The University of Melbourne also recognizes the Creswick Forestry School in Victoria for the same purpose.

Service and Administrative Colleges. At the more advanced level students of the royal naval, military and air force colleges require not less than the equivalent of matriculation to be admitted, while certain college courses in science and mathematics are accepted by the universities as a part qualification towards degrees. The Australian School of Pacific Administration (Sydney), under the Commonwealth department of territories, trains students in the various aspects of service and administration in dependent areas. There is also an Australian Administrative Staff College

(Melbourne) for the higher level training of business and other executives.

Teachers' Colleges. The standard of admission to the teachers' colleges varies somewhat from state to state but most students are recruited at the level of the school leaving certificate (*see Appendix III*) and many of these also hold university matriculation. The standard course for primary teachers is of two years, but matriculated students, preparing for secondary teaching, who attend the universities, may spend three, four or five years as 'college' students. There are shorter courses for certain categories of student, and not infrequently the colleges assist in the training of graduates for the DipEd awarded by the universities. To-day there is an increasing tendency for the work of the colleges to be integrated with that of the universities. This is being done by co-operative association or by affiliation, and in Tasmania by incorporation in the university framework.

Technological and Technical Institutions. Admission to diploma and similar courses in technical colleges is usually at the level of the junior or intermediate examinations (*see Appendix III*), although some courses (*e.g.* architecture) require the leaving certificate, matriculation or the equivalent of these qualifications. The more advanced teaching in the colleges and schools of mines, especially in the physical sciences and mathematics, is often at a standard which permits candidates to enter for university examinations, and occasionally passes in the examinations of the institutions mentioned provide a partial exemption from university degree requirements. Although many diploma students are enrolled full-time, the technical colleges admit considerable numbers of part-time students. Technical diploma courses in science and engineering, which are of three to five years' duration, have a more practical bearing than degree courses. In 1956 the University of Adelaide joined with the South Australian Institute of Technology to enable degrees in technology to be awarded by the university. In Western Australia the Kalgoorlie School of Mines is associated with the university faculty of engineering in the award of university degrees in mining engineering. The trend of the times is to refer to 'technological education' or 'higher technological education' when emphasis is placed on the more advanced and scientific aspects of what was formerly known as 'technical education'; and while some areas of technological education are now established as functions of universities, others are being developed within the framework of institutes or colleges of technology or else in departments providing a higher level of teaching in technical colleges. In recent years the Royal Melbourne Technical College has become the Royal Melbourne Institute of Technology, and similar changes are occurring elsewhere. An earlier development, as indicated previously, was the establishment of the New South Wales University of Technology in 1949. This was done by streaming off the more advanced courses at the Sydney

Technical College. However, in 1958 the N.S.W.U.T. became the University of New South Wales.

Theological Colleges. The teaching of theology is mainly done in denominational colleges or seminaries, independent of the universities, although some of the residential colleges affiliated to the universities and administered by the churches assist in the work. The standard of admission approximates to the level of the leaving certificate and it may be at matriculation level. Teaching in some of the colleges is at a standard comparable with that of university undergraduate courses. Among the theological colleges is the Australian College of Theology and the Melbourne College of Divinity. The latter institution awards the degrees of BD and DD.

Research and Professional Institutions. The best known independent medical research foundation in Australia is the Walter and Eliza Hall Research Institute in Melbourne which is linked with the Royal Melbourne Hospital as well as with the University of Melbourne. However, the largest single research organization in the country is the government-controlled Commonwealth Scientific and Industrial Research Organization which has close affiliations with the universities, including C.S.I.R.O. laboratories on most university sites. At the postgraduate level there are royal Australian colleges of physicians and surgeons. There are also professional associations of lawyers, engineers, scientists and teachers (e.g. the Law Society, the Australian Institution of Engineers, the Australian Academy of Science and the Australian College of Education). These institutions admit to membership as a mark of professional recognition, and in some cases to fellowship as an award of special distinction.

DIRECTORY TO SUBJECTS OF STUDY

FIRST DEGREE COURSES, ETC. The table on pp. 20-21 shows the main courses and subjects of study in the Australian universities. The symbol ✓ is used to indicate *major* courses, i.e. those studied for two or three years for a bachelor degree. The symbol ✓ indicates *minor* courses forming part of the course for a bachelor degree. Diploma courses, which are referred to below, are not included in the table.

Newcastle University College (see p. 69) prepares students for the degree and diploma courses of the University of New South Wales. Instruction in certain courses towards degrees and diplomas of the University of N.S.W. is provided at Wollongong, Broken Hill and Orange in New South Wales.

HIGHER DEGREES. The PhD is awarded by the universities as follows. *Adelaide*: in agriculture, architecture, arts, economics, engineering, law, medicine, science. *Australian National University*: in each of the research schools of the institute of advanced studies and in departments of the school of general studies. *Melbourne*: in all faculties except music. *Monash*: in science. *New England*: in all faculties. *New South Wales*: in applied science, architecture, commerce, engineering, science. *Queensland*: in all faculties. *Sydney*: in agriculture, architecture, arts, dentistry, economics, engineering, science, veterinary science. *Tasmania*: in arts, engineering, science. *Western Australia*: in agriculture, arts, dental science, education, engineering, medicine, science.

DIPLOMA AND CERTIFICATE COURSES. New England and Western Australia do not award subgraduate diplomas although the latter co-operates in the award of several diplomas by outside bodies. Other universities award diplomas at subgraduate and postgraduate levels and some also co-operate in the award of diplomas by outside bodies. The two courses in which diplomas are mainly postgraduate are education and medicine. The University of New South Wales offers postgraduate diplomas in certain technological fields as well as in librarianship.

Education. Awarded by Adelaide, Melbourne, New England, New South Wales (Newcastle University College), Queensland, Sydney, Tasmania and Western Australia. Subgraduate

awards are also made by Adelaide, Queensland and Tasmania.

Medicine. Melbourne and Sydney award diplomas in anaesthesia, diagnostic radiology, gynaecology-obstetrics, laryngology, ophthalmology (also Queensland), psychological medicine (also Queensland), public health, therapeutic radiology. Sydney also awards diplomas in clinical pathology, dermatological medicine and tropical medicine and hygiene.

Other diploma or certificate courses:

Accountancy: Queensland. *Agricultural Chemistry*: Sydney. *Agricultural Economics*: Sydney. *Agricultural Entomology*: Sydney. *Agricultural Genetics*: Sydney. *Agricultural Microbiology*: Sydney. *Agricultural Science*: Sydney. *Agriculture*: Melbourne. *Animal Husbandry*: Sydney. *Anthropology*: Sydney. *Architecture*: Melbourne, Queensland. *Arts and Education (AUA)*: Adelaide. *Building*: New South Wales*. *Clinical Psychology*: Western Australia. *Commerce*: Queensland. *Dairy Husbandry*: Sydney. *Dietetics*: Melbourne. *Divinity*: Queensland. *Educational Administration*: New England. *Educational Psychology*: Queensland, Western Australia. *Food and Drug Analysis*: New South Wales. *Fuel Science*: New South Wales. *Highway Engineering*: New South Wales. *Industrial Engineering*: New South Wales. *Journalism*: Melbourne, Queensland. *Librarianship*: New South Wales*. *Music*: Adelaide, Melbourne, Queensland. *Numerical Analysis and Automatic Computing*: Sydney. *Occupational Therapy*: Queensland. *Optometry*: Adelaide*, Melbourne*, Western Australia*. *Plant Pathology*: Sydney. *Pharmacy*: Adelaide, Melbourne*. *Physical Education*: Adelaide, Melbourne, Queensland, Tasmania, Western Australia*. *Physiotherapy*: Adelaide, Melbourne*, Queensland, Western Australia*. *Poultry Husbandry*: Sydney. *Psychology*: Melbourne, Sydney. *Public Administration*: Adelaide, Melbourne, Queensland, Tasmania. *Public Health Dentistry*: Sydney. *Quantity Surveying*: New South Wales*. *Social Studies or Social Work*: Adelaide, Melbourne, New South Wales, Queensland, Sydney. *Sugar Science*: Queensland. *Sugar Technology*: Queensland. *Teaching and Training of Subnormal Children*: Queensland. *Town and Country Planning*: Melbourne, Sydney. *Wool Technology*: New South Wales.

* Awarded by outside bodies with the co-operation of the universities concerned

STATISTICS

[Sources: Bureau of Census and Statistics, Canberra and Commonwealth Office of Education]

TOTAL STUDENT ENROLMENTS in 1959 (women students in brackets) were: *For higher degrees*, 2230 (277). *For bachelor degrees*: agriculture, 865 (78); architecture, 789 (81); arts, 10,911 (4760); commerce-economics, 4264 (340); dentistry, 725 (65); divinity, 10 (1); education, 701 (171); engineering, 3309 (3); law, 2016 (212); medicine, 4441 (644); music, 157 (114); science, 5019 (1058); technology, 435 (0); veterinary science, 419 (32). *Diplomas postgraduate*, 1007 (389) including 836 enrolled for the DipEd. *Diplomas subgraduate*, 6405 (1288) including engineering, 1642; science, 1450; pharmacy, 994; arts and education, 357; architecture, 393. *Certificates*, 1575 (373). *Miscellaneous*, 2777 (1014). Total students, 48,055 (10,900) less correction for double enrolments, etc. - 392 (- 137) amounted to 47,663 (men, 36,900; women, 10,763). The total of 47,663 included 14,396 part-course or part-time students and 4864 external students.

NEW ADMISSIONS in 1959. The total enrolment of new students was 13,985 (men, 10,053; women, 3932).

OVERSEAS STUDENTS (1959). *Total enrolments* (men students and graduate students in brackets): Africa, 10 (m. 10, gr. 3); America, 41 (m. 31, gr. 20); Borneo/Brunei/Sarawak, 121 (m. 107, gr. 1); Burma, 29 (m. 24, gr. 12); Cambodia, 1 (m. 1, gr. 0); Ceylon, 21 (m. 18, gr. 5); Europe, 6 (m. 4, gr. 4); Fiji, 103 (m. 91, gr. 2); Hong Kong/Macao/Formosa, 475 (m. 415, gr. 23); India, 60 (m. 58, gr. 29); Indonesia, 187 (m. 173, gr. 19); Japan, 5 (m. 4, gr. 4); Korea, 1 (m. 0, gr. 0); Malaya, 966 (m. 850, gr. 31); Middle East, 4 (m. 4, gr. 2); Nepal, 2 (m. 2, gr. 1); New Zealand, 135 (m. 120, gr. 28); Pacific Islands, 13 (m. 11, gr. 0); Pakistan, 21 (m. 20, gr. 10); Papua/New Guinea, 44 (m. 32, gr. 3); Philippines 38 (m. 26, gr. 21); Singapore, 455 (m. 387, gr. 8); Thailand, 63 (m. 45, gr. 25); U.K., 24 (m. 23,

gr. 18); Vietnam, 46 (m. 43, gr. 3). Total: 2871 (m. 2508, gr. 271). *Note*: of the 271 graduates 224 were men. *Enrolments in the arts and social sciences* (men students in brackets): Africa, 1 (1); America, 8 (4); Borneo, etc., 35 (24); Burma, 5 (3); Cambodia, 1 (1); Ceylon, 8 (6); Europe, 2 (1); Fiji, 50 (41); Hong Kong, etc., 79 (52); India, 2 (2); Indonesia, 39 (30); Japan, 1 (1); Korea, 1 (0); Malaya, 171 (137); Middle East, 0 (0); Nepal, 0 (0); New Zealand, 46 (6); Pacific Islands, 4 (4); Pakistan, 1 (1); Papua, etc., 20 (11); Philippines, 3 (2); Singapore, 93 (67); Thailand, 13 (12); U.K., 4 (3); Vietnam, 17 (14). Total: 564 (423). *Enrolments in the sciences and applied sciences*: these can be obtained by subtraction. *Enrolments under the Colombo Plan*: Borneo, etc., 54; Burma, 25; Cambodia, 1; Ceylon, 12; India, 12; Indonesia, 134; Korea, 1; Malaya, 95; Nepal, 2; Pakistan, 12; Philippines, 32; Singapore, 46; Thailand, 49; Vietnam, 46. Total: 521.

DEGREES AWARDED (1959). *Total awards* (higher degrees in brackets). *Agriculture*: BAgrSc, BScAgr or BAgr, 160 (29). *Architecture*: BArch, 59 (3). *Arts*: BA, 1187 (73). *Commerce-Economics*: BCom or BEC, 259 (4). *Dentistry*: BDS or BDS, 117 (17). *Divinity*: BD, 5. *Education*: BEd, 103 (6). *Engineering*: BCE or BE(Civil), 135; BEE, BE(Elect), 122; BMEchE or BE(Mech), 95; BME or BE(Mining), 21; BMetE or BE(Met), 11; BChemE or BE(Chem), 39; BSurv, 4; BMech and ElEng, 2; BE (AeroEng), 8; BAgrE, 1; BE(Arch), 1; higher degrees, 44; total, 483 (44). *Law*: LLB, 209. *Medicine*: MB BS, 422 (28). *Music*: MusBac, 21. *Science*: BSc, 682; BScFor, 13; BAppSc, 11; BSc(Med), 8; higher degrees, 160; total, 874 (160). *Technology*: BTech, 40. *Veterinary Science*: BVSc, 42 (2). Grand total: 3981 (including 366 higher degrees).

GENERAL INFORMATION

The univ. was estab'd. by act of the provincial legislature in 1874. It began with endowments of £A20,000 each from Sir W. W. Hughes and Sir Thomas Elder, a land grant of 50,000 acres (subsequently repurchased by the govt. for £A40,000), a site of 5 acres in the city and an annual govt. subsidy of 5 per cent. on endowments. The original site was increased to 8 acres in 1920, to 14 acres in 1927, in 1929 to 27 acres and in 1960 to about 30 acres.

CONSTITUTION. The council consists of the chancellor, the vice-chancellor, 20 members elected by the senate and 5 elected by parliament.

The senate consists of all grads. holding degree qf master or doctor and all other grads. of 3 yrs.' standing.

INCOME (1960). Total for general running costs, £A1,940,000 (govt. grants, 86 per cent.; endowments, 2 per cent.; fees, 10 per cent.;

other, 2 per cent.). Income and grants for specific purposes, £A222,000. Original capital of endowments, about £A1,530,000.

FACULTIES. Agric. sci., archit. & town planning, arts, dent., econ., engin., law, med., music, sci., technol. Deans apptd. annually.

BOARDS OF STUDIES. Pharmacy, phys. educn., physiotherapy, soc. studies, research studies (for PhD degree).

UNIVERSITY PRECINCT. The campus consists of about 30 acres within the city of Adelaide and about 45 acres in park-lands for playing fields; 2 major bldgs. occupied at beginning of 1961 and plans for 3 more in process.

LIBRARY. Approx. 256,000 vols., incl. 14,500 vols. in Waite Inst. library.

LABORATORIES. At the univ.—anat., biochem., bot., chem., engin. (civil, electr., mech., mining, metall. and chem. engin.), geol., histol., microbiol., pathol., pharm., phys., physiol., pharmacol. and zool. For the Waite Inst., *see below*.

MUSEUMS. Anat., bot., geol., pathol., physiol. and zool.

TEACHING HOSPITALS. *See above.*

The ELDER CONSERVATORIUM OF MUSIC (for staff *see p. 27 above*), establd. in 1898, is part of the univ. and provides tuition in a wide range of studies in the performance of music. Its students include not only those proceeding to the univ. dipl. but also many others who wish to study a principal subj. (e.g. singing or pianoforte) or to undergo trg. in group work such as orchestral and operatic performances and who satisfy the dir. of their fitness to be admitted.

The WAITE AGRICULTURAL RESEARCH INSTITUTE (for staff *see p. 27 above*) was establd. in 1924 as a result of a gift by the late Mr. Peter Waite of an estate of 299 acres, a mansion-house and a trust fund of £A58,450. Subsequent endowments and govt. grants have expanded the work of the inst., the purpose of which is 'to further the cause of res. and educn. in agric. and allied subjects'.

COMPUTING CENTRE. Formed in Jan. 1961 to handle data processing problems for admin. and depts., and to promote res. in computing. IBM punch-card equipment obtained and a 1620 computer to be obtained in 1961. Actg. Dir.: Prof. E. S. Barnes, BA Syd. & Camb., PhD Camb., FAA; Numerical Analyst: I. N. Capon, BSc; Officer in Charge of Equipment: D. W. Simmons, DFC, BEc AUA.

The COMMONWEALTH SCIENTIFIC AND INDUSTRIAL RESEARCH ORGANIZATION's div. of mathl. stats. and div. of biochem. and general nutrition are housed within the univ. grounds and its div. of soils at the Waite Inst.—a total of about 60 scientific res. officers and their ancillary staff.

OTHER SPECIAL RESEARCH DEPARTMENTS. (1) Field lab. at Koonamore for investigation of plant regeneration in arid areas. (2) Sheridan Medical

Res. Foundation for support of med. res. (3) Animal Products Res. Foundation, which conducts investigations into problems of animal nutrition (*see staff list, p. 26 above*). (4) Bd. for Anthropological Res. on aboriginals of Australia. (5) Anti-Cancer Cttee. directs res. into cause, treatment and cure of cancer. (6) Mortlock Res. Centre for animal prodn. (7) Gwendolyn Michell Res. Foundation for med. res. (8) Mawson Inst. for antarctic res.

COLLECTIONS OF INTEREST TO SPECIALIST SCHOLARS. Collection of Australian endoparasites. The collection of the higher Australian fungi (basidiomycetes) given to the Waite Inst. by Prof. J. B. Cleland is by far the largest of its kind and is available for study by mycologists and forest pathologists. Collection of representative specimens from all the Australian opal fields. Anthropological collection of Australian skeletons. Collections of marsupial material. Herbarium of Australian plants. Reference library of Australian Salmonellas.

ADMISSION. *See Appendix III.*

ORDINARY DEGREES. 3 yrs., BA, BEc, BSc, BTech (courses in bldg. technol.; civil, electr., electronic and mech. engin.; surveying; given chiefly at S. Australian Inst. of Technol.); 4 yrs., BSc in forestry (incl. 2 yrs. at Australian Forestry Sch., Canberra), BAgSc, LLB, MusBac, BAppSc (courses in appl. chem.; primary metall.; sec. metall.; given chiefly at S. Australian Inst. of Technol.); 5 yrs., BE (civil, electr., mech., mining, metall., and chem.), BDS, BArch; 6 yrs., MB BS. Part of the work for the ordinary degrees of BA, BEc, BSc, BTech, LLB, MusBac and BE may be undertaken on a pt.-time basis.

HONOURS DEGREES. 4 yrs.—BA (classics; econ.; Engl.; French; geog.; German; hist.; Latin; maths.; philos.; pol.; psychol.; or an approved jt. course in 2 of those subjs.); BEc (comm., econ.); BSc (biochem.; bot.; genetics; geol.; mathl. phys.; maths.; microbiol.; org. chem.; pharmacol.; phys.; phys. & inorg. chem.; physiol.; zool.); MusBac (both addnl. work and higher standard than for ord. degree); BMedSc (anat.; biochem.; genetics; microbiol.; pathol.; pharmacol.; physiol.); 5 yrs.—BAgSc (any approved branch of agric. sci.); BE (both addnl. work and higher standard than for ord. degree, in chem., civil, electr., mech., metall., and mining engin.); BArch, LLB (both addnl. work and higher standard than for ord. degree); 6 yrs.—BDS (addnl. year after passing the third, fourth or final exam. for ord. degree). No hon. degree in med.

HIGHER DEGREES. MArch (not less than 1 yr. after ord. degree); MA, MEc, MBM, MSc, MAgSc (1 yr. after hon. degree or 2 yrs. after ord. degree); ME (2 yrs. after BE); LLM (2 yrs. after hon. LLB); MEd (after bachelor degree, dipl. in educn., and 3 yrs. experience in educn.); MD, MS, MDS, MusDoc (3 yrs. after MB BS, BDS, MusBac); PhD (3 yrs. after hon.

bachelor degree in agric. sci., archit., arts, econ., engin., law, med. sci., or sci.); LLD, DDSc (4 yrs. after LLB, BDS); DLitt, DSc (5 yrs. after graduation).

The univ. does not award HONORARY DEGREES.

EXTERNAL DEGREES. The univ. does not award any degree or dipl. for external studies, though in certain courses, e.g. arts, S. Australian students may, in special circumstances, be exempted from attendance at lectures in some subsj. of the degree course.

DIPLOMAS. Any subgrad. dipl. awarded by the univ. entitles the holder to use the letters AUA—Associate of the University of Adelaide—and, if desired, to specify the subj., e.g. AUA(Pharm).

Pharmacy, 4 yrs.; educn., 2 yrs. after graduation; music, phys. educn., soc. studies, physiotherapy, 3 yrs. Fellowship of the Elder Conservatorium of Music (FECM) by exam. or by unanimous resolution of fac. of music for eminence as a performer. A 'final cert. in law' for admission as a practitioner in the supreme court is obtainable by articled clerks on a curriculum less extensive than that for the LLB; a dipl. in arts & educn. (AUA) is granted to candidates who complete prescribed work in the fac. of arts plus prescribed profess. trg. in one of the 2 recognized teachers' colls (3 yrs.); a dipl. in pub. admin. is granted to candidates who successfully complete a prescribed course of study in the fac. of econ. and who have had at least 3 yrs. satisfactory service in the S. Aust. public service or similar orgn.

PUBLIC EXAMINATIONS. The univ. conducts the 3 public exams. in general secondary educn. in S. Australia—inter., leaving and leaving honors.—and the public exams. in music.

POSTGRADUATE COURSES NOT LEADING TO A QUALIFICATION. The postgrad. c'tees. in med., dent. and legal educn. organize regular postgrad. lectures by local, interstate and overseas lectrs.

RESEARCH. Facilities for postgrad. res. in every subj. listed under 'Teaching Staff' (above); the univ. makes annual allocation for special support of res. projects and postgrad. res. students; and in 1960 grants from outside sources for specific res. projects amounted to about £A222,000. A *Research Report* is published annually; copies may be had free of charge by univs. and libraries on request to the registrar.

STUDY LEAVE. The univ. has a special fund to support study leave, which is granted not at regular intervals of right but after consideration of all applicns. for such leave in a particular yr. Study leave is granted on full salary, with £A600 for fares overseas and a daily allowance for men with family responsibilities.

FEES. Matric., £A3:3s.; *ad eundem statum*, £A4:4s.; admission to degrees: any degree of bachelor, whether ord. or honors, £A5:5s.; any degree of master or doctor, £A10:10s.; any dipl., and FECM, £A5:5s.; statutory annual

fee, £A13:10s.; general service fee, £A6:6s. or £A3:3s.; tuition fees for degree courses in arts about £A53 p.a.; econ. about £A58 p.a.; sci. about £A93 p.a.; agric. sci. about £A84 p.a.; engin. about £A84 p.a.; law about £A68 p.a.; med. about £A95 p.a. (excl. hosp., £A40); dent. about £A90 p.a.; music about £A53 p.a.; technol. about £A75 p.a.; appl. sci. about £A71 p.a.; archit. about £A84 p.a.; dipl. courses in music, physiotherapy, phys. educn., and soc. studies, about £A65 p.a.; in pharmacy, special; Elder Conservatorium tuition about £A40 p.a.

ACADEMIC YEAR. Mid-March to early Dec.: 3 terms of 10, 9 and 15 wks., each lecturing term comprising 9 wks.

ADULT EDUCATION. Univ. bd. of adult educn. conducts extensive range of lecture, tutorial and discussion classes and study circles for adults in metropolitan area of Adelaide and is extending its work to country centres. Dir.: A. S. M. Hely, MA BCom NZ.; Asst. to Dir.: D. W. Crowley, MA NZ., PhD Lond.; Tutor Organizer: F. V. Bitmead, BA W.Aust.; Admin. Asst.: C. R. Lawton.

VACATION COURSES. Summer Sch. of Bus. Admin., organized by Dept. of Econ. (see also 'Publications' below).

PRINCIPAL 'OPEN' AWARDS. About 350 Commonwealth scholps. (see pp. 12-13) and 60 state bursaries (for residents of S. Australia; fees plus living allowance) each yr. for undergrad. studies. Not less than 13 Commonwealth postgrad. scholps. (£A700 p.a., renewable each yr. up to 4 yrs. on recommendation of supervisor). About 30 (no. varies each yr.) scholps. and fellowships (£A550-£A1700 p.a.) for postgrad. studies.

APPOINTMENTS BOARD. The univ. maintains a small appts. service for the benefit of jr. grads. Sec.: D. G. McKie, BA.

The GRADUATES' UNION is a constituent member of the univ. union. Hon. Sec.: D. G. McKie, BA.

GENERAL INFORMATION

The Australian National Univ. was founded by an act of parliament of the Commonwealth of Australia in 1946. The act provided for the establishment in Canberra of a univ. consisting of a council and convocation, and grad. and undergrad. members. The prime function of the univ.

was to undertake postgrad. res., incl. the trg. of grad. students. No undergrad. members were enrolled until 1960 when, by amending legislation to the act, the Canberra Univ. Coll. became part of the univ. Canberra Univ. Coll. was established in 1929 by an ordinance of parliament as a teaching

instn. whose undergrad. members were prepared for degrees of the Univ. of Melbourne. The emphasis on res. is maintained under the new organization, the former work of the univ. being continued in the Inst. of Advanced Studies while the work of the coll. in teaching and res. is continued in the Sch. of General Studies. The resources of the univ., whilst serving the rapidly growing needs of Canberra, will be developed to make a univ. which will be national at all levels.

CONSTITUTION. The council, on the incorporation of the coll., was enlarged from not more than 30 members to not more than 38 incl. the vice-chancellor, 4 members elected by parliament, up to 12 apptd. by the governor-general, up to 4 elected by convocation, 8 elected by the academic staff (of whom 2 will be dirs. of research schs. and 2 deans of facs.), and 2 by students. The sr. academic bodies are the bds. of the inst. and of the sch.; there is also a professorial bd. which includes all full profs. in the univ. and which is advisory and does not meet regularly. The bd. of the Inst. of Advanced Studies is responsible to council for matters relating to doctoral degrees and the bd. of the Sch. of General Studies for matters relating to the degrees of bachelor and master. Candidates for doctoral degrees are, however, supervised by members of either the inst. or the sch. as is appropriate. Convocation will eventually consist mainly of the council and grads. of the univ., but at the outset the opportunity was taken to add to it the chancellor and vice-chancellor and 5 other representatives of each other Australian univ. instn., following the amendment to the Australian National Univ. Act in 1960 further names have been added to convocation (in addition to all former members of council of the Canberra Univ. Coll., members of staff, and grads. of 3 yrs.' standing who obtained a degree through the coll.) incl. members of parliament who have degrees and members of learned societies.

INCOME (1960). Running expenses of inst.: £A1,847,883 (Commonwealth govt. grants, 96·3 per cent.; rentals, 3·3 per cent.; fees and sundries, 0·4 per cent.). Commonwealth govt. grants for capital works, £A585,866. *Sch.* (1960): £A511,600 (Commonwealth govt. grants, 93·4 per cent.; fees, 6·3 per cent.; other, 0·3 per cent.).

UNIVERSITY PRECINCT. The univ. site consists of 340 acres of well-situated land in the Canberra district of Acton. The first permanent bldg. erected was the lab. of the Res. Sch. of Phys. Scis. University House, which provides collegiate accomm. for about 160 single staff members and grad. students, was opened in 1954. The permanent labs. for the John Curtin Sch. of Med. Res. were completed in 1956, and a start has been made with the res. library bldg. Plans are in hand for a permanent bldg. for the Res. Schs. of Soc. Scis. and Pacific Studies. Prelim. planning is proceeding for a maths. bldg. and for addnl. accomm. at Mt. Stromlo Observatory, which was transferred in 1956 from the Commonwealth to

the univ. and is now the dept. of astron. The observatory is 9 miles from the city. Up to 1960 the Canberra Univ. Coll. was housed in temp. quarters. In June 1960, the coll. occupied its first permanent bldg. to accommodate arts depts.; a phys. bldg. and a hall of residence planned by the coll. were completed in 1961 for the Sch. of General Studies. Tenders for a chem. bldg. have been called; bldgs. for zool., geol. and bot. are at planning stage. Bldgs. for the General Studies libr., a union and oriental studies (first stage) are also planned for 1961-63 triennium.

LIBRARIES. Inst. libr.: 132,000 bound vols., and about 25,600 vols. in oriental collection. General studies libr.: 71,000 vols. incl. oriental collection of 21,000 vols.

INSTITUTE OF ADVANCED STUDIES. As was contemplated by the act of 1946, the univ.'s activities were in the first instance concentrated on the 4 res. schs. named in the act—the John Curtin Sch. of Med. Res. (named after Australia's war-time prime minister), and Res. Schs. of Phys. Scis., Soc. Scis. and Pacific Studies. It is intended that each sch. should be led by a dir., but the responsibility for the organization of the work of particular depts. within the schs. will rest with their professorial hds. Dirs. have been apptd. in 3 schs., but in the John Curtin Sch. of Med. Res. a dean is apptd. In addition to the dirs. and profs. the staff comprises permanent readers, sr. fellows and fellows, and short-term sr. res. fellows and res. fellows. The univ. seeks to provide members of staff with the most favourable conditions for res. They have their whole time available for res., their teaching and admin. duties being of a quite minor kind. They have opportunities to move about among their colleagues in Australia and the permanent staff has generous provision for study leave.

THE SCHOOL OF GENERAL STUDIES is largely concerned (apart from the res. interests of its staff) with undergrad. teaching, although the staff, together with the staff of the inst., supervises students for higher degrees. There are four facs.—arts, econ., law and sci.—each with a dean. Deans of facs.: *arts*, Prof. A. D. Hope (English); *econ.*, Prof. B. D. Cameron; *law*, Prof. H. A. J. Ford; *sci.*, Prof. J. D. Smyth (zool.). Within the fac. of arts there is a sch. of oriental studies which provides courses in the Bahasa Indonesia, Chinese and Japanese langs., and in oriental civilization.

ADMISSION. Each dept. of the res. schs. of the inst. accepts a no. of grad. res. students of first-class calibre, the general minimum entrance qualif. being a good hons. degree from a recognized univ. and evidence of capacity for res.

For admission to the *sch.*, see Appendix III.

FIRST DEGREES. 3 yrs.—BA pass, BEC pass, LLB pass, BSc pass. 4 yrs.—BA hons. (more intensive than pass degree and more thorough trg. in one of following hons. schs.: Greek, Latin, Engl., French, German, Russian, hist., maths.,

Chinese studies, Japanese studies, S.-E. Asian studies, philos., pol. sci., psychol., econ., mathl. stats.), BEC hons. (students take pass course with distinction work in more important units; in fourth yr., hons. students specialize in 1 of the 4 subj. of the fac.: econ., pol. sci., stats., econ. hist.), LLB hons. (course as for pass degree with final hon. exam. held about 3 mos. after completion of course); BSc hons. (students attaining high standard in first 3 yrs. of course may be admitted to hons. yr. to specialize in 1 of following: bot., chem., geol., maths., phys., psychol., zool.). Pass degrees can be taken on the basis of pt.-time attendance at the sch. For hons. students in arts, econ. & sci., fourth yr. must be taken full-time.

HIGHER DEGREES. MA, MEd, LLM, MSc (2 yrs., exam. and thesis for pass grads.; 1 yr. and thesis for hons. grads.). Pt.-time students may be required to undertake longer candidatures. For PhD, each student pursues course of res. under supervision and, subject to certain conditions, may proceed to degree, normally after 3 yrs.' work DLitt, DSc and LL.D are conferred for distinguished work in appropriate fields publ. by persons with a substantial connection with univ.

HONORARY DEGREES. Persons of distinguished eminence in learning or in pub. service may be admitted to degrees of DLitt, DSc or LL.D *honoris causa*.

The univ. does not award EXTERNAL DEGREES.

STUDY LEAVE. Profs. of the inst. may take a yr.'s study leave with full salary in each 4 yrs. of service, readers and sr. fellows in each 6 yrs. of service and fellows in each 7 yrs. of service. Substantial travel allowances granted. In the sch., full-time members of academic staff are eligible for 1 yr. on full pay after 6 yrs.' service. The sch. also has a scheme of financial assistance towards study leave.

FEES. Inst.: £A53:11s. (covers all charges except board and residence). Sch.: matric or status fee—£A2:2s. Degree courses (per unit)—arts and econ. units: £A27; law subj.: £A12 to £A27; sci. units: 1st yr. £A27, 2nd yr. £A54, 3rd yr. £A54. Approx. total cost of courses—arts, econ. and sci.: pass degree £A270, hons. degree £A351; law pass and hons. degrees: £A408. Higher degree courses—approx. £A30 p.a. plus status fee on admission.

ACADEMIC YEAR. Early March to early Dec.: 3 terms of 10, 9 and 14 wks

ADULT EDUCATION. In the Sch. of General Studies a dept. of adult educn. was introduced in 1959. The staff tutor also organizes adult educn. activities in southern New South Wales in assocn. with the dept. of tutorial classes, Univ. of Sydney. Resident Staff Tutor: B. H. Crew, BA DipEd Q'ld.

SCHOLARSHIPS. The univ. offers a no. of scholps. in the inst. annually to support specially able students working for the PhD in the univ. Emoluments vary according to scholar's circumstances, but present basic rate is £A925 p.a. Students with appropriate medical qualifs. receive £A1347 p.a. Addnl. discretionary allowances may be paid to married scholars with children.

The univ. from time to time issues invitations to distinguished sr. scholars to visit Australia; such visitors undertake their own work, lecture and lead seminars with interested people not only in Canberra but in the other Australian univs.

Principal open awards for study in the sch.: natnl. undergrad. scholps.; oriental studies scholps. for Australian students preparing for first degree or who have a degree but wish to pursue oriental studies in the sch. at undergrad. level. Commonwealth scholps. (see pp. 12-13) and New South Wales teacher trg. scholps. also tenable in the sch.

RESIDENCE. Students of the inst. are normally required to live in University House. Fees range from £A8:18s.:6d. to £A11:11s. (married couple, £A17:17s.) per wk. according to type of accomm. Master of University House: Prof. A. D. Trendall, CMG, MA Camb. & N.Z., LittD N.Z., Hon. LittD Melb., Hon. DLitt Adel., FSA.

In the sch. the first hall of residence to accomm. 160 students (117 men, 43 women) was occupied in Feb. 1961. Fees, £A245 (reducible to £A230 if terminal payments made by due dates) per academic yr. Applicants for residence must be lodged by Nov. 1 each yr. Warden: W. P. Packard, MA N.Z. Accomm. in hostels and lodgings also available.

PUBLICATIONS. Calendar, £A1; Faculty Handbook, 6s.; Annual Report, 4s.; A.N.U. News (free), every few months; *Protheus* (students' mag.), annual, 5s.; *Woroni* (students' newspaper), fortnightly each term; *Thaigural Lectures*, Commonwealth Literary Fund Lectures; Morrison Oration

GENERAL INFORMATION

The univ. was founded in 1853 by an act of the Victorian legislature and declared open in 1855. Schs. of law and med. were establd. in 1857 and 1862 respectively. The ceremonial Wilson hall (destroyed by fire in 1952) was opened in 1882, a yr. after women students were first admtd.; the new hall was opened in 1956. Residential colls. were establd. as follows : Trinity, 1872; Ormond, 1881; Queen's, 1888; Newman, 1919. The conservatorium of music was opened in 1895 and the coll. of dent. affiliated with the univ. in 1904. A yr. later schs. of dent. and agric. were establd. By 1920, 2000 students were attending the univ., and during the ensuing 10 yrs. schs. of arts, anat., bot. and geol. were built and the univ. press establd. In 1935 the univ.'s first salaried vice-chancellor was apptd., previous holders of that office having acted in an honorary capacity. 1937 saw the establd. of Union House, a recreation centre for students, and the opening of Univ. Women's Coll., to which major extensions were made in 1952. Chem. and comm. bldgs. were opened in 1939. During the second world war the univ. became a centre of technical trg. and res. In 1947 enrolments had risen to 9100, and a branch was opened at Mildura for 1st-yr. students in certain sci. facs.; this branch was closed in 1949. Twenty-four new chairs were created in the yrs. 1945–58, a second arts bldg was opened in 1949 and 2 new floors added in 1956. The Beaurepaire centre for phys. educn. has recently been completed. The first 2 floors of the Russell Grimwade sch. of biochem. were occupied in 1958 and the Baillieu library was opened in March 1959. Following the adoption by the fed. govt. of the recommendations of the Murray report, some 136 new staff appts. have recently been made.

CONSTITUTION. The honorific offices are those of chancellor and dep.-chancellor (elected annually by council from among its members); they are assisted by the chief executive officers, viz. the vice-chancellor, registrar and accountant, and their staffs. The council is composed of 33 members—10 elected by grads.; 4 reps. of the teaching staff, 2 of affiliated colls., 2 of undergrads.; 8 apptd. by the govt. (3 being members

of parliament, the others representing business interests and technical schools); 4 *ex officio*; 1 nominated by the council of Monash Univ.; and 2 co-opted members. Convocation (the body of grads.) elects a standing cttee. with certain legislative and advisory functions. There is a professorial bd., and individual courses are controlled by facs. and bds. of studies.

INCOME (1959). £A3,666,732 (principal sources : state govt grants, 32.7 per cent; Commonwealth govt. grants, 29.8 per cent; students' fees, 20.3 per cent; pub exam. and cert. fees, 3.9 per cent; interest and non-capital donations, 9.5 per cent; other income, 3.5 per cent.).

UNIVERSITY PRECINCT. The univ. occupies 66 acres to the north of the city (40 acres adjacent to this area are vested in the 4 affiliated colls.). The master-plan for future devel. of the campus proper provides for new multi-storey bldgs. on the periphery, to retain the wide grassed areas in the centre of the campus. Other aims are : the conversion of several existing bldgs.; the demolition of obsolete bldgs.; the transfer of the med. school diagonally across the campus to the S.W. corner; and the control of parking and traffic problems in the grounds. A 12-storey bldg., being erected in the N.W. corner, is intended to house the depts. of psychol. and educn. and to act as a temp. home for other depts.

GENERAL INFORMATION

Monash Univ., which has been named after Sir John Monash, a distinguished soldier and engineer, was establ. by act of the govt. of Victoria in 1958 to meet the pressure on the Univ. of Melbourne of a rapidly growing population of young people. It was opened by the premier of Victoria, Mr. H. E. Bolte, on March 11, 1961. The permanent council took office in July 1961, planning up to that date having been done by an interim council of 25 persons widely representative of academic and profess. life in Victoria. Instrucn. began on March 13, 1961, in the facs. of arts, econ. & pol., engin., med. and sci.

CONSTITUTION. The governing authority of the univ. is the council consisting of not more than 36 members and constituted of 9 persons apptd. by the govt. in council, 2 elected by grads., 8 by facs., 2 profs. or deans, 1 elected by teaching staff other than profs., 5 *ex-officio* and 4 co-opted members, 2 hds. of affiliated instns. and 1 member of Melbourne Univ. Council; there is provision for representation of students. The main academic body, the professorial bd., was establ. in 1960 and is charged with responsibility for all questions relating to studies and exams. The facs., which are subordinate to the bd., are establ. in 1961.

INCOME (6 mos. to June 30, 1961). £A670,000 (state govt. grants, 76 per cent.; Commonwealth govt. grants, 17 per cent.; student fees, 7 per cent.).

FACULTIES AND DEANS (1961). *Arts*, Prof. W. A. G. Scott (Engl.); *econ. & pol.*, Prof. D. Cochrane; *engin.*, Prof. K. H. Hunt; *med.*, Prof. R. R. Andrew; *sci.*, Prof. A. J. Marshall (zool. & compar. physiol.).

UNIVERSITY PRECINCT. The 250-acre site at

Clayton, a suburb some 12 miles E.-S.-E. of Melbourne, is being developed in co-operation with the consulting architects whose plan provides for the siting of the bldgs. in the form of a splayed 'U', the open end facing eastwards towards the distant Dandenong Ranges. The bldgs. will be on the more elevated portion of the site and part of the area is reserved for sports grounds. The 5 facs. of arts, econ. & pol., engin., med. and sci. are at present functioning in those parts of the sci. bldgs. so far completed. The remainder of the sci. bldgs., together with parts of the first hall of residence, the maintenance workshops and the engin. bldgs., will be available for 1962. The plans provide for completion at a total cost of £A20-£A30 million by 1968, by which time the univ. will have some 8000 students.

LIBRARIES. The libr., already (April 1961) consisting of 30,000 vols., is being rapidly developed. In addition to the main libr., there will be separate librs. of med., sci. and engin., and possibly law. The sci. and engin. libr. bldg. will be completed for 1962 and during that yr. will house the main libr., the permanent bldg. for which will be commenced in 1963.

LABORATORIES. Jr. chem., jr. phys.

ADMISSION. See Appendix III.

NON-MEMBERS OF THE UNIVERSITY are not at present admitted to classes.

FIRST DEGREES. 3 yrs.—BA pass, BEc pass, BSc pass; 4 yrs.—BA hons., BEc hons., BE pass, hons., BSc hons.; 6 yrs.—MB BS pass.

First degrees in the facs. of arts and econ. & pol. may be taken on the basis of pt.-time attendance at the univ., but there are at present no evg. classes.

HIGHER DEGREES. PhD will be available in all facs. and master's degrees will be available in the facs. of arts, econ. & pol., engin. and sci. The detailed requirements are under consideration.

STAFF RESIDENCES. There are no staff residences. There is, however, a staff members' home purchase scheme by which loans up to 90 per cent. of property valuation may be secured from the univ.'s bankers and certain life assurance assocns.

STUDENT HEALTH SERVICE. A free med. exam. for students is conducted in collaboration with the dept. of health, Victoria. It includes anti-poliomyelitis immunization.

UNIVERSITY UNION. The union, which will be completed in 1965, will provide for extra-curricular activities of students and staff. It will be managed by a bd., already in being, on which staff and students are represented. Within the union, the students' rep council organizes and encourages all kinds of extra-curricular activities except sports, which are the responsibility of a sports cttee.

GENERAL INFORMATION

In 1938, at the request of the citizens of northern N.S.W., the New England Univ. Coll. was established as a branch of the Univ. of Sydney. The coll. thus became the first experiment in univ. decentralization in Australia. Teaching began in 1938 in the fac. of arts with an enrolment of 19 and in the fac. of sci. the following yr.

In 1953, following representations over a number of yrs., the Univ. of New England was established by act of the N.S.W. parliament and granted autonomy from Feb. 1, 1954.

CONSTITUTION. The univ. consists of the council, convocation, postgrad. and undergrad. students. The governing authority of the univ. is the council, which consists of 6 members apptd. by the governor, the director general of educn. of N.S.W., the principal of the Armidale Teachers' Coll., the vice-chancellor, 4 reps. of the teaching staff, 6 elected by convocation, one by undergrads. and 4 by members of council. The chancellor, who is elected by council, is the head of the univ., and the vice-chancellor is the chief executive officer. The sr. academic body of the univ. is the professorial bd., which consists of the vice-chancellor, profs. and hds. of depts.

INCOME (1960). *For general univ. purposes:* £A1,175,925 (Commonwealth govt., 14 per cent.; state govt., 70 per cent.; residential fees & sale of farm products, 7 per cent.; tuition fees, etc., 9 per cent.). *For bldgs., etc.:* state govt., £A232,000, Commonwealth govt., £A174,000.

FACULTIES AND DEANS. *Agric. econ.*, Prof. J. N. Lewis; *arts*, Prof. G. J. Rutland (*geog.*); *sci.*, Dr. F. H. Hibberd (*phys.*); *rural sci.*, Prof. G. L. McClymont (*nutr.* & *chem. pathol.*).

UNIVERSITY PRECINCT. The univ. site consists of some 1300 acres on the outskirts of Armidale, and includes a 400-acre farm. The original bldg. on the site, 'Booluminbah', an old country homestead, provides a headquarters for the admin. staff and a coll. dining room. A mod. union bldg. has been built together with a library, teaching and lab. blocks.

LIBRARY. Dixon library: about 80,000 vols.; subscribes to 1500 periodicals. Addl. 20,000 vols. (for use of external students) housed in pub. libr. of New South Wales, Sydney.

LABORATORIES. *Agric. econ.*, bot., chem., geol., phys., rural sci., zool.

FIELD STATION for res. into properties of the ionosphere. In the univ. grounds are the labs. connected with a large C.S.I.R.O. field res. stn. of 4500 acres situated about 10 mls. from Armidale. The UNIV. FARM of 400 acres provides facilities for field studies connected with the fac. of rural sci.

The ARMIDALE TEACHERS' COLLEGE provides facilities for teacher trainees who are undertaking univ. courses and for grads. who are pursuing the dipl. in educn. course.

ADMISSION. See Appendix III.

NON-MEMBERS OF THE UNIVERSITY. Anyone wishing to attend univ. lectures may do so upon payment of such fees as the council may from time to time direct, provided that any such person must obtain the approval of the fac. concerned before attending lectures and (if at time of entry he is qualified to do so) he matriculates.

FIRST DEGREES. 3 yrs.—BA pass, BSc pass; 4 yrs.—BA hons., BSc hons.; BRurSc pass, hons.; BAgEc pass, hons.

Main specializations for first degrees. *Arts*: classics, Latin, Greek, econ., educn., Engl., French, German, geog., hist., maths., philos., psychol. *Sci.*: bot., org. chem., phys. chem., geog., geol., maths., phys., zool. *Rural sci.*: physiol., livestock husb., nutrition & chem. pathol., agron., biochem., genetics, pathol. & livestock health. *Agric. econ.*: farm management, marketing & distribution, econ. stats., econ.

The lecture time-table is so arranged that evg. students may study pt.-time and complete a BA degree.

HIGHER DEGREES. MA—3 yrs. from BA pass, 2 yrs. from BA hons. (under new regns., MA is awarded in 2 classes of hons., depending on merit); MSc—1 yr. from BSc hons., 2 yrs. for grads. of other univs.; MRurSc—1 yr. from BRurSc; MAgEc—2 yrs. from 1st degree; PhD—available in all facs. 3 yrs. from 1st degree; DLitt—8 yrs. from 1st degree, awarded for original contribution of distinguished merit adding to knowledge and understanding of any branch of learning with which fac. is concerned; DSc, DRurSc—awarded for substantial and original contribution to knowledge and understanding of a sub. within scope of respective facs. Grads. of other univs. are required to have at least 2 yrs' assocn. with the

univ before presenting a thesis for a higher degree

DLit and DSc also awarded as HONORARY DEGREES.

EXTERNAL TUITION. Courses leading to BA pass degrees are offered by correspondence, but only persons resident in NSW, who cannot attend a local univ (Sydney, Newcastle, Canberra, Armidale) can be considered for external enrolment. External courses leading to DipEd (Secondary Teaching) and DipEdAdmin offered to grads. resident in NSW.

DIPLOMAS* DipEd (1 yr for internal students, 2 yrs for external students), offered internally in secondary, primary or infants teaching and externally in secondary teaching or admin. of educn. DipEdAdmin (external only, 2 yrs postgrad.).

RESEARCH The usual facilities for postgrad. res are provided in the various depts

STUDY LEAVE 1 yr. on salary after completion of 6 yrs' service for full-time members of teaching staff

GENERAL INFORMATION

* The univ. was incorporated by act of the NSW parliament on July 1, 1949—initially under the name of 'The N.S.W. Univ of Technology'—to meet the increasing demand in Australia for grads in scientific and technol fields. In 1958 these original objectives were extended by the Univ of N.S.W. Act, 1958, which gave the univ. power to conduct courses and res and award degrees in the fields of med. and humane studies and in such other fields as the council may from time to time determine. Courses for the BA degree were first offered in 1960, and in med (MB BS) in 1961.

The univ from its inception has provided courses in the traditional fields of scientific educn and has built up schools in engin and in the physical, mathl and biol scis. On this foundation the univ has in recent yrs extended its activities into such specialized technol fields as wool technol, textile technol, fuel technol and highway and traffic engin. Courses are offered for degrees in most fields on both a full-time and a pt-time basis. The first coll of the univ was established at Newcastle in 1951. Pt-time courses for BSc(Tech) degree in electr engin., mech engin. and metall, and for BSc degree (chem), are offered at Wollongong. A full college of the univ is being established there with its own bldgs. At Broken Hill pt-time courses in mining engin, mech engin and metall for BSc(Tech) degree, and in chem for BSc degree, are available. The first two pt-time yrs of engin are offered at Orange. In Broken Hill and Orange univ staff

and equipment are accommodated in the technol colls.

The univ has established within its academic structure a no of sp insts. to develop res. and conduct courses in fields which overlap the traditional subj divs. There are insts of admin, highway & traffic res, nuclear engin and rural technol.

The univ has also established a company, Unisearch Ltd, controlled by the univ council, to provide a res and testing service to indust. All profits are given to univ.

CONSTITUTION The univ is governed by a council of 36 members representing the state parliament, industrial, commercial and agricultural bodies, employee organizations, tech educn, professl. orgns, the Univ of Sydney and the univ's own academic staff and its undergrads. and grads. The professorial bd is the main academic body of the univ. There are 7 facs whose membership is made up of the sr. members of the constituent schs.

INCOME (1960) Operating, £A3,018,938 (state parliament grants, 66.26 per cent, Commonwealth parliament grants, 20.67 per cent, fees & contributions from industry and other sources, 13.07 per cent). Also in 1960 the state parliament provided £A1,069,559 and the Commonwealth parliament £A491,988 to meet capital expenditure on bldgs and equipment. In addition contributions from industry, comm and other sources

towards sp res and other purposes amounted to £A680,639

FACULTIES AND DEANS (1961) *Appl sci*: *archit* Prof F E Towndrow, *arts*: Prof M S Brown (sociol.), *comm* Prof E B Smyth (accty.); *engin* Prof A H Willis (mech engin); *med* Prof F F Rundle (surg.), *sci*: Prof J F. Clark (appl psychol)

UNIVERSITY PRECINCT The main site of the univ is in the Sydney suburb of Kensington where the original area of 70 acres was in 1960 enlarged to 95 acres with the acquisition of an adjoining golf course. Development at Kensington has reached the stage where all of the univ's schs except electr, mech and civil engin are located on this main site. The engin schs are at present located in the grounds of the Sydney Tech Coll but plans are well advanced for their accomm at Kensington. The 1st bldg of the med sch is nearing completion on the campus at Kensington.

LIBRARY Central libr at Kensington and jt. collections in univ. coll. and tech coll. librs used by staff and students. Univ holdings in all collections 151,970 vols.

LABORATORIES In addition to teaching labs in the sci and engin schs there are a no of specialized labs including a radiochemical res lab, the UTECOM computing lab and, at Manly Vale, the water tes lab

ADMISSION See Appendix III

ADMISSION OF NON-MEMBERS With the approval of hd. of sch. concerned, unmatriculated students may attend classes and take exams, but such study cannot be counted as meeting the requirements for a degree

PUBLIC EXAMINATIONS. See Appendix III.

FIRST DEGREES 3 yrs—BA pass (4th yr for hons in Engl, hist, philos, sci thought, psychol, sociol, econ, maths), BSc pass (4th yr for hons in appl. chem, biochem, chem., geol, maths, microbiol, entomol., phys, psychol, theory of stats, zool.), BCom pass (4th yr for hons in accty, appl psychol, indust. relns, econ, stats), 4 yrs—BBuild, BSc pass, hons (appl geol, ceramic engin, chem engin, food technol, fuel technol, indust aits, indust chem, metall, mining engin, optometry, polymer sci, textile technol, wood technol), BE pass, hons (civil, electr, mech, mining, indust engin), BSurv pass, hons, BCom pass, hons (wool comm), 5 yrs (pt-time) (6th yr for hons)—BSc (appl psychol), BArch pass, hons, 6 yrs.—MB BS pass, hons., BSc(Tech) (pt-time), no hons (aeron engin, ceramics, chem engin, civil engin., electr engin, food technol, fuel technol, indust chem, indust engin, mech. engin, metall., naval archit, polymer sci) Courses for the BCom, BArch, BSurv and BSc (gen sci and appl chem) degrees may also be taken by pt-time study. Candidates for hons do work addnl to that required for pass degrees

Students in facs of appl sci, engin, med and

sci study the common 1st-yr subjs, maths, phys, chem plus a 4th subj from psychol, engin, gen. biol or geol. Choice of 4th subj depends on course being taken

Full-time and pt-time courses leading to degrees in arts, comm, engin and sci. are conducted at Newcastle Univ Coll (see p 69).

In all undergrad. courses a certain amount of time is devoted to the study of subjs of a gen educnl. character outside the student's particular field. Students in facs other than arts take courses in the humanities and soc scis, while arts students take 2 courses in scientific subjs. A 2nd feature is the inclusion of periods of practical try in industry as an essential part of the scientific and technological courses to supplement the lab and lecture room work

HIGHER DEGREES *Research degrees* MA, MSc, ME, MArch, MCom, at least 2 yrs from bachelor's degree of this or other approved univs. Candidates for these degrees may register either as full-time or pt-time students or as students working externally to the univ. (Pt-time students normally take more than 2 yrs to complete the requirements.) Under certain conditions grads may submit theses for the award of MSc or ME without supervision, PhD (available in facs of arts, appl. sci., archit., comm, engin and sci), at least 3 yrs from bachelor's degree with hons or equivalent from this or other approved univs. Degrees of MD and MS being establd in fac of med. DSc (also hon) in facs of appl sci, engin, or sci, 5 yrs or more from 1st degree. *Degrees with formal instructn.* MTech (available in facs of engin and appl sci), 1 yr full-time, 2 yrs pt-time (chem. engin, communications engin, concrete structures, control engin, highway engin, hydraulics & hydrol., nuclear engin, pub health engin, structural analysis, traffic engin); MHA, 2 yrs (1 yr at univ, 1 yr. admin. experience in hosps)

DIPLOMAS *Postgraduate.* Food and drug analysis, food technol, fuel sci, highway engin, industrial engin and wool technol, open to grads in appropriate fields, 1 yr full-time, 2 yrs pt-time. Librarianship, 2 yrs pt-time. Educn (DipEd), at Newcastle Univ. Coll

Undergraduate. The univ since 1951 has provided the instructn. in dipl courses in fields of comm, engin, sci and technol leading to the N.S.W. dept. of tech educn's dipl award (A.S.T.C.). Commencing in 1961 these courses are being gradually withdrawn and replaced by 6-yr pt-time degree courses leading to the univ's new pass degree BSc(Tech)

Dipl in sociol. (3 yrs pt-time)

SPECIAL POSTGRADUATE COURSES In addition to courses leading to a higher degree, the univ. presents series of lectures designed to keep grads. in touch with latest levels in their respective fields. Less intensive courses on specific technol problems are given to personnel in industry

STUDY LEAVE Academic and sr. admin staff, one yr after 6 yrs. service, or in the case of profs,

6 mos after 3 yrs' service Provision is made for special cases.

GENERAL INFORMATION

The Univ. was established by an act of the state legislature in 1909 and teaching in the faculties of arts, sci. and engin. commenced in 1911. Other faculties established were comm. 1926; agric. 1926, law 1930, dent. 1935, vet. sci. 1936, med. 1936, archit. 1948; educn. 1948. Provision for external students has been made since 1911.

The move from the temp. bldgs. to the permanent site at St. Lucia was planned in 1936 but as a result of war-time delays the transfer began only in 1949.

Enrolments first reached the following levels in the years indicated: 1000 (1934), 2000 (1945), 3000 (1946), 4000 (1948), 5000 (1956), 6000 (1958), 7000 (1959), 8000 (1960), 9000 (1961).

In 1961 the Univ. Coll. of Townsville was established. In 1962 it will provide 1st-yr. classes in all faculties except archit., and 2nd-yr. classes in the faculties of arts, sci. and engin. It is expected that chem., educn., Engl., hist., pure and appl. maths., phys. and zool. will be taught to 2nd-yr. level. See also above.

The Univ. serves the state of Q'ld (pop. 1,464,835, area 667,000 sq. mls.) and enrolls external students from adjacent Commonwealth territories.

Special strengths in engin., vet. sci. and agric. sci. have been developed through close connexion with and support from industry.

Current developments include the installation of 2 electron microscopes, a digital computer centre is soon to be established.

In 1961 a programme of in-service training for academic staff will be held, incl. a course in teaching for 140 dems. and 11 lectrs., a conference on teaching for 50 new lectrs., and a seminar for sr. staff members.

CONSTITUTION The governing body, the senate, consists of 27 members, 14 apptd. by the state govt., 9 elected by the univ. council (consisting of all grads., all teaching staff, benefactors, etc.), 3 *ex-officio* members (the dir.-general of educn., vice-chancellor and the pres. of the prof. bd.) and a rep. of the staff assocn. A full-time vice-chancellor is the exec. officer of the senate and the chief admin. officer of the univ.

INCOME (1961) £A2,728,507 (state govt., £A1,091,000, Commonwealth govt., £A920,757; fees, £A612,400, other, £A104,350).

UNIVERSITY PRECINCT The St. Lucia site of 242 acres lies in a pocket of the river some 5 mls. from the centre of Brisbane (pop. 578,000). The main bldgs. of the faculties of arts, sci., comm. & econ., agric., law, vet. sci., educn., and archit., are on an elevated ridge. On the river flats are four ovals, 16 tennis courts, boat shed and other sporting facilities. Other bldgs. house admin., library, electr. engin., students' union, civil engin., surv., phys. educn. Extensions and new bldgs. for chem., zool., agric., civil engin. and phys. educn. were brought into use in 1960-61. The vet. sci. sch. moved into its new bldg. in 1961 and stage I of an extensive group of new bldgs. for the fac. of engin. is well advanced. Further bldgs. for facs and depts. now at other sites will be built at St. Lucia.

GENERAL INFORMATION

Founded in 1850, the Univ of Sydney is the oldest univ in Australasia. Its devel has been largely due to private benefactions. The act of incorporation provided for the appt of a senate of 16 fellows (later increased to 26) and a statutory grant of £A5000. The first provost and vice-provost (later entitled chancellor and vice-chancellor) were elected the following yr, and the first 3 profs arrived in Sydney from the U.K. in 1852, the yr of the univ's inauguration in the Sydney coll bldgs. (now occupied by Sydney Grammar Sch) in College St. These bldgs proved to be inadequate, and the state govt made a grant of land at Grose farm on the western boundaries of the city, with provision for subgrants by the senate for 4 colls and for subsidies towards the coll. bldgs. and the salaries of their hds. The univ was transferred to this, its present site, in 1857. St. Paul's College (C. of E) was

establd in 1854, St. John's (RC) in 1857, St. Andrew's (presb) in 1867, the Women's College (undenominational) in 1889, Wesley College (methodist) in 1910 and Sancta Sophia College (RC. women) in 1929. All were built on univ land and subsidized on equal terms.

Most of the univ bldgs have been provided from public funds. The Great Hall, a replica of Westminster Hall, London, was opened in 1859 and the main bldg. completed the following yr.

The univ was granted a royal charter in 1858. Women were admitted to membership of the univ. in 1881 and were given the same rights as men 3 yrs. later.

CONSTITUTION The body politic and corporate of the Univ of Sydney consists of a senate constituted of 4 fellows apptd by the governor, 1 elected by the legislative council, 1 by the legisla-

trive assembly, 10 by the grads., 3 by the fellows, 1 the vice-chancellor of the time, 5 rep of the teaching staff, 1 (a grad) rep of the undergrads. The chancellor and deputy-chancellor are elected by the senate from its own members. The chancellor or, in his absence, the deputy-chancellor, presides at all meetings of the senate, if both are absent, a chairman is elected by the fellows. The entire management of the affairs, concerns and property of the univ is controlled by the senate, which makes the by-laws and is subject to approval of the governor, who is the visitor to the univ. No religious test is administered to any person.

There is a professorial bd to further and co-ordinate the work of the facs and depts and encourage scholp and res. The facs are responsible for supervision of teaching and conduct of exams. The proctorial bd may, on reference by the vice-chancellor, impose penalties for breach of discipline or misconduct by students.

INCOME (1960). £A3,588,297 (state govt grants, 47 per cent, Commonwealth govt grants, 23 per cent, fees, 25 per cent, endowments, 24 per cent, other sources, 25 per cent).

The LAW SCHOOL (univ dept) is located at 167 Phillip St., Sydney (tel. BW5944), and the DENTAL HOSPITAL OF SYDNEY (univ dept of dent.) at 2 Chairmen St., Sydney (tel. MA7591), dept of aicht at 146-148 City Rd., Darlington (tel. 68 0522), and dept. of aicht sci. at 118-120 City Rd., Darlington (tel. 68 0522), POSTGRAD CTTEE IN MED. at Herford House, 188 Oxford St., Paddington (tel. 31 0671).

SCHOOL OF PUBLIC HEALTH AND TROPICAL MEDICINE. The sch acts as the teaching and exam centre for the univ's dipls of pub health and of trop med and hyg. In addition, a course in pub. health and prev med. is given for undergrad. students. Courses are also given in architectural hyg., soc. hyg, trop hyg, and indust. nursing. The sch is financed by the Commonwealth health dept., but all teaching is directly controlled by the univ, and the fac of med, together with all matters concerning dipls., syllabuses, fees, exams, etc. An advisory council of reps of the univ and of the Commonwealth dept of health deals with all matters of policy. The staff consists of a dir. (also prof. of prev med), a prof. of trop med, 11 med officers, and a number of visiting lectrs., 4 entomologists, 4 parasitologists and 11 technical officers. The DPH entry requirements are

those of the General Medical Council of Gt. Britain, the DTM&H courses correspond to similar courses at the London Sch. of Hygiene and Trop. Med. and the Liverpool Sch. of Trop. Med. The main divisions of the school are those of pub. health and prev. med., trop. med. and hyg., indust. hyg., bacteriol. and pathol., parasitol. and protozool., med. entomol., vital stats., child health and environmental health. Library of about 15,500 vols., dealing espec. in trop. med. and hyg., is available.

In the univ. grounds is the TEACHERS' COLLEGE, a branch of the state dept. of educn. The courses leading to the univ. postgrad. dipl. in educn. (DipEd) are arranged through co-operation between the staffs of the univ. and the coll. THE COMMONWEALTH SCIENTIFIC AND INDUSTRIAL RESEARCH ORGANIZATION (CSIRO) National Standards lab., situated in the univ. grounds. Close collaboration in res. activities exists between many univ. depts. and relevant divisions of the CSIRO. This applies particularly in agric., biochem., bot., zool., vet. physiol., electr. engin. and chem. engin. At the McMaster animal health lab., div. of animal health and production, CSIRO, facilities are available for res. in parasitol., bacteriol. and biochem. The McMaster field station (800 acres), attached to the same div., adjoins the univ. McGarvie Smith animal husbandry farm (see above). It is equipped primarily for investigations in genetics and reproductive physiol. in sheep and cattle under field conditions. In the dent. hosp. bldg. is the inst. of dent. res., which was establd. in 1946 for investigations into the causes and prevention of dent. caries. The inst. also does the routine pathol. work for the dent. hosp. The Queen Elizabeth II res. inst. for mothers and infants, which is in the univ. grounds, was establd. in 1958 for investigation of the causes and prevention of illness and deaths of mothers and infants. The Syd. group of the Radio Res. Bd. is under supervision of prof. of electr. engin. The group's main field of res. is study of ionosphere.

ADMISSION. See Appendix III. It should be noted that admission to the fac. of med. at the present time is restricted to residents of NSW because of shortages in staff and accomm., but the situation is reviewed at the end of each yr.

NON-MEMBERS OF THE UNIVERSITY. In exceptional circumstances only, a person without matric may be given permission by fac. concerned to attend lectures upon payment of necessary fees.

FIRST DEGREES. 1 yr (after completing 3 yrs in med.)—BSc(Med) pass, hons., 3 yrs.—BAgr pass (no hons.), BA pass (4th yr. for hons.), BEc pass (4th yr. for hons.), BPharm pass (4th yr. for hons.), BSc(GenSci) pass (no hons.), BSc pass (4th yr. for hons.), 4 yrs.—BScAgr pass, hons., BEd pass (no hons.), BE pass, hons. (aeron., chem., civil or mining engin.), BE pass (electr. or mech.

engin.) (5th yr. for hons.), BScChemEng pass, hons., BScFor pass (no hons.), LLB (full-time) pass, hons., BMus pass, hons., 5 yrs.—BArch pass, hons., BDS pass, hons., LLB (pt.-time) pass, hons., BVSc pass, hons., 6 yrs.—MB BS pass, hons., 2 yrs.' advanced study or res. (for persons aged 21 yrs. or upwards whose general educn. and sp. qualif. for advanced study and res. have been approved by fac. concerned)—BA or BSc. Matriculated students who have completed 7 specified courses for BA and fulfilled all requirements for DipSocWk may qualify for pass BA and Dip SocWk in 4 yrs. The LLB qualifies conditionally for admission to the Bar. Law students may take the BA first, selecting law subjects in 3rd yr., and complete combined course in 6 yrs., thereby gaining concessions in regard to periods of studentship and service as articulated clerk.

In general, candidates for hons. are required to do extra work except in the facs. of law, med., dent., vet. sci. and archit., in which hons. are awarded on the pass work of the whole course.

There are hons. schools in the following subjects: BA—(a) [ordinary hons. degree] Greek, Latin, classics, Engl., French, German, Italian, Chinese, Japanese, Indonesian & Malayan studies, hist., philos., govt., psychol., educn., econ., anthropol., pure maths, appl. maths, mathl. stats., geog., music and archaeol., (b) [in sch. of soc. scis.] hist., philos., govt., psychol., educn., econ. and anthropol. BSc(Med)—anat., histol. & embryol., biochem., physiol., bacteriol., pathol. and pharmacol. BSc—chem., inorg. chem., org. chem., phys. chem., agric. chem., phys., geol., geophys. with geol., geog., psychol., bot., zool., physiol., biochem., anat., pure maths, appl. maths, pharmaceut. sci. and analysis of foods and drugs, microbiol., phys., phys. anthropol., pharmacol. and mathl. stats. BScAgr—agric. chem., agric. econ., agric. entomol., agric. genetics, agric. microbiol., agron., animal husb., gen. agric., plant pathol., soil sci. and agric. bot. BEc—econ., econ. hist., govt., econ. stats. and accounting.

The BA, LLB, BSc(GenSci) and BEc may be taken solely by pt.-time attendance, the BA and BEc solely by cvg. attendance.

HIGHER DEGREES. When the 1st degree is awarded with hons., the period necessary to qualify for a higher degree is reduced in some cases as indicated. Div. (BD), 3 yrs. from 1st degree. Master's degree agric. (MScAgr), 2 yrs. (pass), 1 yr. (hons.) from BScAgr, 3 yrs. from BAg, archit. (MArch), 3 yrs. (or 2 yrs.' advanced study and res.) from BArch, arts (MA with or without hons.), 3 yrs. (pass), 2 yrs. (hons.), (MA with hons.), 1 yr. (hons.) from BA, dent. (MDS), 2 yrs. (pass), 1 yr. (hons.) from BDS, econ. (MEC), 2 yrs. from BEc; educn. (MED), 5 yrs. from 1st degree, engin. (ME), 4 yrs. (pass), 3 yrs. (hons.) from BE or BScChemEng, (MEngSci), 2 yrs. (pass), 1 yr. (hons.) from BE or BScChemEng, law (LLM), 2 yrs. from LLB; pharm. (MPharm), 2 yrs. from 1st degree, 1 yr. from BPharm with hons., sci. (MSc), 2 yrs. (pass), 1 yr. (hons.) from BSc, surg. (MS), 5 yrs. from

MBBS, town & country planning (MTCP), 1 yr after award of DipTCP (2 yrs); vet sci (MVSc), 2 yrs from BVSc Doctorates (except PhD), provided that (in 1962 and 1963) 8 yrs have elapsed since matric in the fac concerned, (after 1963) 8 yrs have elapsed since award of degree qualifying for candidature, except DD, for which candidates must be of 5 yrs' standing from BD; agric (DScAgr), 5 yrs (pass), 4 yrs (hons) from BScAgr, dent (DDSc), 4 yrs from BDS, div (DD), 5 yrs from BD, engin (DScEng), 8 yrs (pass), 7 yrs (hons) from BE or BScChem Eng, law (LLD), hon and earned, 2 yrs from LLB, letters (DLitt), hon and earned, 8 yrs from 1st degree in arts, med (MD), 5 yrs from MB, sci (DSc), hon and earned, 8 yrs (pass), 7 yrs (hons) from BSc, vet sci (DVSc), 2 yrs from BVSc. After graduation, an approved candidate may proceed to the PhD in all facs (except law and med.) which takes 3 yrs from 1st degree (see below, 'Postgraduate Study').

All higher degrees (except DLitt, DD, ME and MVSc) are open to grads of other approved univs. Courses of instruction for BD, ME and MTCP and facilities for the PhD and all degrees of master (except MS) are provided. Grads of other univs who are candidates for PhD or any master's degree (except MS) may be required to attend courses of instruction in addn to undertaking supervised res which must be carried out at Univ of Syd.

Except for MEngSc and PhD, grads of Syd Univ are not required to carry out, within Syd Univ, the res for above higher degrees. The res for MEngSc and PhD must be carried out within Syd Univ.

DIPLOMAS *Postgraduate* agric, by exam & thesis, open to grads who have completed courses acceptable to fac, 1 yr—(DipAgrChem), (DipAgrEcon), (DipAgrEnt), (DipAgrGen), (DipAgrMicro), (DipAgrPath), (DipAgrSci), (DipAgrHus), (DipPHus), (DipDHus), educn (DipEd), which may be taken also in the teaching of English as a foreign lang, by exam, open to grads in any fac, 1 yr, dent (DPHDent), by exam and thesis, open to grads of 1 yr's standing who have completed courses acceptable to fac of dent, 1 yr, numerical analysis & automatic computing (DipNA&AC), by exam, open to grads who have completed maths. II (pure & appl), 1 yr, psychol. GENERAL INFORMATION

In 1909 the govt. of W. Australia apptd. a royal commission with Sir John Winthrop Hackett, who subsequently became first chancellor of the univ., as chairman. Following the commission's report, the Univ. of Western Australia was endowed by an act of the state legislature which recd. the royal assent on Feb. 16, 1911. The first senate was gazetted on Feb. 13, 1912. Teaching began on March 31, 1913, and the formal inauguration of the univ. took place on Oct. 20, 1913.

At the time of its establ., the univ. had 3 facs—arts, sci., and engin. Law was added in 1927 and agric., originally a dept. of the fac. of sci., became a sep. fac. in 1937. In 1946 the fac. of dent. sci. was establ., and in 1947 the fac. of educn. (from 1916 till 1947 educn. was under the fac. of arts). Economics, a dept. of the fac. of arts since 1914, was establ. as a sep. fac. in 1954 and this was followed by the establ. of the fac. of med. in 1956.

From 1913 to 1930 the univ. was located in temp. bldgs. in Irwin St., Perth, but following a bequest under the will of Sir John Winthrop Hackett permanent bldgs. were erected on the present site of 165 acres at Crawley-Nedlands on a bay of the Swan estuary about 3 mls from Perth.

St. George's Coll., the first residential coll. within the univ., which was built and endowed by the Anglican church from funds bequeathed by Sir John Winthrop Hackett, was opened in 1931. A univ. hostel for men students and a women's coll. were opened in 1946. The hostel, renamed in 1961 Currie Hall, is now a hall of residence. The women's coll. renamed in 1959 St. Catherine's Coll., now occupies a new bldg. opened in 1960. St. Thomas More Coll., establ. by the Roman Catholic Church, was opened in 1955.

Perth, the capital city of W. Australia, has a pop. of 395,000. The univ. serves the whole state of W.A. (pop. 735,000).

CONSTITUTION. The admin. of the univ. is vested in a senate of 21 members, of whom 6 are nominated by the govt. and 7 are *ex-officio* or co-opted members. A second body with mainly

elective and revisionary functions is known as convocation. Convocation elects 6 members of the senate. The teaching staff elects 2 members.

INCOME (1960) £A1,340,196 (state govt., 57 per cent., Commonwealth govt., 33.7 per cent., other sources, 9.5 per cent.).

THE UNIVERSITIES OF CANADA

[Specially contributed for this edition by Colin M. McDougall, Registrar, McGill University]

HISTORY In 1635, the year before the colonists of Massachusetts Bay voted to found what would become Harvard College, the priests of Quebec city, capital of the French colony of Canada, founded the Collège des Jésuites. The Séminaire de Québec, lineal forerunner of the mighty Laval University of to-day, was founded in 1663. To this institution the Collège des Jésuites transferred its arts courses in 1765, and from these roots grew the whole vast system of French-Canadian education. One lusty infant of the same parentage, which grew into a giant, was the University of Montreal, established as a 'succursale' of Laval in 1876, and receiving its own charter in 1920. Scores of classical colleges, each attached to one of the universities, were founded over the years, and the French-language institutions even spilled over the provincial frontiers. The Collège St-Boniface, for instance, was established in Manitoba in 1827, the bilingual University of Ottawa in 1848 and St. Joseph's, of New Brunswick, in 1864.

Colleges in the English-speaking tradition came later. For a decade after the conquest of the French colony in the 1760s, the British military shouldered their muskets and tended to military affairs. It was the American revolution which brought English-speaking education to Canada. Streaming north from their absconded colonies came the civilian loyalists, and these men concerned themselves at once with the task of providing education for their children. The first institutions they founded were named, predictably, 'King's' Colleges. King's College, at Windsor, Nova Scotia, was founded by provincial charter in 1789, receiving its royal charter in 1802. The University of King's College is now located at Halifax and is intimately associated with Dalhousie University. In New Brunswick the Provincial Academy of Arts and Sciences became the College of New Brunswick by provincial charter in 1800, receiving its royal charter as King's College, New Brunswick, in 1828. In 1859 this institution became the University of New Brunswick. A third, 'King's College at York' (precursor of the University of Toronto), was founded in 1827. One may reflect how the influence of King's College, New York (which took the name of Columbia University after the revolution), spread to Canada, a group of Anglican clergymen in New York planned King's College, Windsor, while awaiting the ships that would carry them into exile. The loyalists were as devout as they were loyal, not only did they name these colleges for their King, they prescribed for them his religion. Each institution was firmly and fervently Anglican, and thus the denominational pre-

cedence in Canada was firmly established. Only some of the loyalists, and only some of the English-Canadians, of course, were Anglican, and this division was to give rise to bitter disputes.

The universities of Canada may be classified in one of three main groups.

1 Those founded, supported and controlled in varying degree by religious denominations. *e.g.* Laval, Montreal, Ottawa, St. Francis Xavier, St. Joseph's—Roman Catholic, King's, Bishop's—Anglican, Mount Allison—United Church, Acadia (and, until 1957, McMaster)—Baptist.

2 Those primarily supported by their province, and to some extent subject to provincial control. *e.g.* New Brunswick, Toronto, Manitoba, Saskatchewan, Alberta, British Columbia.

3 Those independent of church or state (although perhaps denominational at the outset), and at one time dependent upon private benefaction. *e.g.* Dalhousie, McGill, Queen's, Western Ontario, Carleton.

The Anglican King's Colleges demanded and received financial grants-in-aid from their local and home governments, a privilege at first denied to the other denominations. This engendered considerable strife and bitterness, and the 'college question' became entangled with the current political struggle for responsible government. As quickly as possible the other denominations moved to establish their own institutions. Thus, to cite a few examples: Acadia (Baptist 1838), Queen's (Presbyterian 1841), Victoria (Methodist 1841), St. Francis Xavier (Scottish R.C. 1853), Woodstock College (Baptist 1857, now McMaster), Mount Allison (Methodist 1858).

During these years generations of stern, dedicated clergymen, some of them inspired teachers and educators, others denominational martinetts, came to dominate the Canadian educational scene. For the most part there was nothing 'donnish' about these men, they had a hard job of education to do in a new country and they did it well. If the sweet delights of meditation in an Oxford cloister, or the revels of a Heidelberg beer-hall were missing, so were these things from the Canadian landscape itself. They bled their men to live in a *dour* country. The doctors, lawyers, teachers and fellow-clergymen who had to serve and earn their living in a new country whose very boundaries were unknown. Given the political-governmental background, it is little wonder that denominational battle lines were clearly drawn and bitterly contested.

The only early exceptions to this denominational emphasis were Dalhousie and McGill. Having seized the sum of £11,000 from the

American customs in the war of 1812-14, Lord Dalhousie founded the university bearing his name in 1818. This was in direct protest against the sectarianism and allocation of government support to the King's Colleges; and at Dalhousie registration was opened 'to all occupations and sects of religion'. James McGill left his estate and £10,000 to found McGill College, which received its royal charter in 1821. As a Presbyterian, turned Anglican, who married a Roman Catholic, McGill too decreed that his college should be non-sectarian. To accomplish this purpose one of the first principals, who was also rector of Christ Church in Montreal, had to be dismissed after bitter wrangling. Both these institutions were modelled on the University of Edinburgh pattern. A third institution of the Scottish type was Queen's, at first under Presbyterian control, but later non-sectarian. It is worthy of note that these three universities emphasized the study of science and medicine during the nineteenth century, and attained national prominence in these fields.

The universities of Canada are products of their times and geography. Hence in the early-settled Atlantic provinces, literate but poor, there are no fewer than seventeen degree-granting institutions for a population of less than two million. Only three of these receive provincial aid in substantial amounts, and all envy the prodigal support received by universities in the central and western provinces. If poor in relative terms, the Atlantic universities are rich in academic accomplishment. It is these universities which have for the most part produced the presidents and principals of the other universities of Canada.

Quebec and Ontario, with a population of ten million, have fewer universities. In the case of Ontario financial support has been lavish, at least as seen by Maritime eyes; in Quebec, since the recent resolution of the federal-provincial constitutional impasse, support has been generous. The process of consolidation and federation proceeded rapidly in the central provinces after national confederation in 1867. Various subdivisions of Presbyterian and Methodist colleges were united, and larger institutions gathered hosts of small colleges under their wings. The University of Toronto, Canada's largest, is a classic example both of federation and affiliation, containing within itself three universities, and a number of affiliated colleges, as well as perpetuating the names of other superseded precursors.

In the west, the newest section of the country, a new philosophy is evident. Each of the four western provinces, Manitoba, Saskatchewan, Alberta and British Columbia, has its provincial university, and the provinces have decreed that degree-granting powers shall be confined to these provincial universities. All are large (the University of British Columbia is now Canada's second largest in enrolment), flourishing and generously supported by their provinces. All have affiliated or federated colleges (Manitoba began on the University of London model as an examining and degree-conferring body) and it is probable, as a

result of the population explosion, that institutions such as Brandon College (Manitoba), Regina College (Saskatchewan), the 'University of Alberta in Calgary' and Victoria College (British Columbia) will be assigned roles of greater importance in the future. In statistical summary, Canada has forty-six universities and colleges with degree-conferring powers, more than 300 other institutions offer courses at university level.

The movement in Canada to establish new universities gains additional impetus each year. Four new institutions have been proposed for the province of Quebec, even one for New Brunswick already so plentifully endowed. In recent years the following new institutions have come into being, or changed to university status: Assumption University of Windsor, Laurentian University of Sudbury, Osgoode Hall Law School, Royal Military College of Canada, University of Sherbrooke, Sir George Williams University, University of Waterloo, Waterloo Lutheran University, York University. The existing universities will expand, and still more universities will be founded in the years ahead. For the enrolment in 1960-61 of 114,000 students will more than double by the end of the decade.

CONSTITUTION In structure Canada's universities range all the way from simple unitary types like, say, St Dunstan's, based upon one faculty with an enrolment of 350, to a federated and complex giant like Toronto with more than 14,000 students. On the scale between these extremes every size and type of institution is represented. Despite this diversity, however, it is interesting to note that a fairly constant academic standard prevails. One institution will, perhaps by ten percentage points, be less or more exacting than another in entrance requirements, but there is nothing equivalent to the U.S. state university which is required by law to admit any high school graduate of that state. In this particular of relatively uniform standards Canadian universities on the whole more closely resemble those of the United Kingdom than the United States. For the same reason, of course, it is more difficult to pluck out and identify any one as being the Harvard or Oxford of Canada.

Plenary control is exercised in almost every case by a board of governors who reserve to themselves full financial powers, but assign matters of academic concern (including curriculum, standards, degrees, etc.) to a senate or faculty council. The president or principal (and, usually, in this case, the vice-chancellor) is appointed by the board as the university's chief executive officer. The chancellor may, in the case of denominational institutions, be an archbishop, in other cases a retired and distinguished academic, and, in others still, a businessman who acts as chairman of the board. The board itself draws heavily on the business world, hardly at all upon the academic. Provincial universities will have governmental representatives on the board, the religious will have their clerics, but the most striking feature

of all boards is the preponderance of businessmen who govern the universities of Canada. It says much for the sagacity and patience of these men that universities have flourished as they have. Inevitable conflicts of interests or conviction between business and academic attitudes have been met head-on and solved, financial management for the most part has been excellent. Still, the academics are calling more urgently each year for a greater voice in university government. (For an interesting debate on this topic see recent issues of the bulletin of the Canadian Association of University Teachers.) The one focal point at which the interests of board, senate and faculty intersect is the president or principal. As a member, and often the sole academic member of the board, and usually also the chairman of senate, he has been likened to a 'narrow isthmus' linking the academic body to its governing head, and the academics would have it that the isthmus needs considerable broadening.

FRENCH-CANADIAN UNIVERSITIES Unique in the Commonwealth are the French-Canadian universities, patterned after the French model, and resembling neither those of Great Britain nor the United States. While deriving their structural origin from France, it should at the same time be noted that the French-speaking universities have developed distinctively Canadian characteristics of their own. The core of their structure is formed by the numerous *collèges classiques*, each attached to one of the universities, and in aggregate forming the faculty of arts of that university. These *collèges* confer the BA degree after an eight-year course, the first four years being at secondary school level, the last four years constituting the *cours collégial*. Yet note the differences between one of these *collèges* and a French *lycée*. The French-Canadian baccalaureate demands one more year of study than its French counterpart, it allows for no elective courses at all, and its curriculum differs in many other important respects. This is the distinctively Canadian pattern that has evolved over the centuries; and it will help to remember that the pattern was modelled on the French system *before* secularization occurred.

There are scores of these *collèges classiques* scattered throughout the province of Quebec, at least one in every Roman Catholic diocese. They are mostly residential and are not co-educational, separate colleges existing for girls. Comparing the French-speaking BA to its English university equivalent, it will be seen that it is a 'general BA', offering neither specialization nor electives. For this reason, and because instruction is given only in French, transfer into or out of the stream from another academic system is almost impossible. This BA is the primary means of admission to the university proper; considering that the *collèges classiques* constitute the faculty of arts, the BA qualifies the holder for admission to every other faculty of the university. It is, moreover, the prerequisite for admission to medicine, law, theology, social sciences, graduate faculty of arts, pharmacy and dentistry.

The second method of admission to university is by attendance at a French-speaking high school. Here there are normally twelve years of secondary schooling, and at the end of the *douzième année* the student may be admitted to courses in engineering, science, commerce, education, physical education, forestry, agriculture, nursing, physiotherapy and laboratory technique. In each of these cases the student will study toward the baccalaureate in the field concerned. As a rough guide, the *douzième année* of the French-speaking high schools is considered equivalent to 'O' level in the General Certificate of Education.

The French universities correspond to their English-language counterparts in offering the master's and doctor's degrees at postgraduate level. It is sometimes assumed that the *licence* is the usual second degree, but this degree, with some exceptions, is conferred only on graduates of a *collège classique*, and is designed to qualify them to teach in a *collège classique*. It involves four dissertations instead of one thesis, and differs in other respects from the usual master's degree. The student coming to a French-Canadian university from another system will, in any event, either work toward a bachelor's degree in his chosen field, or toward the usual postgraduate master's or doctor's degree. Transfers at postgraduate level from the English to the French system are quite usual and can be effected without difficulty.

The foregoing is a simplified account of a complex subject, and for more detailed information the reader is referred to the institutional listings of Laval University (p. 192) and the University of Montreal (p. 247), as well as to some of the publications listed under 'Further Information' on p. 121.

RELATIONSHIP TO GOVERNMENT Under the terms of the Canadian constitution, as defined in the British North America Act of 1867, education is assigned to the various provincial governments and not to the federal government. Thus each province has its own department of education, and until recently, apart from running the Royal Military College and supporting various research activities, the federal government did little more than keep a benign eye on the universities. Since 1952, however, the federal government has recognized the financial needs of the universities as a national responsibility, and hence a federal grant, at present calculated on the formula of \$1.50 per capita of provincial population, and divided among institutions according to individual enrolment, has been paid to all universities except those in the province of Quebec. To avoid any imputation of governmental interference these payments are remitted to the universities through an incorporated academic body known as the Canadian Universities Foundation (see p. 120). In ten years the government of Canada has paid \$139 million of sorely needed dollars to its universities.

Provincial grants, both to provincial and non-provincial universities, vary from generous to scant. One province, for instance (Manitoba), allocates 5 per cent. of its provincial budget to

universities, another (Newfoundland) less than 1 per cent. The most recent survey shows that annual grants to universities ranged from a low of \$182,000 in Prince Edward Island, to a high of \$30,000,000 in Ontario, or, on a *per capita* basis, from \$206 per student in Nova Scotia to \$1776 per student in Alberta.

Quebec presented a very serious problem of its own. As the guardian of *la survieance française* in Canada, Quebec has fiercely resisted any encroachment upon its exclusive rights in education. For six years, from 1953 to 1959, the universities of Quebec grew poorer and sadder and more desperate as the shooting war on the subject of provincial autonomy raged between the government of Quebec and the government of Canada. Education belongs to the province, cried the provincial government of that time—hence federal aid is unconstitutional and a violation of provincial rights. While the war raged the universities grew poorer and sadder and more desperate still. Happily to relate, however, a resolution* was reached in 1959, and in lieu of federal grants the Quebec universities now receive a statutory amount from the province larger than the federal grant (calculated on the basis of \$1.75 rather than \$1.50 per student) plus generous supplementary amounts for operating and capital costs. In effect, the government of Quebec has accepted the obligation of attempting to balance the budgets of its universities.

* CANADA COUNCIL. In 1957 the government of Canada set up a Canada Council charged with the task of implementing certain recommendations of the royal commission on national development in the arts, letters and sciences, which had been headed by the Right Honourable Vincent Massey. The announced object of the Canada Council was 'to foster and promote the study and encouragement of, and the production of works in, the arts, humanities and social sciences'. This was a bold and imaginative venture indeed in a country never previously noted for an over-zealous concern with its arts and artists.

To accomplish this purpose the government gave to the council the sum of \$100 million, divided into two funds, the University Capital Grants Fund and the Endowment Fund. The first fund of \$50 million is being spent over a ten-year period in matching grants to universities to help with the erection of buildings in the arts, humanities and social sciences. These grants were offered to ninety-five eligible institutions according to a complicated formula based on provincial population figures in relation to student enrolment, and they have already been put to extremely productive and effective use.

The second \$50 million, constitutes an endowment fund, the interest on which now yields almost \$3 million per year, and this money is used to accomplish all manner of good works.

About \$1 million per annum is expended on a scholarships programme which provides some 600 annual scholarships and grants-in-aid to Canadian students at the postgraduate level. Grants totalling well over \$1 million are awarded each year to orchestras, theatres, ballet and opera companies, universities and various cultural or academic bodies to enable them to maintain or expand their activities. In addition, many individual artists, writers, musicians and scholars receive grants to enable them to complete given projects and to free them for creative work. Imagination has been evident in every phase of the council's activities. Recently, for instance, grants of \$2000 each were made to seven universities to commission sculptures on their campuses—note the dual purpose achieved here, that of beautifying the campus and at the same time enabling the sculptor to practise his art and earn a living. Special grants of up to \$5000 are now being made to university libraries to develop programmes of instruction and research in asiatic, slavonic and mediaeval studies.

Of the ten categories of scholarships offered by the council those of chief interest to academics from abroad will be the two classes of non-resident fellowships. These are (a) fellowships of one year for study or teaching in Canada in the arts, humanities or social sciences, of an average value of \$3000 (plus travel allowance, plus two-thirds travel allowance for wife) for senior fellows, and (b) awards of an average value of \$2000 (plus travel allowance), subject to renewal, for younger scholars who have shown exceptional promise. These latter scholars should not accept teaching duties, and, under a recent modification, the senior non-resident scholars are only rarely expected to teach. In the 1961-62 session prominent scholars from the United States, England and France will spend one year as visiting lecturers at the universities of New Brunswick, Alberta, British Columbia, Montreal, Ottawa and Laval.

In the retrospect of only a few short years it seems almost inconceivable that Canada, and especially its universities, ever survived and prospered without the Canada Council.

The chairman of the Canada Council is Dr Claude T. Bissell, president of the University of Toronto. The vice-chairman is the Very Reverend Father G.-H. Levesque, and the director is Dr Albert W. Trueman. The address of the Canada Council is 140 Wellington Street, Ottawa, Ontario.

FINANCE. The total income for thirty-three Canadian universities and colleges for the academic year 1959-60 was \$118,859,723. This figure covers academic phases of their operations and does not include some twenty millions of gross income from ancillary enterprises and deferred federal grants. The chief sources of income and the average proportion of the university

* This whole problem makes a page of fascinating reading in Canadian history. For an excellent account see Edward F. Sheffield's *Canadian Government Aid to Universities* in the June 1960 issue of 'Vestis, the Australian Universities' Review'.

budgets derived from these sources are as follows: student fees, 27.8 per cent; gifts, 3.4 per cent; endowments, 4.1 per cent; federal grants, 13.9 per cent; provincial grants, 31.1 per cent; research grants, 15.4 per cent. These averages are far from being representative of individual universities. Thus student fees range all the way from approximately 15.0 per cent to 68.0 per cent. Some of the budgets, gifts range from 0.0 per cent to 35.1 per cent, endowments from 0.0 per cent to 28.1 per cent, federal grants from 0.0 per cent to 44.0 per cent, provincial grants from 0.0 per cent to 92.6 per cent, research grants from 0.0 per cent to 29.1 per cent.

PRE-UNIVERSITY EDUCATION In the English-speaking system children usually enter school at the age of six. Attendance is compulsory from the age of six to fifteen or sixteen. Approximately two-thirds of the children entering grade I continue into secondary school, and about one-third complete the requirements for a high school leaving certificate at the end of eleven or twelve years. In most provinces secondary schooling follows the composite pattern, although technical schools provide vocational courses in many of the cities.

Secondary schooling ends either at junior or senior matriculation level. As a rough guide, 'O' level in the General Certificate of Education is considered to be equivalent to junior matriculation, and 'A' level equivalent to senior matriculation. The junior matriculation year is grade XI in Newfoundland, Nova Scotia, Quebec and Manitoba, and grade XII in Prince Edward Island, New Brunswick, Ontario and British Columbia. The senior matriculation year is grade XII in Nova Scotia, Quebec, Manitoba, Saskatchewan and Alberta, and grade XIII in Ontario, New Brunswick (occasionally) and British Columbia. The senior matriculation year at school is generally accepted as being equivalent to first year at a university which admits from junior matriculation level.

In French Canada children either attend a high school, in which case the *deuxième année* is usually the terminal year of secondary education, or they enter a *collège classique*, already described on p. 115.

ADMISSION (see also Appendix III) Except in faculties such as medicine, where the number admitted depends on the available number of clinical places, all applicants who meet the stipulated entrance requirements of a university are admitted. Residential universities, of course, can admit only up to their limit of available rooms, and a few universities are so crowded at present that a small proportion of qualified applicants must be turned away until new buildings and class-rooms are provided. In general, however, applicants who write provincial examinations at the end of their secondary schooling and obtain the required average (usually from 60 per cent to 70 per cent) in certain prescribed papers (as detailed in Appendix III) will be admitted. A small, but perhaps notable trend of the future, is the desire of a few univer-

sities to limit enrolment and to select the best students out of the total number who apply. McGill, for instance, requires College Entrance Examination Board tests of its Canadian applicants and issues some 'provisional early acceptances' before the provincial examinations have been written.

For admission to graduate school a first degree with at least 'second-class honours standing' in the subject proposed for the higher degree is usually required. Some graduate faculties will admit a student to a 'qualifying year' if he has good general standing but lacks the necessary prerequisite subjects. Graduates of other universities throughout the world are admitted if they have equivalent standing.

Instruction is in either English or French, according to the university. A good working knowledge of the appropriate language is essential, and some universities (e.g. University of Toronto) require applicants whose mother tongue is not English to submit the English Language proficiency certificate of the University of Cambridge or the University of Michigan. Non-Canadian students should apply as early as possible before the session commences. Canadian immigration authorities will require proof of health and financial competence.

STRUCTURE OF DEGREE AND DIPLOMA COURSES

A pass or 'general' first degree is usually conferred after four years of study from junior matriculation, or three years from senior matriculation. The BA normally comprises five full courses each year, science, and especially engineering courses usually considerably more. Examinations are held each session on the work of the year in each course, and 'pass standing' is required in order to be admitted to the subsequent year. In the general degree the student proceeds according to some basic pattern of major, continuation or cognate subjects. The vast majority of Canadian students are registered in general rather than in honours degree courses.

The honours degree usually demands an additional year of study, although this requirement is by no means universal. In honours courses the student may take 'joint honours' in two subjects or concentrate exclusively upon the one chosen subject. Concentration is the keynote of an honours course, the governing board of the academic banquet is not for the honours student he dines exclusively from the one academic dish. 'Honours standing' (usually from 65 per cent up) is required both to enter and to remain in an honours course.

A master's degree demands at least one year of study in certain prescribed courses beyond an honours bachelor's degree, and an acceptable thesis. The PhD requires at least two additional years, prescribed courses, examinations and the presentation of a comprehensive thesis. The work of the postgraduate student is carried out under a specified director of research, and his thesis must indicate some original capacity for

research Proof of competence in German or French, or both, is required, there is usually an oral examination, and sometimes the student must publicly defend his thesis.

Advanced degrees are also awarded in such faculties, colleges or schools as medicine, law, dentistry, social work, library science, etc. A prior period of study in another faculty and, more often, a first degree, is required for admission to these professional faculties, which are usually quite separate and distinct entities from the university's faculty of graduate studies and research.

Diploma courses are usually offered at a lower level than degree courses, although they will sometimes signify a further professional qualification, in the case, for example, of a diploma course in medicine open only to MD graduates. More usually, however, diplomas are awarded to those who seek lesser qualification in such fields as nursing, physical education, music, agriculture, etc.

TEACHING STAFF In 1961 there were some 8600 teachers and researchers employed in Canadian universities, ranged among the academic grades, in descending order of rank, of (full) professor, associate professor, assistant professor and lecturer or instructor. Another still more junior grade, not included in the above total, is that of demonstrator, a post which is often filled by post-graduate students. 8600 teachers and 114,000 students represents a student-staff ratio of about 13 to 1.

The main teaching method is the lecture, supplemented by seminars, and in the sciences there are often two hours of laboratory periods for each hour of lectures. In general, university teachers find their own time for research activities, although in some institutions the teaching load will be reduced to make more time available for important research projects. A fairly common pattern of maximum lecture-load is nine hours per week for a full professor, and twelve hours per week for an associate professor. Grants in aid of research are made to individual researchers in about half of the universities, about the same proportion provide funds for travel in connexion with research, for publication of papers and for attendance at meetings of learned societies. Sabbatical leave is established policy at only about one-third of the universities. At most of the others, however, leave of absence for research is usually granted, and the salary paid during leave, whether sabbatical or other, is usually about 50 per cent. of the full-time salary.

During the past decade salaries have more than doubled, the median for all grades now being about \$8000 per annum. Nearly all universities have adopted minimum salary scales for each of the four grades, and in some cases the medians and averages exceed the minima substantially. The minima in the higher-paying universities (it being understood that some are much lower) are as follows: professor, \$12,000; associate, \$9000; assistant, \$7000; lecturer, \$5500.

Tenure is nearly always granted to full professors, and often to associate professors. Pensions and superannuation plans are of all forms and kinds, and in general there is difficulty in transferring a plan from one university to another. This is a complex matter and those coming from abroad are advised to seek individual advice from their university when discussing terms of appointment. (At this time it will be found that only one-third of the universities offer contracts, the others will merely provide a letter of appointment.) More than half of the universities have a fixed pension plan with the amount of the pension running at about 2 per cent. of the final salary (or average salary of the last five years) per year of service. Thus a professor whose terminal salary is \$15,000 and who has served thirty years, should retire with 60 per cent. of \$15,000, or \$9000 a year. This will be recognized, of course, as being one of the more felicitous examples. Vacancies are usually filled as a result of private enquiry between universities. The Canadian Universities Foundation, however, now publishes periodic lists of 'Academic Vacancies in Canadian Universities and Colleges', and it is expected, in view of the importance of recruitment in the years ahead, that universities will make wider use of this and every other method.

The majority of Canadian professors have taken their first degrees in Canada. Although some Canadian graduate faculties are very good indeed, by choice, or by gravitation to the world headquarters of an academic discipline, many Canadians pursue their graduate training in the United Kingdom, the United States or Europe. Commonwealth and United States scholars are numerous in the Canadian universities, those from other countries constitute less than 5 per cent. In general, there are no restrictions based on nationality, and good scholars and teachers from all parts of the world are welcomed.

STUDENTS A 'university student' in Canada is generally taken to mean one who is in full-time attendance during the regular session extending from September until May. There were 114,000 such students enrolled during the 1960-61 session, and it is interesting to note that, although Canada has only one-third of Great Britain's population, this figure exceeds the total number enrolled in that country. The reason is, of course, that a higher proportion of those in the 'college-age group' (for statistical purposes, the population group aged 18-21) attends university in Canada. The proportion now enrolled is 11.2 per cent., and in the years ahead it is estimated that the figure will increase at least to 15 per cent. and possibly even to 20 per cent. Most Canadians, however, would qualify at the 30 per cent. proportion now obtaining in the United States. Several universities, e.g. Sir George Williams and Carleton, in addition to their day-time programmes, operate 'evening divisions' which offer degree courses to those who are employed during the day. Others enrol students in extra-mural courses and in

summer schools from which degree credit may be obtained. In general, however, the road to a Canadian first degree leads directly through three to five years of regular day-time attendance.

Many universities, especially those in the country or in smaller towns and cities, are completely residential. In the metropolitan universities the majority of students live at home or in lodgings, only a minority live in university residences, and these can seldom accommodate all who apply. Annual tuition fees range from a low of \$150 to a high of \$675 a year, depending on the university and the course concerned (e.g. medicine is high). (Note that these fees are substantially lower than those of private universities in the United States.) Room and board costs from \$425 to \$800. On the basis that another \$500 might be budgeted for all other costs, including books, entertainment, laundry, etc., this means that the total cost to a foreign student for one academic year will range from \$1100 to \$2000. Such a student may earn part of this cost through summer employment, but jobs during the four or five months of summer vacation are by no means guaranteed, and may be precluded by department of immigration regulations. Engineering students are commonly required to complete a minimum period of work in industry before their degrees can be conferred, and in cases of this and similar kind the department of immigration does, of course, permit the student to work.

Every student body has its representative 'students' council', usually with headquarters in a students' union, which forms a centre for the mass of activities offered to the students at large, and at many universities the students' council exercises a real degree of autonomy in conducting student affairs. The new student is confronted with a dazzling variety of student activities and clubs to choose from, and his bewilderment is not always ended by his dean's admonition that studies must take priority over extra-curricular affairs. Many universities have Greek letter fraternities. Nearly all universities have training units for the three armed services.

Most universities operate a health service, financed from fees, which includes medical treatment and hospitalization. There is usually a student counsellor and/or an adviser for foreign students, a placement service, a lodgings service, a vocational guidance service, etc. The range of 'welfare' services, however, varies widely from one university to another.

The scale of scholarship assistance, and other forms of student aid, has increased strikingly during recent years. The non-Canadian undergraduate will not usually be eligible for an entrance scholarship, but after he has written his first sessional examinations he will compete on equal terms for university scholarships and be eligible for bursary assistance or student aid. Canadian students now receive greatly increased amounts of aid from their province. In 1959-60 Quebec, for example, awarded \$1,470,000 in 'loan-bursaries' to a total of 5400 students. Ontario awards an

automatic scholarship of \$400 to every student who obtains a grade XIII matriculation average of 80 per cent or better. Aid is more meagre in the Atlantic provinces, but the general trend from little to large help is apparent. The principle, at least, is now generally recognized that no talented student should be debarred from university for lack of financial means. One of the most important developments in the next decade may be the provision, through provincial, university and other schemes, of free tuition for every student who can obtain a second-class matriculation average. The federal government has long accepted an obligation to nourish research, and has therefore provided funds for graduate training. In science and technology such grants have been administered by the National Research Council for many years, and since 1958 postgraduate awards in the arts, humanities and social sciences have been made by the Canada Council (see p. 116).

ACADEMIC YEAR The usual academic year runs from the end of September until the middle of May, and is divided into two terms by a two-week break at Christmas.

VACATION COURSES Twenty-nine institutions offer summer courses for which university credit is granted. These generally extend over a six-week period, from early July to mid-August. Correspondence preparation for credit courses is often required and sometimes correspondence work will follow a summer session. It is possible, although not usual, to earn a degree through attendance at summer courses. Most universities, however, require a minimum period of regular attendance to obtain a degree, e.g. at least two regular sessions of resident study. In addition to credit courses, many universities offer summer programmes of general or cultural interest in such fields as fine arts, music, languages, handicrafts, and some hold advanced seminar courses for specialists in fields such as management, psychology, geography, etc.

UNIVERSITY EXTENSION Most universities offer programmes of extension courses, some for degree credit, some for professional advancement (e.g. chartered accountancy) and some as a community service to the public. In the metropolitan universities it is not unusual to find as many extension students thronging the halls and classrooms in the evenings as there are regular undergraduates during the day. The provincial universities often include teacher education programmes in their extension division, and in general university extension comprises what is commonly termed 'adult education'. In some centres the cultural life of the community is largely the activity of the university as expressed through its sponsorship of workshops, programmes and other series of events. An interesting feature is the extension service carried to off-campus areas, especially by the provincial universities, whereby mobile libraries visit outlying areas or the privilege of drawing books from the home university library may be offered.

INTER - UNIVERSITY ORGANIZATIONS The National Conference of Canadian Universities, founded in 1911, voluntarily surrendered its identity in 1958 to two successor organizations known respectively as the National Conference of Canadian Universities and Colleges, and the Canadian Universities Foundation. This re-organization became necessary because the whole assembly of universities, as such, could not administer the federal government grants. The CUF now acts as the executive arm of the NCCUC, it receives and distributes to universities the federal grants, from its administrative headquarters in Ottawa it deals with Commonwealth Scholarships, conducts research and issues publications, and in general carries out all projects which are common to the forty-odd member institutions of the conference.

The president of the NCCUC becomes the *ex-officio* chairman of the CUF, there are twenty-one members appointed to represent groups of institutions divided according to their enrolment. The larger body is thus freed from any administrative concern, and is able to fulfil its primary function as 'the national forum of academic opinion'. The NCCUC meets in plenary session once each year to discuss problems and matters of common interest.

The central office of the CUF includes the important Research and Information Service, which has an extensive library of material on higher education in Canada and abroad, acts as a clearing house for information and publishes studies of problems faced in common by Canada's universities and colleges.

The chairman of the CUF (and president of the NCCUC) for 1961-62 is the Very Reverend H. F. Légaré, rector of the University of Ottawa. The executive director is Dr. H. W. Jamieson, who succeeded Dr. T. H. Matthews in 1961. The research officer is Dr. E. F. Sheffield. The address of the Canadian Universities Foundation is 77 Metcalfe Street, Ottawa 4, Ontario.

The growth of the Canadian Association of University Teachers has been spectacular during the past ten years. Associations have been formed in thirty-three institutions, and these now represent more than 75 per cent of all full-time teachers in Canadian universities and colleges. A national office was established in 1959 at 77 Metcalfe Street, Ottawa 4, Ontario. The executive secretary is Dr. J. H. Stewart Reid. The CAUT quarterly bulletin reports news and views of the Canadian university scene.

A complete list of university associations and agencies appears in *Canadian Universities and Colleges*, published by the CUF. Others most noteworthy as inter-university organizations are:

Canadian Association of University Business Officers Secretary-Treasurer Mr. D. S. Claringbold, Hart House, University of Toronto, Toronto 5, Ontario.

National Federation of Canadian University Students. Executive Secretary: Mr. A.

L'Heureux, 375 Rideau Street, Ottawa, Ontario.

World University Service of Canada General Secretary Mr. D. Mayer, 22 Willcocks Street, Toronto 5, Ontario.

THE UNIVERSITIES TO-DAY The problem facing all universities is simple but serious: the inexorable fact is that student enrolment will double in the decade ahead. Earlier projections of 230,000 students by 1970 now seem underestimates in the light of experience, more likely the present number of 114,000 will increase to some 250,000 or 300,000 students by the end of the decade. Experts say that the number of 8,600 teaching staff in the 1960-61 session will have to be increased to 18,000 in 1970-71. Physical facilities will have to be expanded proportionately, new buildings and new universities will have to be built. Financial demands on the universities, and the governments who support them, will be staggering. It becomes progressively more expensive to run a university. During the past decade the operating cost per full-time student has more than doubled—from \$700 in 1950-51 to nearly \$1,500 in 1959-60, and the scale is still rising. The total operating cost of Canada's universities in 1961 is estimated at \$165 million, the experts say this figure may rise to \$650 million in 1971. Capital costs may be gauged by the estimate that in the ten-year period 1955-65 universities will have spent a total of \$700 million in building programmes. In brief, a decade of vast expenditure stretches ahead, and the first problem of the universities and the country as a whole is to find the necessary funds. Secondly, there is the urgent problem of training and recruiting the teachers who will be required; and, lastly, the planning and actual erection of the necessary buildings.

Most universities have welcomed the challenge, declaring they will build, recruit and expand to whatever extent may be required. A very few others, however, are thoughtfully assessing the situation, wondering whether they might not lose their cherished, individual characteristics if they expand beyond a certain optimum number, and whether quality might not inevitably be sacrificed to the inordinate demands of quantity. In whatever way each institution squares off to the problem, there is no doubt that the decade ahead will be the most challenging and the most crucial in the history of Canada's universities.

OTHER INSTITUTIONS OF HIGHER EDUCATION In Canada the terms 'higher education' and 'university education' are almost synonymous. Practically all types of professional or general training beyond the level of secondary school are the responsibility of the universities. The education of lawyers is a university function, as is the training of teachers for secondary schools, while the training of teachers for elementary schools, requiring less than degree qualification, is usually supervised by provincial departments of education. Accountants must meet standards set by their governing professional body, but the universities

work closely with these bodies, and the accountancy student will often take evening courses at a university under the same teachers who supervise the regular undergraduate programme.

North America has never proved hospitable to the European tradition of training technicians to hold jobs at an intermediate stratum in business and industry (It would be heresy to consider that a technician, or any employee, could not rise to the presidency of a corporation.) In recent years, however, advances in technology plus an intermittent shortage of technically trained manpower, has led to the establishment of a number of institutes of technology. There are now twenty-nine such post-secondary institutes, all of them administered as integrated parts of provincial technical and vocational training programmes. In total they enrol some 9400 full-time students. Their distinguishing characteristics are the requirement of junior matriculation for admission, and stress on the application of post-high school mathematics and science. Instruction is in either the engineering-science field, or in the business and service administration field. Graduates of such institutes, whether technical or commercial, are in good demand. This is a relatively new development, and one which may well assume even greater importance in the years ahead.

FURTHER INFORMATION (see also Appendix VI and the 'Publications' section in each university entry below). The Canadian Universities Foundation issues a biennial handbook, *Canadian Universities and Colleges* (latest edition 1960) and reports of the proceedings of the annual meetings of the

National Conference of Canadian Universities and Colleges. The Dominion Bureau of Statistics publishes an annual *Fall Enrolment in Universities and Colleges*, and frequent publications such as *Survey of Higher Education*, *Awards for Graduate Study and Research* and *University Entrance Awards*, etc. The Canadian Universities Foundation publishes frequent research papers such as E. F. Sheffield's *Canadian University and College Enrolment Projected to 1965*, *Financial Needs of Canadian Universities and Colleges 1960*, *Staffing the Universities and Colleges of Canada*, etc., etc. The valuable *Institutions of Higher Education in Canada* was published by the Dominion Bureau of Statistics in 1961.

An historical sketch, including a survey of the humanities, will be found in W. Kirkconnell and A. S. P. Woodhouse, *The Humanities in Canada* (1947). DIRECTORY TO SUBJECTS OF STUDY

[Source: Research and Information Service, Canadian Universities Foundation]

The Table of first degrees (pp. 122-125) indicates which universities offer first-degree programmes (honours and professional) in eighty-one subjects. The symbol ✓ means that a first degree (honours or professional) can be taken in the subject indicated. All the universities listed with the exception of Nova Scotia Agricultural College and Nova Scotia Technical College offer general or pass degree courses in arts and science. The second degree is normally the master's or licence—at least one year beyond the first degree—and the third is the doctorate, usually requiring at least two additional years. The listing below shows which universities offer courses leading to the master's and doctoral degrees in specified subjects and provides additional information about first-degree programmes and diploma courses in certain fields. Where the doctorate is offered, courses leading to the master's degree are also generally available.

Agriculture The Nova Scotia Agricultural

College offers a two-year diploma course; diploma students may be admitted to the third year of a bachelor's degree course at McGill or Toronto (Ontario Agricultural College, Ontario Veterinary College at Guelph). Master's: Laval, Montreal, Toronto (Ontario Agricultural College). Doctorate: Alberta, British Columbia, McGill (Macdonald College), Manitoba, Saskatchewan.

Air Law Master's: McGill

Architecture Master's: British Columbia, McGill, Manitoba, Toronto

Astronomy Master's: Western Ontario
Doctorate: Toronto

Biology Master's: Acadia, Assumption, Carleton, Memorial, New Brunswick, Doctorate: Alberta, British Columbia, Dalhousie, Laval, McGill, McMaster, Manitoba, Montreal, Ottawa, Queen's, Saskatchewan, Toronto, Western Ontario

MARITIME SCHOOL OF SOCIAL WORK, Halifax, N.S. (tel. Halifax 3-6907) Founded 1947 Provides 2 yrs' professional trg leading to degree of Master of Social Work (MSW) of Acadia for

approved grads of Acadia and other recog univs. Dir—L. T. Hancock, MA *Chc* & K C N S, BSW *McG*

GENERAL INFORMATION

Founded, as Queen's Coll, in 1838 by the N.S. Baptist Educational Society, Acadia Coll. ('Acadia' is a Latinized form of 'Acadie', the earlier Amerindian name for Nova Scotia) was incorporated in 1840 by act of the N.S. legislature, with the powers of a univ and the name changed to Acadia Univ by an act of legislature in 1891. Endowment, \$2,000,000, physical plant, \$8,000,000.

CONSTITUTION The bd of governors is appointed by the Baptist Convention of the maritime provinces, but the students and faculty are subject to no religious tests. Of the 30 governors, 14 are nominated by the 'associated alumni' of the univ. By the 1840 act of incorporation and subsequent legislative amendments, the bd. of governors has authority over all matters of property, finance and discipline, and all appts of academic or admin staff. The senate, consisting of pres, provost, deans, chairman of governors, and 12 other persons apptd by bd of governors, has final authority over all academic matters including curricula, and grants dipls and degrees in all depts and facs. For purposes of routine admin, the bd delegates its powers of discipline to the facs. Curricula and exams. are the province of the facs, subject to final confirmation of senate. The pres is chairman of senate and of the combined facs., and *ex officio* a member of bd of governors.

GENERAL INFORMATION

EDMONTON AND CALGARY

(see also below)

The univ. was created at Edmonton in 1906 by an act of the first session of the first legislature of

the province The provincial legislature has establ. a close relationship between the univ. and

the professions by giving the general fac council jurisdiction over the educnl standards of agrolgists, architects, chartered accountants, dental auxiliaries, dentists, dietitians, engineers, geologists, geophysicists, land surveyors, lawyers, pharmacists, physical and occupational therapists, physicians and surgeons, registered nurses and veterinary surgeons

In 1944 the univ. assumed responsibility for all teacher trg. in the province and in 1945 took over the provincial normal schs. and their staffs. The Calgary normal sch., which was housed until 1959-60 in the bldg of the provincial inst of technol and art, became the Calgary branch of the univ, now the 'Univ of Alberta, Calgary'

The senate supervised all phases of the instn.'s activities until 1910, when a bd of governors was constituted and given charge of the univ.'s business affairs. This form of govt remained substantially unaltered until 1942, when a new act reduced the size of senate and transferred most of its academic functions to the general fac council

CONSTITUTION. The chancellor is elected for 6 yrs by convocation, which consists of survivors of original groups of grads of other univs who registered as members of convocation under the univ act of 1906, and all subsequent grads. of the univ. he is a member of the bd. of governors and of senate, as is the pres. The bd. of governors consists of 6 *ex-officio* members and 7 apptd. by the lt-governor in council. The senate consists of 25 members, and acts as a deliberative, enquiring and recommending body. There is considerable emphasis on its function as a bridge between the univ and the life and activities of the province, and 9 of its members represent agric., business, labour, industry, public educn and organizations devoted to social and cultural welfare.

INCOME (1960-61). On current account, about \$13,042,000 (sources of revenue: prov of Alberta, 46 per cent, govt. of Canada, 14.4 per cent, tuition fees, 14.7 per cent, departmental and other sources, 24.9 per cent). This total includes

revenue of both the Edmonton and Calgary campuses. Calgary expended \$917,000 of the current revenue. Income on capital account, \$8,691,000 for Edmonton and \$4,410,000 for Calgary.

FACULTIES AND DEANS See p. 133

GENERAL INFORMATION

Founded 1857 by Rev. Pierre Point, pastor of Assumption Parish, Sandwich (Windsor). Incorporated 1858 by a public act of the legislature of the Province of Canada. Conducted by the Basilian Fathers in 1857-58 and since 1870. Most Rev. D. O'Connor, DD, president 1870-90, lengthened the arts course from 2 to 4 yrs., and was responsible for considerable academic and material progress. Affiliated with the fac. of arts and science of the Univ. of Western Ontario in 1919. The Assumption College Act, 1953, passed

by the legislature of the province of Ontario, amended the original act of incorporation, varied the administration of the coll. and enlarged and specified its university powers. Affiliation ceased July 1, 1953, and the following year the coll. was admitted to the National Conference of Canadian Unives.

A reorganization of the fac. of arts and science took place in 1956, whereby the depts. of the natural scis., maths, engin., nursing educn. and bus. admin. were assigned to Essex Coll. under

its own non-denominational bd of dirs and the remaining depts of this fac were grouped into an academic unit known as University College, under the direct control of the Assumption bd. of governors. In March 1956 the Ontario legislature passed an act which changed the name of Assumption College to Assumption University of Windsor.

The univ and university coll are operated by the Basilian Fathers, a Roman Catholic order conducting univs, colls and secondary schs. in Canada, the USA and France. The affiliated colls are legally and financially distinct, but subject in academic matters to the senate.

The univ is located in the city of Windsor (pop 190,880) and serves a pop of approx 331,000 in S.W. Ontario.

CONSTITUTION The univ is administered by 2 st bodies: the bd of governors (8 univ admin and fac. members apptd by the Basilian Fathers and 1 member apptd by Essex Coll.), primarily concerned with finance, and the senate which is the official authority on all academic matters. The senate is partly univ admin and fac. members, *ex officio*, partly elected by fac. members and univ grads, and partly apptd by outside bodies, e.g. city and county councils, educnl and professnl groups. The bd of governors is advised by a bd of regents, consisting of reps of affiliated colls and persons representing the religious, ethnic, social and economic aspects of the community.

INCOME (1959-60) Total income (operational), \$1,722,978 (tuition & other student fees, 26.9 per cent; govt grants, 35.2 per cent (federal, 15.6 per cent, provincial, 16 per cent, municipal, 3.6 per cent); ancillary enterprises, 24.6 per cent; contribution from religious groups, 7.9 per cent; other sources, 5.4 per cent).

FACULTIES AND DEANS. See p 147.

UNIVERSITY PRECINCT The univ is housed in a group of bldgs. on a 100-acre campus bordering the Detroit river. These include the administration bldg, staff and student residences, Dillon Hall (Univ. Coll lecture and seminar rooms, labs for household sci., langs and psychol.), Memorial Sci Bldg. (biol, chem, and phys. labs, biol. museum, audio-visual aids), Essex Coll (engin and geol labs, amphitheatre), St Denis Hall (gymnasium and swimming pool) and Univ Centre (offices of the students' admin council, student press, lounge, cafeteria, drama workshop and games room). GENERAL INFORMATION

The Univ. of British Columbia was incorporated by an act of 1908. The univ. site consists of 1000 acres on the headland of Point Grey, 300 feet above the sea. Here a group of bldgs, constructed at a cost of nearly \$2,000,000, was opened in 1925.

The univ. is an integral part of the public educn. system of the province, and its function is to complete the work begun in the public and high schs. It is the policy of the univ. to promote educn. in general, and in particular, to serve its constituency through 3 channels—teaching, res. and extension work. It furnishes instructn. in the various branches of a liberal educn. and in those technical depts. which are most directly related to the life and industries of the province. The people of the province are informed of the results of sp. work by the staff of the univ. through the dept. of univ. extension. B.C. has a population of 1,544,000 and Greater Vancouver of 612,900.

CONSTITUTION The bd of governors consists of the chancellor, elected by convocation, president and 9 persons—3 elected by the senate and 6 apptd. by the lieut.-govr. in council. The senate consists of the chancellor, pres. (as chairman), deans and 2 profs. of each fac., 3 nominees of the lieut.-govr. in council, 2 profs. of Victoria Coll. elected by the fac., principals of normal schools, one member elected by high sch. principals and assts., one by each affiliated coll. in the province, 15 by convocation, one by the B.C. teachers' federation, 3 members apptd. by the board of management of alumni assoc.

INCOME (1959-60) Total income, \$14,640,343 (govt. of Canada grant, 25.1 per cent., provincial grant, 34.3 per cent., student fees, 26.8 per cent., gifts, grants and bequests, 8.9 per cent.; other sources, 4.9 per cent.)

DRANS See p. 156

LIBRARY 475,000 vols., regularly receives about 4000 periodicals. Strong in serial publications of scholarly and scientific socs.

LABORATORIES available for all courses. The forest products lab. (opened 1958) is a unit of the F.P. labs. div. of the forestry branch, dept. of forestry, govt. of Canada. HERBARIUM: 90,000 sheets flowering plants and ferns. BOTANICAL GARDENS, arboretum and econ. section, 5 acres.

TEACHING HOSPITALS. Vancouver General H., St. Paul's H., Shaughnessy Military H.

UNIVERSITY RESEARCH FOREST, about 7 mls. long and 2½ mls. wide, N. of the town of Haney, was granted to the univ. by the prov. govt. in March 1949. The CAMPUS FOREST consists of a narrow belt S and W of the univ. and acts as a demonstration and field study area for for., biol., bot. and zool.

MUSEUMS. (1) Anthropol. museum (in library)—Burnett collection of South Seas and other ethnol. specimens; Raley collection of Indian artifacts; Buttner collection of Indian baskets; Michell-Pierce collection of Eskimo clothing and utensils; van Haersolt van den Doorn collection of Egyptian and classical materials; numerous other valuable collections. (2) Geol. and geog. museum in the for. and geol. bldg. (3) Zool. museum in biol. scis. bldg. (4) Botanical collections and herbarium.

THE BRITISH COLUMBIA RESEARCH COUNCIL has its HQ. and labs. on the campus. It works in close co-operation with the sci. depts. of the univ. and its programme includes fundamental and appl. res. Staff of 70, of which 45 are professional scientists and engineers.

CONNAUGHT MEDICAL RESEARCH LABORATORIES (WESTERN DIVISION) In 1935, under co-operative arrangement with provincial dept of health of B C and the Connaught med res labs. of the Univ of Toronto, the latter instn establ a western division on the campus which is now situated in the Westbrook bldg. Res projects in microbiol as applied to pub. health and prev med are pursued here in conjunction with students and staff of dept of bacteriol and immunol in collaboration with division of labs of provincial dept of health.

ART CENTRE Incl. among activities of the fine arts cttee, under joint supervision of the visual arts cttee. and the handicrafts cttee, the art centre includes a workshop and an art gallery. The workshop gives courses in ceramics, painting, sculpture, weaving and other appl arts, which are open to students, staff and extra-mural registrants but do not carry academic credit. The art gallery maintains a continuous display of loan exhibitions.

COMPUTING CENTRE Establ 1957 with the help of local bus and indust and with grants from the N R C and defence res bd. Provides trg in the use of high-speed computers and serves as an aid and stimulus to res. Facilities of the centre are available to bus and engin firms as well as to univ personnel.

INSTITUTE OF OCEANOGRAPHY is supported in part by the N R C, the defence res bd and by the pt. cttee. on oceanog, the last named body representing the interest of the Royal Canadian Navy, the national res. council, the fisheries res bd and the hydrographic service. The inst. represents the co-operative effort of the depts of biol and bot, geol., chem., phys and zool to train grad. students in one or more of these branches in the principles and techniques of oceanog res. The inst. is further charged with the responsibility for fundamental res in oceanog.

An **INSTITUTE OF FISHERIES**, within the fac of grad studies, gives at the grad level broad and advanced instructn in various fields relating to the best use and management of the fisheries' resources.

STUDENT HEALTH SERVICE. The univ health service comprises an up-to-date and well-staffed out-patient dept. together with a 26-bed hosp. The health service is not a teaching dept, being maintained solely for the benefit of students who may require med. care and advice.

In addition to providing med. and nursing care and investigation of any student health problems, the health service carries out the compulsory routine med. exams required by the univ. Each student on admission is given complete physical exam, including tuberculin skin test and chest X-ray. Before participation in athletics all women students are annually medically examined and men students are checked as to physical fitness for participation in strenuous athletics. A scheme for the control of communicable diseases and the following up of defects is in operation and first-aid is rendered by a full-time public health nurse. The med. officer is available at specified hours for consultation.

STUDENT ORGANIZATIONS. The Alma Mater soc. with its governing executive, the students' council, controls all student activities and is responsible for student discipline. Every student automatically becomes a member of the Alma Mater soc. when he enrolls in the univ. Members are elected every spring to hold office through the next yr.

GENERAL INFORMATION

The univ (named after Sir Guy Carleton, governor-in-chief of British North America in mid-18th century) is non-denominational, co-educational and privately controlled. Conceived by a cttee. of the Ottawa YM C.A. in 1938, the univ had its beginning in 1942 when a group of interested citizens establd. the Ottawa Assocn for the Advancement of Learning. In that year evg classes of the 1st and 2nd univ yrs were opened under the name Carleton Coll. Both day and evg. curricula were expanded until, by 1949, they included full undergrad. courses in arts, sci, comm., journalism, pub admin and engin. A course leading to a grad dipl in pub. admin was added in 1952, and a sch. of pub. admin establd in 1953, which in 1954 added a programme leading to the MA. Subsequently, a students' union, a library and a bldg. to house the sch. of pub. admin were added, and 130 acres of land acquired for devel. of a new campus. In 1952 the legislative assembly of the province of Ontario passed the Carleton College Act, enlarging and specifying the coll's univ powers. In the same yr the coll was made a member of the National Conference of Canadian Univs, and in 1953 a member of the A.U.B.C. In 1957 the coll was incorporated as Carleton Univ.

CONSTITUTION The univ corporation consists of 57 members. The bd of governors numbers 30, elected for 3-yr terms, one-third retiring each yr. Academic policy is governed by a senate composed of full profs of the fac and certain other members apptd by the bd of governors, as well as by a fac bd. composed of all full-time members of fac of rank of lectr or higher.

INCOME (1959-60) Total current income, \$1,300,000 (fees, \$486,500, endowment, \$18,000, provincial govt., \$400,000; federal govt., \$256,000, other gifts and grants, \$69,000; auxiliary enterprises, \$58,000, misc, \$12,500).

FACULTY AND SCHOOLS Fac of arts & sci (incl comm. and journalism), sch. of engin., sch. of grad studies, sch. of pub. admin. For dean and dirs see p 176.

UNIVERSITY PRECINCT The univ. is located on a 130-acre campus of great natural beauty on the Rideau river. Its premises consist of a sci bldg., a library (large enough to accomm. 80,000 vols) and an arts bldg. which forms the third side of the main court. The library also houses the admin offices of the univ. All these bldgs are connected by a tunnel. Construcn. began in 1961 on men's and women's residences, office and classroom extension for arts and sci, student Univ Centre (incl addnl cafeteria). Athletic facilities are also provided.

LIBRARY 51,500 vols. See also 'Univ Precinct', above.

Students may complete the div. course at the Hall and take the BA in 6 yrs. Confers the degree BD. Principal—Very Rev. C. M. Nicholson, BA DD LLD. 4 other Profs.

KING'S COLLEGE DIVINITY SCHOOL (*see p* 189).

The classes and exams in div. are recognized on the same terms as those of Pine Hill Div. Hall.

MARITIME CONSERVATORY OF MUSIC, Halifax (tel. 5-4343). Courses recognized for BMus and LicMus of Dalhousie. Director— . . .

MARITIME COLLEGE OF PHARMACY, Halifax (tel. 423-6735). Founded 1911. Courses recognized as part of the quals. for BSc (Pharmacy) at Dalhousie (*Note* Negotiations are at present under way to incorporate the Maritime Coll. of Pharmacy in the univ. as a fac. of pharmacy).

GENERAL INFORMATION

Dalhousie Coll., founded in 1818 by the ninth Earl of Dalhousie, has been discharging univ. functions since 1863 when it was reorganized and reopened with a staff of 6 profs. From 1879 development was rapid, helped by the benefactions of G. Munro of N.Y., A. McLeod of Halifax and Su. Wm. Young. In 1883 the fac. of law was establd, and in 1906 pure sci. united with arts to form the fac. of arts & sci. Appl. sci. was replaced by the fac. of engin., which was later reduced to a dept. by agreement with other maritime univs. when the N.S.T.C. opened for professional teaching. In 1911 the fac. of med. and in 1912 the fac. of dent. assumed full teaching duties. The Maritime Coll. of Pharm. was given quarters in the univ. in 1911. The fac. of grad. studies was establd in 1949.

In 1912 \$400,000 was collected for an addnl. site (40 acres) and bldgs. towards which Andrew Carnegie gave \$40,000. Other gifts from the Carnegie Corporation and the Rockefeller Foundation permitted expansion of facilities for the med. sch. after 1918. In 1923 the Univ. of King's Coll., in assoc. with Dalhousie, was given a site on the new campus (*see below*). The International Commission for the Northwest Atlantic Fisheries accepted the univ.'s invitation to establish its permanent headquarters in Dalhousie in 1953. A new arts and admin. bldg. was opened in 1952, and the O. E. Smith wing of the Macdonald memorial library, containing the Kipling room, in 1956. The Sir James Dunn sci. bldg. was

formally opened in Oct. 1960. A new men's residence with accomm. for 150 students opened on Jan. 1, 1961. About half of total cost of \$1,600,000 was provided by Canada Council.

CONSTITUTION. The bd. of governors is the supreme governing body of the univ. Appts. to it are made by the governor-in-council on the nomination of the bd. The governors have the management of the funds and property of the univ., the power of appointing the pres., profs., and other officials and of determining their duties and salaries, and the general oversight of the work of the univ. The senate consists of the pres. and profs. To this body are entrusted, by statute, the internal regns. of the univ., subject to the approval of the governors. All degrees are conferred by the senate. The facs. consist of the members of the teaching staff in each of the 5 main domains of study in which courses can be pursued, namely, arts & sci., law, med., dent. and grad. studies. To them are entrusted by the senate, subject to its approval, supervision of teaching, preparation of regns. governing courses of study, and recommendation of suitable candidates for prizes, scholshps., dipls. and degrees.

GENERAL INFORMATION

The univ. was founded in 1852, under a royal charter, by the Seminary of Québec (whose own founder was the Ven. Mgr. François de Montmorency Laval, the first bishop of Québec). A general supervision of teaching and discipline is exercised by the Archbishop of Québec as visitor and chancellor apostolic and president of the conseil supérieur de bishops of the ecclesiastical province of Québec. The profs. of the facs. of theol. and philos. are nominated by the visitor, those of other facs. by the conseil de l'université, composed of the dirs. of the Seminary of Québec and 3 sr profs. of the facs. of theol., arts, law and med. and the deans of the facs. of philos., letters, scis., soc scis., agric., for and surveying, and comm.

LIBRARIES. General, 325,000 vols.; others, 65,200 vols.

UNIVERSITY PRECINCT At present, the bldgs of the univ. are in 3 different parts of Quebec. One section is located within the ancient walls of the old city. The fac. of scis. & engin. is about 4 miles from the old city in a new part of Quebec; it will be moved, beginning in Sept. 1961, to the 3rd section: the new *city universitaire* (one square mile) in the outskirts of Quebec about 7 miles from the old city. It is hoped that all the univ. bldgs. will be located in this 3rd section within about 5 to 7 yrs.

ADMISSION. See Appendix III.

DEGREE OF BACHELOR OF ARTS The *baccalauréat ès arts* (BA) is awarded by the univ., the complete course leading to it being provided in private *collèges classiques* affiliated to the univ. (for a list, see pp. 201-2). The course is of 8 yrs.' duration, in two 4-yr. stages called *cours secondaire* and *cours universitaire*. The former (taken from about 12 to 16 yrs. of age) is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the 2nd stage is by passing the *immatriculation* exam. set by the univ. (and thus obtaining the matric. dipl. of the univ.) at the end of the 4th (final) yr. of the *cours secondaire* and the 11th yr. of schooling. Students who reach a certain standard in both arts and sci. in the *cours universitaire* are awarded the BA of the univ., usually at about the age of 20. The award of the BA indicates that the student is ready to begin his professional studies in law, med. or appl. scis. or to enter on higher study in arts or sci.

Collège Universitaire Laval (see p. 201) provides the last 2 yrs. of the *cours universitaire* for students seeking the BA with sp. mention in scis.

GENERAL INFORMATION

The Hon. James McGill, a leading merchant
 and prominent citizen of Montreal, who died in
 1813 bequeathed 46 acres of land and £10,000 to
 the already existing 'Royal Institution for the
 Advancement of Learning' to found a univ. or
 coll. As a result, in 1821 a royal charter was
 granted and in 1829 teaching began in the Univ.
 of McGill College in the facs. of med. and arts.
 The charter was amended in 1852. In 1899 the
 Royal Victoria Coll., a gift of Baron Strathcona,
 was opened to provide separate teaching and
 residential facilities for women students. In 1907
 Macdonald Coll., named after Sir Wm Mac-
 donald whose gift it was, was established as a resi-
 dential coll. for agric., household sci., and sch.
 for teachers. Since then the univ. has grown
 vigorously, dividing itself into further facs., and
 many new bldgs. have been erected, especially
 since 1945, the latest addition being the McConnell
 engin. bldg. opened in 1959.

The univ. is undenominational and has for
 many yrs. been co-educational in all its facs. and
 most of its schs.

CONSTITUTION. McGill Univ. is a corporation
 created by a royal charter granted by the Crown
 of the United Kingdom, general supervisory
 power being retained by the Crown and exercised
 through the governor-general as 'visitor'. The

governors of the univ. constitute the Royal Insti-
 tution for the Advancement of Learning, a cor-
 poration existing under the laws of the province
 of Quebec, pt. of the official organization of the
 province, but completely self-governing. In them
 is vested the management of finances, appt. of
 profs. and other important duties, 3 of the
 governors are elected by the members of grade,
 soc. and other appts. are made by nomination of
 remaining members with the approval of the
 visitor. The pres. of the bd. of governors is, *ex*
officio, chancellor of the univ. The principal is
 the academic hd. and chief admin. officer. He is
 appointed by the bd. of governors (of which body
 he is a member). He also holds the office of
 vice-chancellor of the univ. Senate consists of
 the chancellor, principal, deans of facs., warden
 of Royal Victoria Coll., dir. of inst. of educn., dir.
 of univ. extension and 4 group chairmen of fac.
 of arts & sci., all *ex officio*; 5 governors elected
 by the bd.; and 8 profs. elected by the various
 facs. The principal is chairman of senate, which
 is the highest academic authority of the univ.
 and has control over admission, courses of study,
 discipline and degrees. The carrying out of the
 regns. of senate along with primary responsibility
 for the conduct of the educn. work of the univ. is
 entrusted to the several facs. and schs.

INCOME (1959-60) Total income, \$12,875,039 (excl ancillary enterprises) Student fees, 31.5 per cent, gifts for operating purposes (other than res), 5.2 per cent; endowments, 15.8 per cent, provincial grants, 14.2 per cent, gifts, grants & endowments for res, 29.1 per cent (incl federal & provincial grants), other sources, 4.2 per cent

UNIVERSITY CAMPUS. The main bldgs are grouped on the land originally bequeathed by James McGill and cover about 10 city blocks in the centre of the city of Montreal. Over a number of yrs the univ has acquired land and bldgs to the N and E of the original campus, and residences for students and sports facilities have been provided in those districts. More recently bldgs to the W have been added and several depts. as well as the schs under the fac of med have been placed in them. A new centre housing the med scis will be opened in 1962 N-W of the campus midway between the 2 main teaching hospis, the Montreal Gen and the Royal Victoria, and the Neurological Inst. and Allan Memorial Inst. for Psychiatry.

GENERAL INFORMATION

McMaster Univ., named after senator William McMaster (1811-87), whose will provided its original endowment, operates under the terms of an act of incorporation granted by the legislative assembly of Ontario in 1887 and basically revised in 1957. The univ., which is now a non-denominational private foundation, was a denominational foundation from 1887 to 1957, its governors elected by the Baptist Convention of Ontario and Québec. It was the outgrowth of educat. work begun in Canada Baptist Coll., Montreal (1838), and contd. in Woodstock, Ontario (1857), and of the theol. work of Toronto Baptist Coll. (1881-87). Toronto Baptist Coll. and Woodstock Coll. formed the nucleus of the univ. in 1887. Until 1926, Woodstock Coll. was contd. as a preparatory sch. for boys, and from 1887 to 1954 a preparatory sch. for girls, Moulton Coll., was maintained in Toronto.

The univ. was transferred to Hamilton in 1930. In 1948, it was reorganized into three colls.: the Divinity Sch., which was the fac. of theol., operating mainly on a postgrad basis, University Coll. (the arts depts.), and Hamilton Coll. (the sci. depts.), the latter operating under its own bd. of governors as an affiliated coll. In 1957, the Baptist Convention withdrew from legal control of the univ. and the univ. and Hamilton Coll. becoming one corporation. McMaster Divinity Coll. was at the same time incorporated as an affiliated theol. coll. under a bd. of trustees, univ. lands being assigned for its use.

CONSTITUTION The univ. corporation consists of a bd. of governors of from 30 to 41 members, up to 28 being elected by the bd., 3 (the chancellor, pres. and vice-pres.) being *ex-officio* members, 3 elected by the trustees of McMaster Divinity Coll., 5 by the grads and 2 by the teaching staff. Academic work is controlled by a senate, composed of 16 ps of the fac., governors and grads. The following are *ex-officio* members of the senate: pres. (chairman), vice-pres., dean of theol., dean of arts & sci., dean of grad. studies, dean of engin., assoc. dean of arts & sci., dir. of extension.

INCOME (1959-60) Total income, \$3,423,600 (endowment, \$123,300, govt. grants: provincial, \$780,000, federal, \$450,000, municipal, \$128,000, other, \$27,500, res. funds, \$611,600, fees,

\$784,000, sundries, \$82,400, ancillary enterprises, \$436,800)

FACULTIES AND DEANS, see p. 222.

UNIVERSITY PRECINCT The univ. occupies about 73 acres in the west end of Hamilton, its lands being bordered by tracts of parkland forming part of the extensive acreage of the Royal Botanical Gardens.

LIBRARY, 128,429 vols. The Mills memorial library is the gift of the Mills foundation of Montclair, New Jersey. Four floors provide for a capacity of over 120,000 vols., as well as reference reading room, biblog. room, and fine arts collection of books, slides, prints, etc. Two sp. collections: the music collection, estab. through the generosity of the Carnegie corporation, contains over 2350 recordings, and a small library of music scores and books on music and musicians; the Baptist historical collection of books, documents and association minutes, forms a valuable record of Canadian Baptist history, past and present. The library also maintains a sci. library in phys. sci. bldg.

LABORATORIES. Res. labs. maintained in most sci. & engin. depts., and are usually in academic bldgs. adjacent to undergrad. labs. Research greenhouse. Res. programmes are under way in all major fields of sci. NUCLEAR REACTOR, housed in its own bldg., operates at one megawatt and is of swimming pool type, using highly enriched U²³⁵ as fuel. Associated with reactor is nuclear res. bldg. containing a hot lab and several radio-isotope labs, as well as specially air-conditioned rooms for series of mass spectrometers.

Chairman of reactor operational control cttee.—D. M. Hedden, BSc. Reactor staff: W. H. Fleming, MSc. PhD (supt.); K. Fritz, PhD (ies. chemist), J. B. McDougall, BSc (supervisor); C. C. McMullen, MSc. PhD (res. physicist); R. H. Tomlinson, BSc *Bishop's*, PhD *McG.* (health physicist), D. Whiteford (asst. health physicist).

GENERAL INFORMATION

The univ was established by act of the provincial legislature in 1877 on the model of the Univ of London, as an examining and degree-conferring body, the instn to be given in the affiliated colls which were already in existence, viz. St. Boniface Coll, St. John's Coll and Manitoba Coll. This list was subsequently extended to

include Manitoba Medical Coll (1882), Wesley Coll (1888), Manitoba Coll of Pharmacy (1902), Manitoba Agric Coll (1907), Manitoba Law Sch (1914), St. Paul's Coll (1931) and Brandon Coll. (1938). In 1900 the univ. was, by legislative enactment, given power to offer instn In 1929, having outgrown its city bldgs, the univ

was removed to a permanent rural site with ample space for expansion. In 1940 a systematic programme of work in rural adult educn was begun. The unprecedented influx of students at the conclusion of hostilities in 1945 gave a great stimulus to expansion. The fac of grad. studies & res. was establd., a chair of Icelandic, and depts of slavc studies, univ extension & adult educn, mathl phys., phys educn, athletics and recreation, psychiatry, geog, microbiol and agric. econ. In 1950 the univ sch of art was opened and in 1953 the new library. A chair of agron was establd in 1954. In 1957 a fac of dent was establd and a dept. of pharmacol & therapeutics formed in fac. of med.

The univ has the sole power in the province of conferring degrees in arts, sci, law, med, dent., engin., pharmacy, comm, agric, home econ, educn., pedagogy, archit, interior design, fine arts and soc work. It received in 1898 from the dominion govt a land grant of 150,000 acres.

LOCATION. The bldgs. occupied by the facs. of med., dent and law are in the city of Winnipeg. The site of the facs of arts & sci, agric. & home econ, engin & archit, educn, the grad. sch of soc. work, and the grad sch of nursing, is in the municipality of Port Garry, 7 mls. from the centre of Winnipeg. The univ. has 50 bldgs. on this site, incl. the residence which has accomm. for 600 students. Also on this site are the dominion res lab., the dominion lab of plant pathol., the dominion lab of entomol. and the provincial experimental fur farm.

CONSTITUTION General management of the univ. is vested in a bd. of 14 governors, 9 of whom are apptd. by the lt.-governor in council, 3 elected by grads. from among their own number, the remaining 2 being the chancellor and the pres. *ex officio*. The bd. has corporate powers and in all matters relating to the management of the univ., incl. academic affairs, it enjoys plenary powers. The prime academic body is the senate, whose membership consists of the pres. as chairman, chancellor, dep. minister of educn, chairman of the advisory bd of the dept. of educn, deans of facs, reps of profs. in each fac., dirs of schs, and reps. of affiliated colls., the Coll of Physicians and Surgeons of Manit, and the alumni assocn. Under its control are entrance requirements, courses of study, methods of instructn., appointment of examiners, approval of degrees, and related matters.

INCOME (1959-60). Total income, \$6,911,789 (govt. grants, 62 per cent, fees, 21.2 per cent, services, 14.2 per cent, endowments & other sources, 2.6 per cent.)

GENERAL INFORMATION

The Memorial Univ. of Newfoundland was established by an act of the provincial legislature of Newfoundland in 1949

The Memorial Univ. Coll. had been established in 1925 as a war memorial and as an instn. to provide higher educn. for the young people of Newfoundland and Labrador. During the first 10 yrs the Carnegie Corporation of New York provided annual grants towards general expenses. Thereafter the coll was supported mainly from public funds. In 1934 a teacher trg dept was established to provide a yr of professional trg for prospective teachers. In 1946 a new plan for the trg of teachers was introduced, whereby students in educn combined courses of professional trg with courses in arts and scis. With the establish of the univ, teachers may now take a full 4-yr course leading to the degree of bachelor of arts (educn)

CONSTITUTION The univ consists of the chancellor, convocation, bd of regents, senate, fac. councils and the facs. The management, admin. and control of the property, revenue, business and affairs of the univ are vested in the bd of regents consisting of the chancellor, 2 members elected by convocation and 12 apptd by the lieut-governor in council. Academic matters are in general charge of the senate, composed of the chancellor, the pres (who is chairman), the deputy minister of educn, hds of the facs. of the univ, 1 rep apptd by each coll or instn. affiliated with the univ, and not more than 6 apptd or elected under authority of the bd. of regents. Convocation is composed of the chancellor, pres, senate, bd of regents, all grads of the Memorial Univ. Coll., all persons holding academic appts. within the univ whose names are added to the roll of convocation by the registrar from time to time upon instructions from the pres., and all grads of the univ. The functions of convocation are chiefly elective but it may also consider all questions affecting the well-being and prosperity of the univ, and make representations from time to time on such questions to the senate.

INCOME (1958-59). Total income, \$915,678 (federal and provincial govts, 80.34 per cent., students' fees, 12.48 per cent., endowment, 1.67 per cent., sponsored or assisted res., 43 per cent., misc., 5.08 per cent.)

FACULTIES AND DEANS See p 243

UNIVERSITY PRECINCT Until the summer of 1961 the univ occupied bldgs in a commanding position on the old Parade Ground in St John's, looking out towards the Southside Hills and the Narrows. Its new bldgs (comprising arts & admin bldg, sci & engin bldg, library and gym and student centre) are situated on an estate of about 100 acres just within the St John's city limits. Plans for further devels include construction of univ residences, dining hall, educn and appl sci bldgs, convocation hall and extn to library. It is hoped to complete these by 1970.

LIBRARY 52,943 vols; 735 serial publications and periodicals subscribed to, Carnegie art reference set, 2000 prints, Carnegie music set, 700 gramophone records. Full depository library for Canadian govt publications.

GENERAL INFORMATION

Originally establd. in Montreal in 1876 as a branch of Laval Univ., the Univ of Montreal became autonomous in 1920, under a special act of the legislature of the province of Quebec subsequently revised in 1950. It also enjoys certain privileges under a papal charter dating from 1919 and is Roman Catholic in outlook. Through affiliated instrns (see above) as well as by itself, the univ. caters for the educnl. needs of over 12,000 students, over 3000 of whom attend courses and lectures in the bldgs of the univ proper.

CONSTITUTION Four out of the 12 members of the bd of governors are apptd by the Roman Catholic hierarchy. The remaining 8 governors are French-Canadian business personalities. The bd. is self-perpetuating. Financial affairs are under the direct supervision of an executive cttee composed of 5 governors; the chief executive officers are the rector, vice-rector, secretary general and treasurer general. Pedagogical matters are determined by a commission on studies composed mainly of the deans of the different facs.

INCOME Total income (1959-60), \$5,567,612 (principal sources: provincial govt grants, 44 per cent., fees, 29 per cent.; endowment and grants for res., sp. educnl and allied projects, 27 per cent.) Total income excludes theology and all affiliated instrns, which are autonomous and have their own separate budgets.

FACULTIES AND DEANS, see p 247

UNIVERSITY PRECINCT The univ is owner in freehold of several acres on the western slope of Mont-Royal. The present bldgs were erected between 1937 and 1941, at a cost of over \$12,000,000. In 1947-48, an additional \$12,000,000 was raised through public subscriptions for various purposes. So far, a students' residence and a students' union bldg have been completed and a pension fund for fac. and staff has been establd. There still remains to be completed the univ hosp.

LIBRARY. General libr., 250,000 vols., sch of higher comml studies, 130,000 vols., sch of engin., 99,800 vols., Grand Séminaire de Montréal, 58,200 vols. Total 538,000 vols.

ADMISSION The usual admission prerequisite is a bachelor of arts degree in humanities of the Univ of Montreal or its equivalent. However, students with sr. matric are now admitted to the facs of sci., soc., econ & pol sci., schs of comm., engin., rehabilitation, med technol., and inst of dietetics. Students residing outside the province of Quebec must submit full particulars of studies and marks obtained during their BA course or towards the securing of any other dipl. submitted. For full details see the *General Prospectus* and the *Prospectus* of each fac and sch. concerned. Enquiries should be addressed to the sec. of the sch. or fac in which the student intends to register. See also Appendix III.

DEGREE OF BACHELOR OF ARTS The *baccalauréat ès arts* (BA) is awarded by the univ., the complete course leading to it being a 4-yr. course provided in private *collèges classiques* affiliated to the univ (for a list, see pp 256-7).

Students are admitted to the coll. course by passing *immatriculation* exams set by the univ. (thus obtaining the matric. dipl. of the univ.) This exam. takes place at the end of the secondary course, which is of 4 yrs' duration, the last yr corresponding to the 11th yr. of schooling. For the secondary course most of the *collèges classiques* have their own high sch. where students receive instrcn. for grades VIII, IX, X, XI and prepare for the *immatriculation* exams. The BA, awarded by the univ. at the end of the 4th yr. of coll. (when the student is about 20 yrs old), is a gen. arts degree entitling the candidate to begin professional studies in law, med., dent. or to enter upon further studies in arts, letters, philos., or sci. Exams are set by the univ. every yr. of the coll. course.

Courses for adults seeking the BA are provided in the univ. itself.

The univ. also awards the BPéd (4 yrs. after matric) to certain students in public *écoles normales*.

OTHER DEGREES After the BA (or, in certain subs., after sr matric *see* 'Admission', above) the student may proceed, in the univ itself, to the following degrees in the fields indicated: *Dent* DDS, 4 yrs after BA; *Hygiene* BEdPR, 4 terms after BA, BSc or BPéd; *MEdS*, 1 yr after BA, BPéd, BPh or BEdPR; *Law*: LLB, 3 yrs after BA, LLL, 3 yrs after BA, MA in law, 1 yr after LLB or LLL, LLD, 3 yrs after LLL; *Letters*: MA in letters, 1 yr after BA, LLet, 2 yrs after BA, PhD, 2 yrs after MA; *DLett*, 2 yrs after LLet; *Med*: MD, 5 yrs after BA, MSc in med, 1 yr after MD or BSc, PhD in med, 3 yrs after MD or BSc; *Music* (sacred or profane) BMus, 2 yrs after BA, LMus, 4 yrs after BA, DMus, 2 yrs after LMus; *Pharmacy*: BPharm, 4 yrs after BA, MPharm, 1 yr after BPharm, DPharm, 3 yrs after BPharm; *Philos*: BPh, 1 yr after BA; MA in philos, 1 yr or 3 yrs after BA, LPh, 1 or 2 yrs after BPh, DPh, 1 yr after LPh, PhD, 1 or 2 yrs after MA; *Pure sci*: BSc gen, varies, BSc spec (in biochem, biol, chem, geol, maths, maths-phys, phys), 3 yrs after BA, or 4 yrs after sr matric, MSc, 1 yr after BSc spec, DSc or PhD, 2 yrs after MSc; *Soc sci.*, econ & pol sci: BSc in econ, pol or sociol-anthropol, 2 yrs after BA or 4 yrs after sr matric dipl, MA in anthropol, criminol, econ, indust relns, pol, soc service or social, 1 or 2 yrs after BSc taken in this fac, PhD (in anthropol, econ, indust relns, pol, soc service, sociol), 2 yrs after MA taken in this fac; *Theol*: BTh, 2 yrs after BA, LTh, 2 yrs after BTh, DTh, 1 yr after LTh

GENERAL INFORMATION

Mt Allison Wesleyan Academy for young men was founded in 1840. Charles F Allison of Sackville, N B, gave the site and bldgs plus an annual support for 10 yrs. A parallel institution for girls, 'The Female Branch of the Male Academy', later known as Mt Allison Ladies Coll, began work in 1854. In 1858, an instn with the title of Mt Allison Wesleyan Coll was granted by the N B legislature power to confer degrees and in 1913 its name was changed to Mt Allison Univ. (The name of the univ is derived from the founder's name and the location, the univ is situated on a hill-top overlooking the Tantramar marshes which stretch for miles around.)

Instrucn in theol subj's began in 1860 and in 1903 the McClellan Sch of Appl Sci was opened. As the univ grew the function of the Academy and the Ladies Coll gradually diminished (some of the courses taught at the Ladies Coll—music, fine & appl arts, home econ—were absorbed into the curriculum of the univ in 1936) and these two instns were suspended in 1953 and 1946 respectively to provide more space for the rapidly growing univ.

Mt Allison was a pioneer in the higher educn of women. It conferred, in 1875, the first BSc granted to a woman in the British Empire and, in 1882, the first BA awarded to a woman in any Canadian univ.

Originally founded by the Methodist Church, Mt Allison, after the church union of 1925, came under the sponsorship of the United Church of Canada. It is conducted on a non-sectarian basis.

CONSTITUTION The direct govt of the univ is vested in a bd of regents and a senate, and the general council of the United Church exercises a controlling influence on the affairs of the univ through the power of appointing a majority of the regents. The general management of affairs is entrusted to the bd of regents. The bd. consists of 44 members, 24 apptd. by the general council of the United Church of Canada and 20 reps. of the federated alumni. The senate is a composite body consisting of members of the fac. of the univ, and 12 regents appointed by the bd. It is charged with the duty of regulating the strictly educnl concerns of the univ. In its internal admin the univ has always been conducted on strictly non-sectarian principles.

ACADIA, DALHOUSIE, MEMORIAL (NEWFOUNDLAND), MOUNT ALLISON, ST FRANCIS XAVIER, ST. MARY'S and NEW BRUNSWICK (see separate entries) Students who have completed the 3-yr course in engin of one of these univs may be

admitted direct to the 4th yr of a degree course in engin at the coll. Students who have completed the first 2 yrs of the engin course will be admitted to 3rd yr archit upon recommendation of their dean of engin

GENERAL INFORMATION

The Nova Scotia Technical College was authorized by an act of the provincial legislature in April 1907.

The erection of the main bldg proceeded during 1908 and the coll. was opened, with courses in civil, elect., mech. and mining engin, in the autumn of 1909. The 1907 act relating to technical educn. was repealed in 1947 and two new acts were passed by the provincial legislature placing engin. educn and secondary technical educn under separate heads. Thus the coll now confines its activities to work of univ level only. Under the new N S T C Act authority was given for the establishment of grad studies and res., and provision was made for close co-op between the coll and the NSR Foundation. A further expansion in 1947 was the addition of the dept of chem and metall engin. In 1953 the dept of metall engin was transferred to the jurisdiction of the dept of mining engin, thus becoming the dept of mining and metall engin. In 1961 the coll added a sch. of archit, the first degrees in this field will not be granted until 1965.

CONSTITUTION The coll is governed by a bd of governors under the chairmanship of the minister of educn of NS, a senate under the chairmanship of the pres of the coll., and the fac under the chairmanship of the pres. In general the fac reports to the senate, and the senate reports to the bd of governors on all matters pertaining to the operation of the coll, and the bd reports annually to the lt-governor in council. The associated univs are represented on the bd. by their presidents and on the senate by the hds of their respective depts of engin.

INCOME (1959-60) \$437,104 (prov of NS, 52 per cent, govt of Canada, 15 per cent, fees, etc., 33 per cent)

COLLEGE PRECINCT The coll campus is located near the centre of Halifax on Spring Garden Rd and Barrington St. The present plan of devel is to bring as many as possible of the individual depts. under one roof.

GENERAL INFORMATION

In 1848 the Missionary Oblates of Mary Immaculate founded the 'College of Bytown' for the moral and intellectual educn. of the people of the Ottawa valley. In 1849 it was incorporated and in 1861 became the 'College of Ottawa'. An act of the union gov't in 1866 raised the coll to the rank of a univ and in 1889 it became a pontifical univ by decree of Pope Leo XIII. The univ had barely begun to develop when, in 1903, its bldgs were destroyed by fire. The revised civil charter was approved by the Ontario legislature in 1933. The pontifical charter was amended according to the requirements of the constitution *Deus Scientiarum Dominus* and was also given a new approval by Rome in 1934. During the past 20 yrs the univ. has developed rapidly.

The purpose of the univ is to give its students a truly Christian educn. A distinguishing mark of its teaching is the organization of parallel courses in English and French in most sections. In its teaching methods it tries to combine traditional values and modern techniques

SUPREMACY In all matters academic, supreme power and authority rests with the senate, which is composed of the great chancellor, the rector, the deans and dirs of facs and schs. and the members of the council of admin. The admin. powers are vested in the council of admin. composed of the rector, vice-rectors, sec., treasurer and 2 councillors, all of them belonging to the Oblates of Mary Immaculate. This body is advised by senate on academic matters and by the bd of regents (7 members chosen among prominent laymen) on financial matters

AFFILIATED COLLEGE

QUEEN'S THEOLOGICAL COLLEGE, Kingston, Ontario (tel. Liberty 6-1731). Incorporated in 1912 Religious denomination United Church of Canada Provides courses leading to testamur

in theol and BD of the univ Principal & Prof of NT Lit & Criticism—Rev E. Andrews, BA Dal., MA PhD Drew, BD Pine Hill, Hon DLitt Mt All 4 other Profs, 3 Lectrs.

GENERAL INFORMATION

Founded in 1841 by royal charter issued by Queen Victoria, the purpose of Queen's Coll at Kingston was, under the sponsorship of the Presbyterian Church of Canada in connexion with the Church of Scotland, to provide, within the country, trg for the ministry and educnl facilities for the youth of a growing economy in a vast area without such educnl opportunities. When the 1st session began Queen's was the only active degree-granting coll between the maritime provinces and the Pacific. It was modelled on the Univ of Edinburgh, and Scottish academic influences have helped to mould its character

As the coll developed, its consttution was broadened by successive acts of parliament and the slender denominational requirements of 1841 were gradually eliminated until in 1912 an act was passed by the dominion parliament removing all trace of denominational control. What had been the fac. of theol became the indep Queen's Theol Coll (see above) and the original Queen's Coll became Queen's Univ at Kingston, a national institution privately endowed and privately controlled.

In 1854 the medical fac was establd., it was reorganized in 1866 as the Royal Coll. of Physicians

and Surgeons in affiliation with the univ, but in 1801 the original status was resumed. Opened in 1801, the fac of law closed in 1864 and, after a further 3 yrs of existence, again in 1883, as the result of a change in the regns of the Law Soc of Upper Canada and the reorg of Osgoode Hall, the fac was restored in 1957. A sch of mining was founded in 1893 as a sep instn under an Ontario charter, amalgamated with the univ in 1916 and now constitutes the fac of appl sci. The sch of comm & admin (now the sch of bus) was established in 1919, the sch of nursing in 1942 and the sch. of phys & health educn in 1947.

CONSTITUTION. The admin of the univ is vested in the bd. of trustees, the univ council, the senate and the fac bds. The bd. of trustees is composed of the chancellor, principal and rector, representatives of the council, theol coll, the grads. and benefactors, and 12 members selected by the bd. Its functions are to manage the finances and property, to procure legislation, to appoint instrs. and other officers on the advice of the principal, and to attend to such external matters as do not relate directly to instrcn. The univ. council consists of the chancellor, the trustees, the senate and grads. elected from their own membership. The council discusses all questions relating to the univ and makes representation of its views to the senate or bd. of trustees. The senate is made up of the principal, vice-principal, principal of the theol. coll., deans of facs, 3 profs from each of the facs of arts & sci, appl sci. and med., 1 prof. from the fac of law, and 1 prof. from the fac of Queen's Theol. Coll. The senate determines all academic matters which concern the univ as a whole, and enforces the statutes, rules and ordinances of the univ. The fac bds, which have the power to administer their own affairs under such regns as the bd. of trustees may prescribe, are each made up of the dean, profs, assoc profs, asst profs, lectrs (in arts & sci., after 1 yr's experience), and, in the fac of arts & sci., the univ librarian.

INCOME (1959-60) Total income, \$4,783,000 (govt grants, 42.8 per cent, fees, 34.4 per cent; endowment, 13 per cent, misc, 9.8 per cent.)

FACULTIES AND DEANS. See p. 290

UNIVERSITY CAMPUS Queen's Univ has a campus of 70 acres reaching at some points to the shores of Lake Ontario. Over the past decade the univ. has engaged in an extensive bldg programme. 40 per cent of the permanent bldgs now standing have been opened during that period. One of the significant parts of this programme is the increase in residence accomm for both men and women. There are also increased facilities for work in the pure and appl scis. and in library services.

GENERAL INFORMATION

The Royal Military Coll of Canada originated in 1875 when the dominion govt decreed that there be establd. 'an instn for the purpose of imparting a complete educn in all branches of military tactics, fortification, engineering, and a general scientific knowledge in subjects connected with and necessary to a thorough knowledge of the military profession, and for qualifying officers for command and for staff appts'. The site selected was the old naval dockyard on Point Frederick. The coll was opened in 1876. The title 'Royal' was conferred in 1878. The coll was closed for cadets from 1942 to 1948 but was used for officer courses. It was reopened for cadets in 1948 as a tri-service coll.

The purpose of the coll, as well as of Royal Roads and Le Collège Militaire Royal de Saint-Jean, is to train cadets in the moral, mental and physical requirements for entry into the commissioned ranks of the sea, land and air forces. The moral trg includes the devel of the essential characteristics of discipline and leadership. Mental trg includes the fundamental military and scientific knowledge required in all branches of the service and in particular of the technical corps, and provides a balanced and liberal educn in arts and scis.

CONSTITUTION. The Royal Military Coll, Royal Roads and Le Collège Militaire Royal de Saint-Jean are administered by the dept of natnl defence, and the minister of natnl defence is, *ex officio*, pres of the coll. The arts, sci and engin facs operate as a joint fac under a dir of studies.

COLLEGE PRECINCT. The coll is situated on a peninsula at the confluence of the St Lawrence and Catarqui rivers at the eastern outlet of Lake Ontario. On a site of 94 acres there are 7 teaching bldgs, a library, 3 residences, 2 gyms, officers' and cadet messes, 11 fac residences, and athletic facilities including 5 playing fields, a rink, swimming-pool, tennis courts, rifle ranges, boat houses, etc.

GENERAL INFORMATION

Founded in 1864, the instn. was incorporated under the name of 'The Coll. of Saint Joseph', with the power to confer degrees, by an act of the New Brunswick legislature in 1868. In 1898, the original charter was amended, the name being changed to 'The Univ. of Saint Joseph's Coll.'. In 1906, Oxford Univ. admitted St. Joseph's Coll. to the privileges of the statute of colonial univs. In 1928 the legal title was changed to 'Saint Joseph's Univ.'. The univ. is conducted by the fathers of Holy Cross.

CONSTITUTION Since the opening of the new bldg. in Moncton in 1953 for scis, comm, civil engin and educn, St. Joseph's Univ. has been governed by a single corporation. There is a general cttee on studies, comprising the pres and the dean of studies of each instn as members *ex officio*. These officers outline the general curriculum of studies for the univ. For the rest, each instn. has its own budget and is administered as if it were a separate coll., each has a bd. of governors, comprising the pres, the vice-pres, the dean of studies, the sec. and two local councillors. On admn. problems the powers of members of the council are limited to consultation, they have full power on financial problems. The local cttee on studies is composed of the pres. of the instn, the dean of studies and the deans of the depts. The deans of the depts. are responsible to the dean of studies, who is responsible to the pres. of the instn.

INCOME Govt. grants provincial govt., \$20,000; federal govt., \$30,000.

UNIVERSITY PRECINCT Fac. of arts is situated at St. Joseph's. Chief admn. offices are in Moncton, in the centre of which the univ. also owns an area of 80 acres, where a residence for men was opened in 1959. There is a temporary classroom bldg. pending further devel. on the campus.

LIBRARY 50,000 vols at St. Joseph's, 10,000 vols at Moncton.

MUSEUM Natural hist and Acadian hist. The library, museum and archives, the first instn. of its kind organized for the benefit of the Acadian population, has specialized in, and contains valuable collections on, the hist. of Acadia.

LABORATORIES Biol., chem., phys.

GENERAL INFORMATION

In 1802, Rev Edmund Burke founded Saint Mary's Coll. An act of the legislature of Nova Scotia passed in 1841 and confirmed on several occasions conferred full univ powers. All through its history, Saint Mary's has been under the direction of groups of Roman Catholic clergy. The secular clergy, the brothers of the Christian Schools and the Christian brothers of Ireland have all had charge of the admin. In June 1940, on the invitation of Most Rev J T McNally, archbishop of Halifax, the Jesuit fathers of Upper Canada assumed direction of the coll. A new property was purchased in 1943, and on it was raised the new structure which was opened in Sept 1951. In 1952 the name was officially changed to Saint Mary's Univ.

CONSTITUTION The archbishop of Halifax is, *ex officio*, chancellor of the univ. Under his chairmanship, the senate consists of vice-chancellor and 20 fellows, the pres and vice-pres of the univ are *ex-officio* members. The senate acts chiefly in an advisory capacity. Financial responsibility is vested in the Roman Catholic episcopal corporation of Halifax, and the univ is administered and directed by the fathers of the Upper Canada province of the Soc. of Jesus.

GENERAL INFORMATION

The univ. was founded in 1954 by the Roman Catholic Archbishop of Sherbrooke, under an act of the legislature of the province of Quebec. It received its Roman Catholic charter in Nov. 1957.

CONSTITUTION The chancellor, who is always the R.C. archbishop of Sherbrooke, is hd. of the univ. He administers through the executive a rector, 2 vice-rectors, a sec.-general, a treasurer

and 4 directors. These members are nominated by the chancellor and are responsible to him.

Each fac has its own bd responsible to the executive. The chancellor nominates the dean who is the hd of that council, the vice-dean and the sec. The other members are nominated by the executive.

Also responsible to the executive is the bd of trustees, whose object is to collect, own and administer, in trust for the univ, property and moneys.

ADMISSION. See Appendix III

DEGREE OF BACHELOR OF ARTS The *baccalauréat des arts* (BA) is awarded by the univ and may be gained in two ways.

(a) The complete course leading to it is provided in private *collèges classiques* affiliated to the univ (for a list, see p 328). The course is of 8 yrs' duration, in two 4-yr stages called *cours secondaires* and *cours universitaires*. The *licence* (taken from about 12 to 16 yrs of age) is comparable to the high school of English Canada and the latter to the general course in arts. Admission to the second stage is by passing the *matriculation* exam set by the univ (and thus obtaining the matric dipl of the univ) at the end of the 4th (final) yr. of the *cours secondaires* and the 11th yr of schooling.

(b) Alternatively, the 4 yrs of the *cours universitaires* may be taken at the Collège Universitaire, Sherbrooke (see p 328).

Students who reach a certain standard in both arts and sci in the *cours universitaires* are awarded the BA of the univ usually at about the age of 20. The award of the BA indicates that the student is ready to begin his professional studies in law, med or appl scis., or to enter on higher study in arts or sci.

OTHER DEGREES *Comm* BCom, 2 yrs after BA or 5 yrs after 11th grade or jr matric, MCom, 1 yr after BCom. *Educ* BPéd, 1 yr after BA or 4 yrs after 11th grade or jr matric, MPéd, 1 yr after BPéd, LPéd, 2 yrs after BPéd. *Engin* BScApp, 5 yrs after BA or 6 yrs after 12th grade. *Household sci* BScDom, 4 yrs after 11th grade or jr matric. *Law* LLB, 3 yrs after BA. *Sci*: BSc, 3-4 yrs after BA or 4-5 yrs after 12th grade.

GENERAL INFORMATION

Sir George Williams Univ (named after the founder of the Y M C A) has developed from the formal educnl. work of the Montreal Y M C A. inaugurated in 1873. First classes at univ level were offered in 1929 in the evg. division, and day courses in arts, sci and comm were inaugurated in 1932. The members of the first class graduated in 1936 and by 1960 some 7669 degrees had been presented. Throughout this period the coll. had been conducted under the terms of the charter of the Montreal Y M C A. (consolidation June 1888). In March 1948, however, the univ was granted a specific charter by the provincial legislature, establishing it a body corporate and politic, for the purpose of conducting a coll. or univ. in the province of Quebec. Its historic connexion with the Y M C A is preserved by by-law.

Similar courses are offered and the same standards are maintained in both day and evg.

divisions, although evg students are required to attend for a longer period to complete degree requirements.

CONSTITUTION The univ charter is held by the corporation of Sir George Williams Univ, which by its first by-law is the metropolitan bd of the Young Men's Christian Asscn of Montreal. Ultimate financial control of the univ. is exercised by the corporation. Appts and policy and actual financial management are the responsibility of the bd of governors, whose members are elected annually by the bd itself. The academic policy and programme are the responsibility of the fac. council, which is made up of all full-time profs. and certain *ex-officio* members. Faculty council is responsible to the bd. of governors.

INCOME (1960) \$2,010,999 (student fees, 80.4 per cent, provincial govt grant, 14.1 per cent;

Y.M.C.A. subsidy, 2 7 per cent, auxiliary enterprises and other sources, 2 8 per cent)

FACULTIES The facs of arts, sci and comm are closely integrated under the general supervision of the dean of the univ. To ensure a broad general basis to the educnl programme of each fac, the work of the univ as a whole is further organized in four divisions, each supervised by a sr. prof: natural sci div.—Sr Prof S Madias, soc sci div.—Sr Prof J W Bridges, humanities div.—Sr Prof W R Fraser, comm div.—Sr Prof P T R Pugsley

LOCATION The univ is housed in a large bldg in central Montreal in the Y M C A bldg, certain of whose facilities are used by the students

ONTARIO COLLEGE OF ART, 100 McCaul St,
 Toronto (tel. EM 6-4977). Principal—S. H
 Watson.

ROYAL COLLEGE OF DENTAL SURGEONS OF
 ONTARIO, 234 St George St, Toronto (tel.
 WA 2-4552) Registrar—W J. Dunn, DDS

GENERAL INFORMATION

There are 4 clearly defined periods in the hist
 of the Univ of Toronto the foundation of
 King's Coll and its progressive secularization,
 1827-49; the Univ. of Toronto in isolation,
 1850-89, federation, 1889-1905, and the period
 of consolidation and expansion from 1905 until
 the present day

The univ was founded in 1827 by royal charter
 as King's Coll. at York, as the state univ of the
 province of Upper Canada, in close connexion
 with the Church of England This moved other
 denominations to establish colls independent of
 King's. Victoria was establish by the Methodists
 at Cobourg in 1841, and Queen's at Kingston by
 the Presbyterians in the same yr It was not until
 1843 that the work of instruct. began at King's
 Coll the first degrees were granted in 1844.
 In 1849, after a bitter controversy, King's Coll.
 was secularized, removed entirely from its con-
 nexion with the Church of England, and its name
 changed to the Univ. of Toronto.

Irrked by this secularization, the Church of
 England in 1851 founded its own Univ. of Trinity
 Coll. In 1852 the Basilian Order established St.
 Michael's Coll. In 1853 a further change was
 made in the Univ of Toronto through the
 creation of Univ Coll. to which was given the
 entire work of instruct., the univ itself becoming
 merely a legislative and examining body similar
 to the Univ. of London then recently establ.
 This move was prompted by the hope that the
 rival univs. would enter into federation, a vain
 hope for many yrs.

Only in the early eighties did representatives
 of the other colls. enter into negotiations for
 a scheme of federation, which was embodied in
 an act of the Ont legislature in 1887 In 1890
 Victoria and St. Michael's entered into federation
 with the Univ of Toronto Trinity Coll. was
 federated in 1904

In 1905 the Ont. govt. appointed a commission
 to investigate and recommend action in regard to
 the univ. The Univ. of Toronto Act of 1906 laid
 the foundation of the present constitution of the
 univ. The present authority is that given by the
 Univ. of Toronto Act 1947 (as amended up to
 1950).

Federation is confined to the fac of arts & sci.
 The fac is composed of 4 colls. University Coll.,
 Victoria Coll., Trinity Coll and St. Michael's

Coll, all of whose students meet the same ad-
 mission and curricula requirements authorized
 by the senate. The financial affairs of Univ. Coll.
 are administered by the bd of governors of the
 univ. but the other three arts colls. are auton-
 omous instns with degree-granting powers. They
 administer their own financial affairs and exercise
 their degree-granting powers only with respect to
 degrees in divinity

In addn, Knox Coll and Wycliffe Coll are
 theol. instns. affiliated with the univ, but the
 senate exercises no control over their curricula.
 The situation is parallel with respect to Em-
 manuel Coll., the theol coll of Victoria Univ.,
 and with respect to degrees in divinity offered by
 the Univ of Trinity Coll and the Univ of St.
 Michael's Coll

Situated in Guelph, 65 mls. from Toronto, are
 the Ont Agric Coll and Ont Vet Coll, whose
 students proceed to degrees of the Univ of
 Tor. These 2 affiliated colls. work in close co-
 operation with the provincial dept. of agric,
 which is ultimately responsible for their financial
 operations

York Univ (see p. 349) opened in autumn 1960
 as an affiliated instn of the Univ. of Toronto
 Students attending York Univ read for degrees
 of the Univ. of Toronto and initial teaching in
 York is confined to subs in the general arts
 course at the Univ. of Toronto.

CONSTITUTION The univ. is administered by
 2 sr. bodies. the bd of governors (32 members)
 apptd by the lt-governor in council of the pro-
 vince of Ontario and primarily concerned with
 finance, and the senate (174 members), which is
 the official authority on all academic matters.
 Senate includes 37 *ex-officio* coll. hds, deans, dirs,
 etc., 19 reps. of professional licensing bodies, 59
 reps of the teaching fac and 59 elected members
 of the grad. body

The chancellor, chairman of the bd of gover-
 nors and pres. are *ex-officio* members of both
 senate and bd of governors The pres is the
 chief executive officer of the univ in both
 academic and financial areas, the chancellor,
 elected by a cttee. of election of 55 reps of the
 grads., presides at convocations and certain other
 formal occasions.

INCOME (1959-60). Total income (not including

federated univs. or such subsidiary organs as Royal Conserv of Music of Toronto, Ont. Coll. of Educn, univ. press, Connaught med. res labs), \$20,173,250 (govt grants, 52.4 per cent, student academic fees, 21.8 per cent, gifts and grants for assisted res, 14.1 per cent, endowed income, 1.9 per cent, other sources, 9.8 per cent)

UNIVERSITY PRECINCT. The univ is in the heart of Toronto. 4 of the city's principal arteries bound or cut through univ properties. The univ has acquired a 26-acre tract of land W. of St. George St., Toronto, where a proposed 12-yr. programme of expansion is already under way to provide the new bldgs that will be needed as enrolment increases.

A thesis embodying the result of an original investigation is required. The PhD may be taken in almost any subj. in which a master's degree is available and, in addition, in aeronaut. engin & aerophys., chem. engin & appl. chem., dent., electr. engin., mech. engin., metall. engin.

MBA, by approved course of grad. study extending over 1 to 2 yrs.

MS obtainable after 3-yr. course open only to grads in med. of a recognized univ.

MASc may be obtained by a BASc or BSc grad of this univ. or one who holds an equivalent degree from some other univ. who pursues a course of advanced study in the fac. for 1 yr., presents a satisfactory thesis and passes such exams as may be prescribed. The MASc may be taken in aeronaut. engin. & aerophys., appl. geol., chem. engin., civil engin., electr. engin., geol. sci., mech. engin., metall. engin.

MArch may be obtained by one who holds the degree of BArch or BASc, or an equivalent degree, under the same conditions as the MASc degree.

MSCE is open to candidates who have obtained

the BScF or equivalent degree. The course normally requires 2 yrs. if by exam, 1 yr. if by thesis.

BEd is open to candidates holding a univ. degree acceptable to Ont. Coll. of Educn., and a cert as teacher valid in one of the provinces of Canada and issued after a regular course in an approved trg sch. or the equivalent of such cert and course of trg. The degree is awarded to those who supplement their professional trg by attendance, after successful experience, at a summer session and complete work assigned. MEd is open to candidates who hold the BEd degree or equivalent standing. Requirement for the degree is completion of work assigned during attendance at 1 regular session or 3 summer sessions, although students of proven ability may obtain permission to write a thesis in place of the last 2 of the 6 units of instructn. ordinarily required. The EdD is open to holders of the MEd who qualify as candidates by their standing on selective tests, 1 regular session of course work and a major thesis, completed subsequently, are required.

MLS, 1-yr. course open to holders of BLS or equivalent.

MSW (master of social work) is open to grads who have obtained the BSW degree or equivalent. The DSW is open to holders of the MSW.

MSA is open to grads who have obtained the BSA degree or equivalent.

MScD is open to grads. of the fac. of dent. of Univ. of Toronto or those with equivalent standing. It involves at least 2 yrs. work.

MScPhm (master of sci. in pharmacy), open to holders of BScPhm, or equivalent degree, who pursue advanced course of study and submit satisfactory thesis (Normally 2 academic sessions).

MVSc or DVSc is open to grads. who have obtained BVSc or DVM degree or equivalent.

MusDoc is open to a MusBac and MusM of this or another univ. who had received bachelor standing at least 5 yrs prior to registration or master standing at least 2 yrs. prior to registration.

MusM (master of music) may be obtained by those holding degree of MusBac or equivalent after 2 academic sessions of advanced work.

LLM may be obtained by an LLB grad. of the univ. or an approved univ., of at least 1 yr's standing, who passes the prescribed exams and presents a satisfactory thesis. The DJur is open to candidates who have obtained LLM or equivalent. It requires 1 yr.'s attendance, exam and a thesis.

The univ. publishes annually a *Sch. of Grad. Studies Calendar*. All communications on this subject must be addressed to the sch. of grad. studies.

GENERAL INFORMATION

St Michael's Coll was establd. in 1852 by the Rt Rev Armand François, Comte de Charbonnel, second bishop of Toronto, and placed under the

direction of the Basilian Fathers. It was incorporated as an instn. of higher learning by the statutes of the province of Canada in 1855. In

CANADA

1881 St Michael's was affiliated, by statute of the univ. senate, to the Univ. of Toronto. In the univ. acts of 1887 and 1904 it was described as a federated theol. coll., but continued independently as a classical coll. for Catholic laymen. When the Univ. of Toronto was reorganized by the Univ. Act of 1906, St. Michael's entered the new univ. federation as an arts coll. preparing students for univ. degrees. In 1954 St. Michael's obtained independent civil establishment for its theol. sch. and in 1958 was constituted by the legislature of the province of Ontario as a univ. in federation with the Univ. of Toronto.

St. Michael's, in conjunction with the Univ. of Toronto, offers full programmes in arts, sci. and comm. at undergrad. level and, independently, in theol. and related studies at postgrad. level. The Inst. of Medieval Studies is located on the same campus.

CONSTITUTION The univ. is under the management and admin. of the collegium. The senate has power in all matters of a strictly educul. nature not assigned to another body or officer. The pres. is charged with the general oversight of the univ. as a whole.

UNIVERSITY PRECINCT The univ. is situated on Queen's Park Crescent on a site of 13 acres adjoining the campus of the Univ. of Toronto.

GENERAL INFORMATION

Incorporated by an act of the provincial legis-
lature in 1878 as the 'Western University of
London, Ontario', in connexion with the Church
of England, the Univ has become, under the pro-

visions of amending acts of 1908, 1923 and 1955,
absolutely undenominational in its govt., which
is under provincial and municipal control. It
consists of 7 divs of the Univ proper—the fac. of

arts and sci. (University Coll, Middlesex Coll, Coll of Music), the fac of grad studies, the fac. of engin sci, the fac of law, the fac of med, the sch of nursing and the sch of bus admin—as well as the affiliated instns listed above

CONSTITUTION The univ senate is responsible for academic affairs, while the bd of governors controls financial affairs. The bd of governors is partly apptd by the lt-governor-in-council, partly by the London city council, partly by the univ, and partly elected. The senate is partly univ admin & fac members, *ex officio*, partly elected by fac members, secondary sch principals and univ grads, and partly apptd by outside bodies, e.g. bds of educn and near-by city and county councils. The president and vice-chancellor is chairman of the senate and a member of the bd of governors

INCOME (1959-60). \$5,964,483, incl \$987,716 for res and \$817,638 for ancillary enterprises. Principal sources (excl ancillary enterprises): federal govt, 18.9 per cent; provincial govt, 20.5 per cent; municipal, 1.5 per cent; res grants, 19.5 per cent; other gifts and grants, 1.5 per cent; student fees, 32.2 per cent; endowment income, 1.6 per cent; other sources, 4.3 per cent

FACULTIES AND SCHOOLS See above (for deans, see p 365)

UNIVERSITY PRECINCT Campus consists of more than 500 acres along Thames River in N London. Fac of med is in a hosp centre on South St. Each affiliated coll has its own campus close to north precinct. Plans call for a basic med sci bldg on north campus soon. It is also planned to keep a good deal of space open for playing fields

LIBRARIES of univ proper: 266,000 vols plus several thousand pamphlets. Barnett collection contains many rarities dealing *inter alia* with Canadian and American hist

LABORATORIES J. B. Collip med res lab, cancer res lab

TEACHING HOSPITALS in London: Victoria, St Joseph's, St Mary's, War Memorial Children's, Bethesda, Ontario, Beck Memorial San, Westminster (Veterans), Ontario Hosp., nr St Thomas, Ont

ACADEMIC YEAR Sept 12-May 15 (approx.). year varies from 32 to 36 wks among the various facs and schs

CORRESPONDENCE AND EXTENSION WORK in winter sessions in some general course subjs, offered mainly for teachers and other adult students, either as credit courses towards degrees or as non-credit cultural courses. No degree may be earned entirely in the extension and correspondence div, without attendance at winter or summer sessions. Adult educn. is under the control of the summer sch, correspondence and extension dept

THE SUMMER SCHOOLS (approx. 1500 students) offer a 7-wk course at Trois-Pistoles, Que, in French for English-speaking students, and in English for French-speaking students, and a 6-wk course at University Coll in standard arts & sci subjs of the gen course (for BA) as well as hons work in Engl, geog and maths for teachers with degrees who are working for certain teaching certs.

2 summer courses, each of 1 month's duration, in marketing and in management trg at executive level, for about 200 men

The ALUMNI ASSOCIATION assumes some responsibility for the placement of grads. In addition, the Dean of men supervises a placement service for summer and for permanent employment, and sch of bus admin and engin. sci fac have their own placement bureaux

STUDENT RESIDENCES. Spencer Hall, London Township (for 104 women), Medway Hall (for 300 men), Brescia Hall (100 Ursuline Coll women), Huron Coll (250 men and women in various residences), Christ the King Coll residence for 150 men, St Peter's Coll (150 men), fraternity houses and society houses for men and women above the freshman level, the United Church residences accomm 75 men and women, Newman House 15 men, and Lutheran Student Centre 10 men.

The DEPT OF MILITARY STUDIES offers trg in the univ naval trg div, or the R C A F univ

reserve trg plan or the Canadian officers' trg corps

THE UNIVERSITY HEALTH SERVICES provide free med. service for students daily, at the campus health centre, and the univ physician and his staff are on call to visit students in their residences. A group health insurance fee pays for special services

GENERAL INFORMATION

The Univ was founded in 1942 by incorporation of the Ceylon University Coll, establd in 1921, and the Ceylon Medical Coll, establd in 1870. It occupies temporarily the premises of the two colls. in Colombo, but new bldgs are being erected in Peradeniya, 4 mls from Kandy, on the banks of the Mahaweli-ganga below the Royal Botanic Gdns. The facs of agric, arts, oriental studies and vet sci moved to Peradeniya in 1952, the general admin in 1953 and the dental sch in 1954. When the whole univ is moved there it will become entirely residential. More land will be required for the fac of med and new facs. The main bldgs are being erected to a plan formulated by Sir Patrick Abercrombie and Mr Clifford Holliday.

CONSTITUTION The corporation known as the Univ of Ceylon (establd under the Ceylon Univ ordinance no. 20 of 1942) consists of the chancellor (the governor-general), the pro-chancellor (the minister of education), the vice-chancellor, the court, the council and the senate. Financial and legislative control is vested in the court, which consists of the chancellor, pro-chancellor, vice-chancellor, members of the council, profs and

other hds of depts, reps. of the facs, grads, parliament and other bodies and certain nominated members. The council is the exec body of the univ. In academic matters it acts on the advice of the senate, which in many matters acts on the recommendation of the facs.

UNIVERSITY OF EAST AFRICA

It is intended that the following shall be the constituent colleges of the proposed new university.—

MAKERERE UNIVERSITY COLLEGE, Uganda ⁶ see p. 383

ROYAL COLLEGE, NAIROBI, Kenya see p. 388

UNIVERSITY COLLEGE, DAR ES SALAAM, Tanganyika see p. 390

The creation of a Univ. of East Africa was first proposed in 1958 by the Working Party on Higher Education in East Africa led by Dr J. F. Lockwood, the master of Birkbeck Coll., Univ. of London. After acceptance in principle by the Inter-University Council for Higher Education Overseas, the 3 E. African govts and the coll. councils, the proposal was confirmed by the white paper issued by the E. African govts in 1959 and by the recent Quinquennial Advisory Cttee. on Higher Education in East Africa. Great interest was also expressed by the Conference on East African Education called at Princeton, New Jersey, in Dec. 1960 by the American Council on Education, which gave the scheme its full support.

A provisional council—the first meeting of which was held in Nairobi in June 1961 under the chairmanship of Sir Donald MacGillivray, GCMG, MBE—has been formed to establish as soon as possible the Univ. of East Africa, consisting of the existing colls. (about which information is given below on pp. 383-390). Makerere Univ. Coll., the Royal Coll., Nairobi, and the Univ. Coll., Dar es Salaam. This council is fully supported by the 3 univ. colls. and by the govts of Kenya, Uganda, Tanganyika and Zanzibar, by the Inter-University Council for Higher Education Overseas, by the Council for Overseas Colleges of Arts, Science and Technology, and by the African Liaison Cttee. of the American Council on Education.

The Univ. of East Africa will award its own degrees, the standard and recognition of which

will be guaranteed by a sponsoring body such as is proposed for the new univs. in the United Kingdom. This body will consist of eminent academic figures drawn from the univ. world.

The constituent colls. will retain their respective identities and will be responsible for the teaching and research work of the univ. while enjoying and benefiting from a broader academic assocn.

The provisional council has set up an academic cttee., representative of the academic bds. of the 3 constituent colls., to make recommendations on all matters relating to the academic management and organization of the univ.

The principal of Makerere Univ. Coll., Mr B. de Bunsen, has been appointed vice-chancellor designate of the new univ. He will become the first vice-chancellor of the univ. when it is established. It is intended that the vice-chancellorship should normally be held for a period of 3 years and that the appt. should be made from among the principals of the constituent colls.

L. M. Young, MA S.A., PhD Camb. has been appointed secretary to the provisional council and registrar-designate of the univ.

It has been decided to accept the offer of the Uganda govt. to provide temp. office accomm. in Entebbe, Uganda, without prejudice to the final decision on the location of the headquarters of the univ. by the council of the univ. when it is formally constituted.

GENERAL INFORMATION

Makerere Coll. was founded in 1922 as a technical sch. under the educn. dept of Uganda admin. Following the De la Warr report in 1937, which pointed to the future of the coll. as a centre of higher studies in E. Africa, under the inspiration of Sir Philip Mitchell the coll. was presented with land and an endowment and a nucleus of its bldgs. Work on the present admin. block was inaugurated by H R H. the Duke of Gloucester, and the block with its twin chapels was completed in 1941. Support and benefactions from African and European sources have consolidated the inter-territorial status of Makerere. On the recommendation of the Asquith commission in 1945 it was definitely decided that the coll. should become the centre of univ. studies in E. Africa. A scheme of special relationship with the Univ. of London* was entered into at the end of 1949, whereupon the coll. assumed its present title. Courses leading to the general degrees of the Univ. of London in arts and sci. started at the beginning of 1950.

The coll. is wholly residential. It is open to all students, regardless of race, colour and religion, who have the academic qualifs. necessary for admission. Entries are accepted from any of the E. African territories, i.e. Kenya, Uganda, Tanganyika and Zanzibar. There is a limited number of places for students from other territories.

The coll. is situated on the outskirts of Kampala. The vet. sch. is at Kabete, near Nairobi. The farm for the fac. of agric. is at Kabanyolo, 13 miles from Kampala.

A major bldg. programme has been undertaken since 1948, financed mainly by grants of £2,200,000 from C.D. & W. funds. This includes a library, new teaching and res. bldgs. in all facs., 5 halls of residence, and accomm. for staff.

CONSTITUTION. This follows closely the pattern of the English civic univs., with a council consisting of lay and academic members as the governing body, and an academic bd. responsible for all academic matters.

INCOME (1959-60). £620,150 (endowment and grants, 3.4 per cent.; govt. grants, 90.6 per cent.; tuition fees, 4.6 per cent.; misc., 1.4 per cent.)

FACULTIES AND DEANS (1960-61). Agric., Prof F. B. Wilson; arts, Prof S. J. K. Baker (geog.),

educn., J. A. Bright, law, Prof. A. B. Weston, med., Prof. J. N. P. Davies (pathol.), sci., Dr Edna M. Lind (bot.), vet. sci., Prof. J. B. Polding

LOCATION. The coll. is situated on Makerere hill, and the med. school (address: P O Box 2072, Kampala) on the adjacent hill of Mulago, both on the outskirts of Kampala. The vet. sch. is at Kabete, near Nairobi (address: P O Kabete, Kenya). A fac. of law is now establd. at Dar es Salaam, Tanganyika. It will eventually become part of Univ. Coll., Dar es Salaam (see p. 390).

LIBRARIES. Main library, approx. 70,000 vols., sub-library at med. sch., approx. 16,000 vols.

CHAPELS AND MOSQUE. There are 2 chapels (the chapel of St. Augustine for Roman Catholics and the chapel of St. Francis for members of other branches of the church) and a mosque.

TEACHING HOSPITAL. Govt. African hosp. at Mulago, Kampala, on the same site as the med. sch.

FACILITIES OF SPECIAL INSTITUTIONS. The East African Inst. of Soc. Res. is administered by the coll. Its main function is field res. in Uganda, Kenya, Tanganyika and Zanzibar, covering anthropol. studies in particular tribes, or urban surveys and comparative studies of particular aspects of problems of interest to all E. African territories in the field of sociol., econ., psychol., public admin. and law, and linguistic res.

ADMISSION. For admission to degree courses in the facs. of agric., arts and sci. the entry requirements approximate closely to those of the Univ. of London. For admission to dipl. courses or the licentiate ship in med. and surg. (LMS(EA)) passes in appropriate subjects must have been obtained in the H.S.C. or G.C.E. (A level). Admission to the sch. of fine art is by a sp. entrance exam. and by passes in the sch. cert. or G.C.E. (O level).

FIRST DEGREES (of Univ. of London). The following degrees may be taken under the scheme of special relationship: BA (gen.), 3 yrs., BA (hons.) in English, hist., geog., maths, 3 yrs.; BSc (gen.), BSc (spec.) in geog. & maths, 3 yrs.; BSc (Econ), BSc (Agric), 3 yrs.

* For a note on these 'special relationship' arrangements, see p. 961

HIGHER DEGREES (of Univ of London) MA, MSc, 2 yrs after first degree Open only to grads of Univ of London

DIPLOMAS, LICENTIATESHIP The coll awards dipls in vet sci. (4 yrs), educn. (non-grads, 2 yrs, grads, 1 yr) and fine arts (4 yrs.), and a licentiateship in med. & surg (5 yrs) The LMS(EA) is a qualif registrable by the General Med Council of the U.K.

CERTIFICATES The coll. awards a cert in fine arts (2 yrs, identical with first 2 yrs of dipl course), and a cert in religious studies (3 yrs, may be taken concurrently with any final award)

LEAVE in the U.K. or at their homes for members of staff recruited from overseas 3 months every 2 yrs For locally recruited staff, 3 months in U.K. every 4 yrs

FEEES Residence, £125, tuition. £42 (arts, sci, educn), £51 (med., vet sci).

GENERAL INFORMATION

The Royal Coll, Nairobi (which incorporates the Gandhi Memorial Academy), was founded in 1954 as the Royal Technical Coll. of East Africa, with a view to providing, for the economic development of the territories in East Africa, facilities in the following subjects for higher technological trg, for professional trg, for res, and for vocational trg either in conjunction with any other trg or separately therefrom: engin, sci., lab technol, sanitary sci, pharmacy, domestic sci, industry, comm, accountancy, econ, arts and art and artistic crafts.

Arising out of the *Report of the Working Party on Higher Education in East Africa* in 1958, the Royal Technical Coll of East Africa was, by measures of reconstruction, transformed into the second inter-territorial univ coll in East Africa by act of the E. Africa High Commission in Jan 1961. A scheme of special relationship with the Univ of London* was entered into early in 1961 whereupon the coll assumed its present title. Courses leading to the general degrees of the Univ of London in arts and sci and to the degree of BSc(Eng) began in Oct 1961. The coll is residential and is open to all students without distinction of race or creed. Entries are accepted from any of the E. African territories.

The original bldgs were constructed from grants received from C.D. & W. funds, from the E. African govts, from the I.C.A. and from the Gandhi Memorial Academy. A 2nd major bldg programme began in 1960 from funds supplied under the C.D. & W. scheme. This includes a main library for 500,000 vols., sci bldgs. for phys and chem., a new bldg for civil engin, addnl hostels for men and women and an admin. block.

FIRST DEGREES (of Univ of London). The following degrees may be taken under the scheme of special relationship: BA (gen.), BSc (gen.), BSc(Eng), 5 yrs each (incl. 2-yr prelim. course for G.C.E. advanced level).

OTHER COURSES. Students of archit, land and quantity surveying are entered for the exams. of appropriate professl instns. In dom sci, students are entered for a teacher's dipl. recognized by the Univ of Manchester.

FEES. Residence, £125, tuition £42 (arts, sci), £51 (engin.).

ACADEMIC YEAR. Oct to June 3 terms.

LANGUAGE OF INSTRUCTION. English.

GENERAL INFORMATION

The Univ Coll, Dar es Salaam, was establd. under the Univ. Coll, Dar es Salaam (Provisional Council), Ordinance, 1961. The first students from the 3 E African mainland territories are being admitted in Oct 1961. The coll will be primarily residential

CONSTITUTION The coll. is governed by a provisional council consisting of a chairman, vice-chairman, the principal-designate, 2 members apptd. by the Inter-University Council for Higher Education Overseas, 2 members apptd. by the Tanganyika Higher Education Trust Fund Bd of Trustees, 3 members apptd by the principal-designate from amongst the academic staff of the coll, 3 members apptd. by the governor of Tanganyika, 3 members apptd. by the governor of Kenya, 3 members apptd by the governor of Uganda, one member apptd. by the British Resident, Zanzibar, and such addtl members, not exceeding 3, as the governor of Tanganyika may appoint. The ordinance provides for an academic cttee. The functions of the provisional council include the planning, constrcn and establishment of a univ coll at Dar es Salaam, and the govt and admin thereof. The provisional council and the academic cttee are represented on the provisional council of the Univ of East Africa (see p. 382), of which the coll will be a constituent member.

INCOME It is intended that the coll will derive its main income from grants made by the govts. of Tanganyika, Kenya and Uganda, and from the Tanganyika Higher Education Trust Fund. The secretary of state for the colonies has made a grant of £350,000, from Colonial Development and Welfare Funds, towards initial development

FACULTIES *Law* Under a scheme of co-operation with Makerere Univ Coll (see p 383), the fac of law is establd as a fac of that coll but is physically sited in Dar es Salaam. The prof of law is a member of the academic bd of Makerere Univ Coll, which is responsible for the submission of a proposal regarding regns and syllabus to the senate of the Univ of London for inclusion within the 'scheme of special relationship' between Makerere Univ Coll and the Univ of London. The proposal of the academic bd is in respect of the inter exam in laws of the Univ of London to be held in June 1962. The scheme of co-operation between the Univ Coll, Dar es Salaam, and Makerere Univ Coll will terminate at a time largely dependent upon the date of the establishment of the Univ of East Africa.

Development is to be planned with a view to opening the fac of *arts* in the academic year 1964-65, and the fac of *sci.* in 1965-66.

ADMISSION Entry requirements to the fac. of law approximate closely to those of the Univ of London.

LOCATION The coll will be run in temp accom in the centre of Dar es Salaam whilst bldgs for the facs of *arts* and *sci* and law are being constructed on an 860-acre site on the outskirts of Dar es Salaam. The London firm of Messrs Norman & Dawbarn have been engaged as site planning consultants.

FEES Residence, £125, tuition, £42

ACADEMIC YEAR. Provisionally 3 terms commencing Oct; dates yet to be fixed.

LANGUAGE OF INSTRUCTION English

RESIDENCE The temp. accom of the coll provides for the residence of 40 students

GENERAL INFORMATION

The coll began in 1945 to work for Catholic higher educn in Africa 'Statutes' approved by the Sacred Congregation for Seminaries and Univs. in 1955 established govt of the coll in a council advised by a senate in all academic matters. The congregation of the Oblates of Mary Immaculate, who also conduct the Univ of Ottawa, Canada, is in charge. Staff, consisting mostly of lay people, and students include a significant number of non-Catholics. This deliberately pursues the fundamental aim of contributing, to the African scene, genuine univ objectivity, autonomy and love of truth and, within an atmosphere of tolerance, a Christian mind and Christian values. The coll has been entirely gift-supported.

GENERAL INFORMATION

In 1887 Sir Patrick Manson, GCMG, started the Hong Kong Coll. of Medicine for the Chinese in the Alice Memorial Hosp. opened the same yr. on a London Missionary Soc. foundation. As students of nationalities other than Chinese began to join the coll., the words 'for the Chinese' were struck out of the title in 1907, and the institution was incorporated as 'The Hong Kong College of Medicine'.

The coll. offered to amalgamate in a univ., and in March 1911 the Univ. of Hong Kong was incorporated by a local ordinance, embodying the principle of religious tolerance and racial neutrality. H. M. Govt. guaranteed funds for the foundation of 'King Edward VII' scholarships, awarded on entrance exam results. The univ. was opened in March 1912, in a bldg. donated by Sir H. M. J. Medley, with facs of med. and engin. A fac. of arts was organized in the following yr., a fac. of sci. in 1939 and a fac. of archit. in 1951. The last was combined with the fac. of engin. in 1958.

A plan has been adopted for the univ.'s expansion which will result in the increase of undergrads to about 1800 by 1965. Degree courses in electr. and mech. engin. have been reinstated, and plans are in preparation for degree courses in dent.

CONSTITUTION The supreme governing body of the univ. is the court, with the governor of Hong Kong as chancellor and chairman. The executive body is the council, composed of the vice-chancellor, the treasurer, the colonial sec., the deans of the facs., 4 members apptd. by the chancellor, 3 elected by the court and 1 elected by the senate. The senate, which deals with

academic matters, is composed of the vice-chancellor, the dir. of educn, the profs and the hds. of teaching depts. who are not profs.

INCOME (1959-60) (HK \$16=£1) Interest on investments, \$3,127,910, fees, \$2,028,136, govt. subventions, \$5,800,000, other sources, \$226,589, total, \$11,182,635.

FACULTIES AND DEANS *Arts*, Prof. F. Hamilton (*hist*), *engin. & archit.*, Prof. S. Mackey (*engin.*), *med.*, Prof. F. E. Stock (*surg.*), *sci.*, Dr. I. W. B. Tholinton (*zool.*)

LIBRARIES Univ. libr. over 114,000 vols. in Engl. and other European langs.; receives over 1200 journals. Fung Ping Shan Chinese section, over 118,908 Chinese vols. (incl. 2300 Japanese vols.) and receives 108 current Chinese journals. Sp. collections incl. Hankow collection of invaluable source material on relations between China and the west during the Ch'ing dynasty, and Morrison collection of 2748 vols. incl. some of antiquarian value in the fields of oriental and biblical lit.

THE UNIVERSITIES OF INDIA

[Contributed by Mr S. R. Dongerkery, Vice-Chancellor of Maithwada Unvrseisty]

HISTORY. Modern university education in India dates from the foundation of the universities of Calcutta, Bombay and Madras in 1857. Educational institutions comparable to the universities of to-day did not exist in pre-Aryan India. Glimmerings of the idea of a university can be seen in the colleges and schools for advanced study attached to temples, where the Aryans provided education in religious and secular subjects for their youth. The *gurukula* where the *guru* or teacher imparted the knowledge of the Vedas to the *shishyas* or pupils entrusted to his care was more a residential college than a university, inasmuch as, beyond providing intimate contacts between the teacher and his pupils, it did not afford opportunities for the association of teachers. Such opportunities were, however, provided by *parishads* or conferences of teachers and scholars organized from time to time. By granting recognition to scholars who exhibited their learning before them, these *parishads* performed one of the functions of a modern university.

Takshasila or Taxila, in Kandahar, the most important of the earliest known seats of learning in ancient India, became a university centre in the seventh century B.C. It flourished for nearly ten centuries as a university to which scholars and students were attracted from all parts of India. Similar university centres sprang up at Ujjain, Valabhi, Vikramasila, Banaras and Kanchi (Kanchipuram). At one time, the University of Nalanda in the north (Bihar) and that of Kanchi in the south attained celebrity as centres of Indian culture and scholarship.

With the spread of Buddhism, the *viharas*, or monasteries, developed into centres of learning which attracted lay students by the fame of their teachers. These *viharas*, which, unlike the old *gurukulas*, had many teachers in residence, approximated to the modern idea of a university. About A.D. 425, Kumaragupta I, a devout Hindu, founded the *sangharama* (college) of Nalanda as a residential university. Before him, the Emperor Asoka had built a temple and a *vihara* at the same place. Kumaragupta's successors built more *sangharamas*. The University of Nalanda possessed eight *sangharamas*, three extensive libraries and an observatory. It flourished till the thirteenth century A.D., when it was destroyed by invaders. Theology and philosophy were compulsory subjects of study at the university. Great importance was also attached to the teaching of the various systems of logic. The curricula included astronomy, grammar and medicine. The reputation of the great scholars who taught at Nalanda spread not only throughout the length and breadth of India, but even beyond its borders,

and attracted students from China, Tibet and Ceylon. Nalanda had, at one time, as many as ten thousand students and teachers. The method of instruction consisted of individual tuition and guidance rather than formal lectures. The students derived great benefit by listening to the discussions which took place among their teachers. Close personal contacts were established between the teachers and the taught.

Some of these ancient seats of learning continued to thrive even after the Muslim conquest of India, although the Muslim rulers encouraged the setting up of *madrasas*, or colleges, in different parts of India, e.g. at Lahore, Delhi, Rampur, Lucknow, Allahabad and Jaunpur. The subjects of study in the *madrasas* included theology, grammar, logic, rhetoric, law, geometry, astronomy and metaphysics. While Sanskrit was the medium of instruction in the Hindu centres of learning, Arabic was the chief medium in the *madrasas*.

When the East India Company came on the scene, it was in no hurry to change the indigenous systems of education. On the contrary, it established the Calcutta Madrasah and the Banaras Sanskrit College on the traditional pattern, with the avowed purpose of preserving and cultivating the laws, literature and religion of the people and training young Indians for the administrative and judicial services. The renewed charter of the East India Company, in 1813, contained a clause stipulating that 'a sum of not less than one lakh of rupees in each year shall be set apart and applied to the revival and improvement of literature, and for the introduction and promotion of knowledge of the sciences among the inhabitants of the British territories in India'. Under the leadership of Raja Rammohun Roy, the Hindu College was founded in Calcutta, in 1817, to provide instruction in the European languages and science. In Bombay, Mountstuart Elphinstone advocated the establishment of schools for teaching English and the European sciences. The Elphinstone Institution was founded in Bombay, in 1834, to train persons for high employment in the civil administration. European missionaries, too, were active during this period, establishing schools in the presidency towns for imparting western education through the English language. A controversy arose between those who wanted to impart instruction through Sanskrit and Arabic and those who wanted to do so through English, which provided the occasion for Macaulay's famous minute. Endorsing this minute, the governor-general in council passed a resolution on March 7, 1835, declaring that the great object of the British government ought to be to promote

European literature and science among the Indian people and to employ all funds allocated to education on English education alone. The controversy, in Bombay, over the medium of instruction was settled in favour of English, in 1843. In 1845 the Bengal Council of Education proposed to the court of directors of the East India Company the establishment of a university at Calcutta, but the proposal was turned down as premature.

The next landmark is the dispatch of 1854 of Sir Charles Wood, sometimes called the 'Magna Carta of English education in India', but which may more accurately be described as the *fons et origo* of the modern universities of India. This historic document impressed upon the government of India the duty of creating a properly articulated system of education from the primary school to the university, and recommended, *inter alia*, the institution of universities in the presidency towns of Calcutta, Bombay and Madras. It stated that the object of establishing universities was to encourage 'a regular and liberal course of education by conferring academical degrees as evidences of attainment in the different branches of arts and science'. It held out the University of London as a model which might be followed with advantage in India. The dispatch further advised the institution of professorships at the universities in various branches of learning. The educational policy outlined in it was implemented by the establishment of the universities of Calcutta, Bombay and Madras in 1857.

The jurisdiction of the University of Calcutta, extending from the Punjab in the west to Burma in the east, covered practically the whole of north India, while that of the other two universities was restricted to the respective presidencies. For twenty-five years these three universities catered for the educational needs of the whole country. The universities continued to be purely examining and affiliating bodies. To meet the increasing needs of the student population as well as to relieve Calcutta University of its heavy burden, two new universities were created—the University of the Punjab (now in Pakistan), in 1882, and the University of Allahabad, in 1887. Both these universities followed the example of the three earlier ones by confining their activities to examination and affiliation. No addition was made to these universities till 1916, although, meanwhile, higher education was rapidly expanding.

The next landmark in university education is the appointment, during Lord Curzon's viceroyalty, of the Universities Commission of 1902. The important recommendations of this commission were (i) that the senates of the universities should be limited in size, (ii) that teaching powers should be conferred on the universities, (iii) that they should be given greater control over the affiliated colleges and (iv) that they should undertake research. These reforms, incorporated in the Indian Universities Act of 1904, enabled the five existing universities to improve their efficiency by assuming teaching functions, exercising an

effective check over their affiliated colleges and encouraging research.

The next stage in the progress of university education is indicated by the government of India's resolution, published in 1913, which urged that the area of jurisdiction of the existing affiliating universities be reduced so as to provide a separate university for each of the leading provinces, and that simultaneously new local teaching and residential universities be created in each province in harmony with the best modern educational opinion. Government announced their intention to establish teaching and residential universities at Dacca, Aligarh and Banaras, and additional universities at Patna and Nagpur, and expressed their desire that the existing universities should provide and develop teaching facilities and encourage a corporate life which would advance higher study and create an atmosphere conducive to social and moral as well as intellectual progress.

Banaras Hindu University was founded in 1915. It was intended to be a live centre of Hindu culture and to promote the study of the applied sciences, and was the first denominational university to be established in India. Patna University was founded, in 1917, as an affiliating university to cater for the educational needs of the new province of Bihar and Orissa. Aligarh Muslim University, which developed from the Mahommedan Anglo-Oriental College, founded in 1875, was established in 1920 to serve the special cultural and educational needs of the Muslim community. In 1916, the University of Mysore, the first university in an Indian state, was created by the Mysore legislature.

In 1917 the government of India appointed the Calcutta University Commission under the chairmanship of Sir Michael Sadler, which was to have a profound influence on the subsequent progress of secondary and university education in India. The terms of reference of this commission included problems of secondary education as well as those covering all aspects of collegiate and university education. The recommendations of the commission have affected subsequent university legislation in different parts of India. One was the creation of intermediate colleges and boards of secondary and intermediate education. Another was the creation of teaching and residential universities. The universities of Aligarh, Lucknow, Dacca (now in Pakistan) and Delhi, established between 1920 and 1922, followed the model suggested by it. The commission recommended less government control, a greater participation by teachers in the government of the universities, a closer co-operation between the universities and the colleges and the appointment of full-time vice-chancellors. Most of these reforms have been adopted by the older universities and incorporated in the constitutions of the more recent ones. Osmania University was founded at Hyderabad (Deccan), in 1918, before the Calcutta University Commission's report was published. An outstanding feature of this university was the adoption of Urdu, the language

of the state, as the medium of instruction. Since the merger of the state in the Indian union, English has been adopted as the medium of instruction in the colleges of the university, while in a few of them parallel classes are conducted in Hindustani.*

The decade following the publication of the Sadler Commission's report witnessed a spate of university activity throughout the country. Aligarh Muslim University (1920) and the universities of Lucknow (1921), Dacca (1921), Delhi (1922), Nagpur (1923), Andhra (1926), Agra (1927) and Annamalai (1929) followed one another in rapid succession. Many of these were unitary, teaching and residential universities. The years between 1929 and 1937 were lean years for university activity. The founding in 1937 of the University of Travancore (now the University of Kerala), the third in an Indian state, gave a signal for the revival of the university movement which, after a slight set-back during the second world war, gained renewed vigour, resulting in the establishment of Utkal University (1943), Saugar University (1946), Rajasthan University (1947). Since the attainment of independence by India, nineteen more universities have come into existence, namely, Panjab University (1947), Gauhati University (1948), the University of Poona (1948), Jammu and Kashmir (1948), Maharaja Sayajirao University of Baroda (1949), Roorkee University (1949), Gujarat University (1949), Karnatak University (1950), Shreemati Nathibai Damodar Thackersey Women's University (1951), Visva-Bharati (1951), Bihar University (1952), Sri Venkateswara University (1954), Jadavpur University (1955), Sardar Vallabhbhai Vidyapeeth (1955), Gorakhpur University (1956), Vikram University (1957), Jabalpur University (1957), Kurukshetra University (1957), Meerathwada University (1958) and the University of Burdwan in West Bengal (1960).

The Shreemati Nathibai Damodar Thackersey Women's University and Visva-Bharati, though established by private agencies in 1916 and 1921 respectively, became statutory universities under acts passed in 1949 by the Bombay government and in 1951 the central government respectively. Sardar Vallabhbhai Vidyapeeth, which was an offshoot of Gujarat University, was founded in 1955 and is a teaching and affiliating university.

In addition to the above-mentioned universities the Indian Institute of Science, Bangalore, and the Indian Agricultural Research Institute, New Delhi, are deemed to be universities under section 3 of the University Grants Commission Act (1956).

In seventeen universities (Andhra, Bombay, Calcutta, Delhi, Gauhati, Jadavpur, Jammu and Kashmir, Karnatak, Kerala, Madras, Marathwada, Osmania, Panjab, Rajasthan, Roorkee, Sri Venkateswara and Utkal) English is the sole medium of instruction. In the others it is English and Hindi or English and the mother-tongue, alternatively, except in the Shreemati Nathibai Damodar Thackersey Women's University where it is the student's mother-tongue, and

the Sardar Vallabhbhai Vidyapeeth where it is Hindi.

Four important reports dealing with university education were published after that of the Calcutta University Commission, viz. (1) the Hartog Committee's report (1929), (2) the report of the Panjab University Committee (1933), (3) the report of the Central Advisory Board of Education on post-war educational development in India (1944) (known as the Sargent report) and the report of the University Education Commission (1949), presided over by Dr Radhakrishnan.

The Hartog report was in the nature of a review of the growth of education in British India. It contains some observations on the importance of a corporate life in universities. The authors also observe that the requirements of India cannot be met solely by unitary universities, and that the affiliating university is likely to remain for many years. The Panjab University Enquiry Committee's report did not produce any appreciable change in the constitution of that university on account of the unwillingness of the senate to implement its recommendations, valuable though they were. The Sargent report drew attention to crying defects in the Indian university system, such as the undue importance attached to examinations, the emphasis on book-learning as contrasted with original thinking, the lack of personal contacts between teachers and students, the dependence of universities on examination fees, the absence of schemes for assisting poor but able students and the need for additional universities. Among its important recommendations were the following: (1) that the duration of the degree course should be reduced from four to three years by adding one year of the intermediate course to the schools without lowering standards, (2) that one-third of the students at universities should receive assistance from government by way of scholarships and maintenance grants, and (3) that a University Grants Committee on the lines of the U G C of Great Britain should be constituted.

The report of the University Education Commission (1949) is the most recent authoritative and comprehensive document on the subject of university education in India. The second world war and the achievement of India's independence, accompanied by the partition of the country, hastened the need for a complete and comprehensive enquiry into all aspects of university education, as it was realized that the remoulding of the country's educational policy to suit her future requirements was one of the first essential steps in her national progress. The report gives to the teacher the place which, though due, has been denied to him hitherto in the educational structure, a place above books and curricula, buildings and equipment, administration and the rest. It recommended suitable scales of salary for university teachers in keeping with their importance and status so that the best men and women would be attracted to the profession, the raising of the age of superannuation from 55 to 60,

with extensions up to 64 in special cases, so that ripe scholarship and experience should not be lost to the country, and more congenial conditions of work. Deploping the colossal wastage resulting from the failure of students at university examinations, the commission recommended the raising of the level of education in secondary schools, the provision of occupational institutes to divert students, unfit for university education, to suitable vocations, the raising of the standard of admission to universities, the increase in the duration of pass and honours degree courses from two to three years, the raising of the percentage of marks prescribed for passing degree examinations, credit for class work throughout the degree course and other reforms in the examination system, restrictions on the admissions to colleges, compulsory tutorial classes for undergraduates and the introduction of courses in general education. One of the important chapters of the report is on the problem of the medium of instruction which is facing the Indian universities to-day. While recommending the compulsory study of English as a subject, the commission realized the inevitability of English giving place as the medium of instruction to an Indian language, sooner or later, and accordingly recommended that it be replaced by an Indian language other than Sanskrit, that Hindi be developed through the assimilation of words from different sources, including those forming the international technical and scientific terminology, and that universities should be free to use Hindi as the medium of instruction for some or all subjects as an alternative to the regional language. The commission pointed out that pupils at the higher secondary and university stages will need to learn at least three languages: the regional language, the federal language (Hindi) and English. The report recommended the inclusion of university education in the concurrent legislative list (the list of matters falling within the jurisdiction of the central as well as the state legislatures) and the contribution by the centre (to the extent of 50 per cent) to the cost of postgraduate and research work in the universities, in addition to capital grants for buildings and equipment and the setting up of a University Grants Commission.

Since the publication of the report of the University Education Commission in 1949, two important events have occurred in the educational history of India, which have had far-reaching consequences on university education in the country, namely, the publication of the report of the Secondary Education Commission in 1952-53 and the setting up of a University Grants Commission in 1956 by an act of the Indian parliament.

By its terms of reference the Secondary Education Commission was asked to report on the position of secondary education in India in all its aspects and to suggest measures for its reorganization and improvement. In making its recommendations, the commission, while expressing its anxiety not to encroach on the purview of the universities, nevertheless strongly advocated the

advisability of abolishing the intermediate stage in the four-year degree course in arts and science, increasing the period of secondary education by one year, and planning a three-year degree course at the university stage. By a strange irony, the universities, with one solitary exception (Bombay), agreed in principle to accept the pattern of the three-year degree course recommended by the commission, and many of them have implemented this course long before the introduction of the reform of the addition of one year at the secondary stage on a wide scale. The result has been that the affiliated colleges have undertaken the responsibility of conducting the pre-university course, and may be obliged to continue to do so for a long time.

By virtue of the enlarged powers given to it by statute, the University Grants Commission is able effectively to promote and co-ordinate university education, maintain standards and assist universities with funds to expand their activities. Realizing the importance of raising standards of university education, the commission has given top priority to the improvement of libraries and laboratories, by making grants to universities and to affiliated colleges, and of the quality of teaching by subsidizing the increased scales of salaries of university and college teachers. It has also made grants to affiliated colleges to meet the additional expenditure incurred by them in introducing the integrated three-year degree course. It also makes grants to universities for postgraduate work and research. The universities find it much easier to get financial assistance from the commission than from the government direct, on account of the less formal relations and better understanding existing between them and the commission, with which they are in close and constant touch (see also pp 417-418).

CONSTITUTION (a) *Structure of universities.* Indian universities are of four main types, viz. (i) unitary teaching, (ii) federal teaching, (iii) teaching and affiliating and (iv) purely affiliating. The majority of them are teaching and affiliating, that is, they carry on teaching activities in their own departments and/or through constituent colleges, the instruction being given either by their own teachers or by teachers of constituent colleges recognized by them. They also affiliate colleges within their jurisdiction which teach under university supervision. The colleges have to abide by their conditions of affiliation with regard to finance, adequacy of staff, equipment, libraries, laboratories, buildings and hostels. In some universities falling in this category the central core predominates, as in Andhra University or in Poona University in the Poona area, in others, the affiliated colleges do most of the teaching, the university's teaching being restricted to a few departments. There are eleven unitary teaching universities in India. A unitary university has been defined as 'one, usually localized in a single centre, in which the whole of the teaching is conducted by teachers appointed by or under

the control of the university'. The control of the teachers, the teaching, the courses of study and the administration are centralized in the university. A unitary teaching university is usually residential, and vice versa. Aligarh, Allahabad, Annamalai, Banaras, Baroda, Jadavpur, Kurukshetra, Lucknow, Patna, Roorkee and Visva-Bharati conform to this type. Most of the Indian universities began as affiliating universities, being mainly concerned with laying down courses of study and examining students sent up by their affiliated colleges. They had no control over the teaching imparted in the affiliated colleges and were, for all practical purposes, no more than external, examining bodies. Gradually these universities began to assume teaching functions, and associated the teachers in the affiliated colleges with the framing of their courses and their general administration, until to-day there are only two purely affiliating universities (Agra and Vikram) in the country. The University of Bombay, as reconstituted in 1953, is a federal, teaching university as is the newly constituted University of Kerala (formerly the University of Travancore). Its colleges, in which all the undergraduate teaching is carried on, are constituent colleges, enjoying a great measure of autonomy in their internal administration, but they can be required to pool their resources for both post-graduate and post-intermediate teaching. Their principals are *ex-officio* members of the senate, the academic council and boards of university teaching and the heads of their departments are *ex-officio* members of the university's boards of studies. There is thus a close link between the university and its colleges. Poona University, too, so far as the Poona area is concerned, is a federal, teaching university, though it is an affiliating university in relation to the colleges situated outside Poona.

(b) *Internal government*. The main authorities of the universities and their relation to one another follow more or less the same pattern with minor variations. With a few exceptions, the governor of the state is the *ex-officio* chancellor or nominal head of the university. The chief academic and executive officer of the university is the vice-chancellor, who in most universities to-day is a full-time, paid officer, appointed for a fixed term. His appointment is made by the chancellor from a panel of names submitted by the supreme governing body. In a few universities (Bombay, Nagpur, Poona, Gujarat, Baroda and Shreeemati Nathibai Damodar Thackersey Women's Universities and Sardar Vallabhbhai Vidyapeeth) the appointment is still an honorary one. Each university has at least three authorities, viz. the senate or court, the syndicate or executive council, and the faculties. In some there is also an academic council. The senate or court is the supreme governing body, which holds the purse-strings and decides broad questions of policy. Its membership is large, represents a variety of interests and includes *ex-officio*, nominated and elected members. Heads of government departments, university professors and principals of

colleges are included among the *ex-officio* members. A certain number are nominated by the chancellor and the rest are elected by university and college teachers, headmasters, registered graduates, local bodies, associations, the state legislature and donors of large amounts. The syndicate or executive council, which runs the day-to-day administration and handles its finances, is perhaps the most effective body in a university. It consists of the vice-chancellor, the director of public instruction, elected representatives of the supreme governing body, the faculties and principals. The academic and the lay element in it are usually evenly balanced. The faculties usually function through boards of studies in the several subjects included in them. They and the academic council, which consists mainly of teachers and heads of affiliated institutions, deal with purely academic questions, such as the framing of courses, the organization of teaching and regulation of examinations. In a few universities there are special boards of university teaching. Except in Roorkee University and the Shreeemati Nathibai Damodar Thackersey Women's University, which have each one faculty only, namely, engineering and arts respectively, the number of faculties varies from four to twelve.

RELATIONSHIP TO GOVERNMENT. Only four Indian universities, viz. Aligarh, Banaras, Delhi and Visva-Bharati, were established by acts of the central government. All the other universities have been created by state legislatures. In the sense that they are dependent on the central or the state government, as the case may be, for their constitution and powers, they may be said to be under government control, but they enjoy the greatest measure of autonomy in their internal administration. They stand midway between the British and the continental universities. While government control over them is nothing like the all-pervading control of the state over the universities of France or Italy, they do not enjoy the full freedom of the British universities. The control of government is more indirect than direct. Thus the governor of the state is, as a rule, the chancellor and he appoints the vice-chancellor. When the vice-chancellor is nominated from a panel, the final power of approval or veto rests with the chancellor. The chancellor's approval is necessary in some universities before a statute or regulation passed by their supreme governing bodies can become effective. In many universities the final power with regard to the affiliation and disaffiliation of colleges is in the hands of the government. Heads of certain government departments are *ex-officio* members of the supreme governing bodies, and the chancellor has the right to nominate a number of their members. The president and the governors of states are usually invested with visitatorial powers or powers of enquiry and inspection, though these are rarely exercised. The accounts of the universities are subject to government audit.

Government Grants and the University Grants Commission. Under the Indian constitution,

university education, excluding the four central universities, is a state subject. The universities have to look to their state governments for financial assistance. They also receive special grants, mainly for postgraduate and research work, from the funds placed at the disposal of the University Grants Commission by the government of India.

A University Grants Committee, consisting of four members, was formed in 1945 to advise the central government on the grants to be made to central universities. In 1946, and again in 1947, its membership was increased and it was empowered to deal with the other universities also. Its chairman was not a full-time officer. The Radhakrishnan commission recommended drastic changes in the constitution and powers of this committee, the most important of which was that it should be an expert body with power to allocate grants, within the total limits set by the government, instead of merely recommending their allocation to the finance ministry. In November 1953 the University Grants Commission, consisting of a full-time chairman and secretary and eight members, was set up by a resolution of the government of India to act as an expert body of advisers to the central government on the allocation of funds for grants-in-aid to the universities, and the disbursements of grants out of the funds placed at its disposal. By act of parliament (no. 3 of 1956) the commission was made a statutory body, consisting of nine members, including the chairman, whose office is a whole-time, salaried one. All the members, including the chairman, are appointed by the central government. Not more than three of them must be chosen from among the vice-chancellors of universities, two must be officers of the central government. The remaining members must be educationists or persons who have obtained high academic distinction. The commission is assisted in its work by a full-time paid secretary and staff. It is empowered to associate with itself persons whose assistance or advice it may need. Its duties and functions are to enquire into the financial needs of universities, allocate and disburse out of its fund grants to the central universities for their maintenance and development and to other universities for their development, advise the central and state governments on the allocation of grants, establishment of new universities, or proposals for expanding the activities of existing universities, collect information from and on behalf of universities and generally to take steps for the promotion and co-ordination of university education and maintenance of university standards. The University Grants Commission is under a statutory obligation to present annual reports of its activities to the central government. These reports are laid before both houses of parliament. Three such reports have so far been published. Mr. D. S. Kothari is the chairman of the commission and Mr. S. Mathai is its secretary. The address of the commission is Old Mill Road, New Delhi, 2

Realizing the importance of raising the standards of education in the universities, the University Grants Commission decided to give top priority to the improvement of libraries and laboratories and of the quality of teaching in the universities in its programme under the second five-year plan (1956-61). It has accordingly been making grants for the strengthening of their libraries and laboratories and giving them subsidies for raising the salaries of their teachers.

Grants to universities and colleges. During 1959-60 the University Grants Commission made grants to the universities for the implementation of schemes relating to subjects in the humanities and social sciences to the extent of Rs. 9,005,000 and in science and technology to the extent of Rs. 7,605,500. For the development of post-graduate teaching and research in specialized fields in science it assisted the universities of Delhi and Osmania in establishing departments of astronomy and astrophysics, Nagpur and Saugai in introducing courses in applied geology, Andhra and Banaras in providing training facilities in geophysics, and Annamalai and Kerala in strengthening the existing facilities for training and research in marine biology. It also provided facilities for teaching in specialized fields in the humanities: archaeology in Allahabad, Baroda, Calcutta, Madras, Patna and Poona, museology in Baroda and Calcutta, Buddhist studies in Banaras and Delhi; and music in Annamalai, Banaras, Baroda, Delhi and Visva-Bharati. It helped in the establishment of 18 new post-graduate departments in science and technology and 46 new departments in the humanities and social sciences, involving the creation of 157 additional teaching posts (25 professors, 51 readers and 81 lecturers). In pursuance of its liberalized policy of assisting affiliated colleges, in view of the fact that by far the larger part of the actual teaching, including some of the post-graduate work, is provided by more or less autonomous colleges affiliated to the universities, the commission gave grants to as many as 248 affiliated colleges for such basic requirements as hostels, libraries and laboratories, apart from grants to enable them to raise the salaries of their teachers.

Other grants. The University Grants Commission also makes grants for the holding of periodic conferences and seminars on various subjects for the benefit of university and college teachers and makes grants to individual teachers to enable them to visit centres of research in particular subjects for short periods.

The grants in the Table on p. 419 were paid by the commission to the universities (figures in millions).

FINANCE. In 1957-58* the income (in crores) of universities was: recurring, Rs. 13.75, non-recurring, Rs. 5.04; and of colleges: recurring, Rs. 24.9; non-recurring, Rs. 5.54. The main sources (in crores) were: state governments, Rs. 18.44, student fees, Rs. 16.12, central government, Rs. 8.42.

PRE-UNIVERSITY EDUCATION The examination which a student has to pass before he can enter upon a course of university study is the secondary school (leaving) certificate examination held by the board of secondary education set up for the area in which the university is situated, or the matriculation or entrance examination held by the university itself. Very few universities in India to-day (e.g. Nagpur and Punjab) hold their own matriculation or entrance examinations. The majority of pupils completing their high-school course take one of the school certificate examinations. The duration of the high-school course is ten years in most of the states and eleven years in Bombay. This period includes the time spent in the four primary standards and the three standards of the middle school. Instruction in the secondary schools, except in a few English teaching schools, is given through the pupil's mother-tongue or the regional language of the area. Not every holder of a secondary school certificate is eligible for admission to a university. The universities prescribe the subjects and minimum percentage of marks necessary for the purpose. In addition to the secondary schools, which provide education only in literary subjects, there are technical, agricultural and commercial high schools from which pupils can take the school certificate. Subject to certain restrictions, certificate holders from such vocational schools are also eligible to join a university. Pupils who join schools which prepare them for the Cambridge school certificate or higher school certificate examination are also admitted to the arts or science courses, provided that they pass in certain subjects or obtain a certain number of credits. In many universities, especially in north India, a Cambridge school certificate holder is admitted straight to the second year of the four-year arts or science degree course. For admission to Delhi University, which has a three-year degree course, a candidate has to complete the course for the higher secondary examination and pass it. The entrance qualification for the Allahabad, Agra and Lucknow universities is the passing of the intermediate examination of an Indian university,

of the board of high school and intermediate examination (Uttar Pradesh), or an equivalent examination. When the three-year degree course is introduced in the universities, pupils who have completed the school-leaving certificate course will have to spend one more year in a pre-university course of study, either in a higher secondary school or in a college, before they are permitted to enter upon the degree course.

ADMISSION In theory, all qualified applicants have the right of admission to university courses of study, but, in practice, owing to the limited number of places, it often becomes necessary for the authorities of the institutions to make a selection from among the applicants. This happens especially in the medical, engineering, commerce and teachers' training colleges. The relevant authority lays down its own criteria for making the selection. Performance at the qualifying examination, distinction in sports and extra-curricular activities and membership of the national cadet corps are the chief determining factors.

Mention has been made above of the requirements for admission to the first-degree courses in arts and science. As regards professional courses leading to the first degree, the minimum requirements vary to some extent from university to university, except for the medical and engineering courses, where there is a greater degree of uniformity. Thus, the universities with four-year degree courses insist on the passing of the intermediate science examination with physics, chemistry and biology for admission to the MB BS course and the intermediate science examination with mathematics for admission to the BE or BSc(Eng) course. Those universities which have a three-year degree course require the passing of the pre-professional examination with biology and mathematics respectively. Owing to the comparatively small number of places available and the large number of applicants, candidates who have not obtained good marks at the qualifying examination have little or no chance of securing admission to these courses. Some universities have laid down further conditions, such as the

securing of 45 or 50 per cent. of the marks, or passing in the first division, as the minimum requirements for admission to the medical or the engineering course. Except in Bombay and Karnataka universities, only graduates are admitted to the LLB or BL degree course. In the two above-mentioned universities, a student passing the intermediate examination in arts, science or commerce, or part I of the BA examination, is admitted to the law course, though he has to study for three years, whereas for graduates the course is one of two years. The qualification for admission to the degree course in commerce is the intermediate arts, science or commerce, or the pre-university examination, except in some universities where admission to the course, which is one of four years, is made after the secondary school certificate examination, e.g. in Baroda, Bombay, Gujarat, Karnataka and Poona universities, and in Delhi, where the minimum requirement is the passing of the higher secondary examination and the course is one of three years. The minimum qualification for admission to the BSc Agriculture course is intermediate science, pre-professional, or intermediate science (agriculture), except in the Gujarat, Karnataka, Marathwada and Poona universities, where the course is one of four years after the secondary school certificate examination.

The requirement for admission to postgraduate study and research is the possession of a first degree in the same faculty. The higher degrees are, as a rule, open to graduates of other universities on a reciprocal basis. The master's degree by papers can be taken after two years of study. In Annamalai, Andhra and Madras universities, a candidate who had passed the BA (hons.) or BSc (hons.) examination was until recently entitled to take the master's degree by mere efflux of time. In some universities the master's degree can also be taken by research. The PhD degree can be taken only by research, not less than two years after the master's, or three years after the bachelor's, degree. For research degrees the candidate has to work under the guidance of a recognized university teacher. He has also to submit a thesis and undergo a *viva voce* test, unless he is exempted therefrom on the recommendation of his referees. In certain universities only students who have done well in the first degree examination are permitted to undertake postgraduate study or research.

STRUCTURE OF DEGREE AND DIPLOMA COURSES
Most of the universities have decided to adopt the integrated three-year course for the BA and BSc degrees, involving the abolition of the intermediate examination, as recommended by the Secondary Education Commission (1952-53). The details of the course have yet to be settled by the universities, and there are bound to be certain variations in them. The main idea underlying this course is to alter the former pattern of university education by transferring one year of the old four-year degree course to higher secondary schools, making it a pre-university course. Until

the secondary high schools are upgraded into higher secondary schools, this pre-university course will be taught in the affiliated colleges. Simultaneously with the introduction of the new three-year courses, integrated courses in general education, on the lines recommended by the Radhakrishnan commission in chapter V of their report, are likely to be adopted by most universities. The University Grants Commission is giving financial aid to the universities to implement their schemes in this regard.

All the teaching and affiliating universities in India, except Bombay, have agreed in principle to accept the scheme of the three-year degree course. The universities of Uttar Pradesh propose to have a three-year degree course after a twelve-year school-cum-intermediate course and the University Grants Commission has agreed to assist these universities on a 100 per cent. basis towards their capital projects (excluding hostels). The implementation of the scheme in the state universities was financed until recently on an equal sharing basis between the state governments and the universities and managements of colleges on the one hand, and the government of India and the University Grants Commission on the other. On the recommendation of the planning commission, and with the concurrence of the ministry of education, the University Grants Commission has agreed to take over the entire responsibility for the implementation of the three-year degree course scheme in all Indian universities from the financial year 1960-61. The three-year degree course has already been introduced in the following twenty-six universities: Aligarh, Andhra, Annamalai, Banaras, Baroda, Calcutta, Delhi, Jabalpur, Jodhpur, Karnataka, Kerala, Madras, Marathwada, Mysore, Nagpur, Osmania, Panjab, Poona, Rajasthan, Sardar Vallabhbhai Vidyapeeth, Saugar, S N D T Women's, Sri Venkateswara, Utkal, Vikram and Visva-Bharati.

The three-year degree course is preceded by the pre-university course examination which is at present being conducted by the universities. The course includes compulsory and optional subjects. The universities hold an examination at the end of the second year in the compulsory subjects and in some papers of the optional subjects. In some universities there is an examination at the end of the first year also. Failure in these examinations does not prevent a student from proceeding to the final or third year of the degree course in which he is examined in the optional subjects only.

Students wishing to join a professional course in medicine or engineering are required to undergo what is called a pre-professional course in science subjects, with a professional bias, which is at present being taught in the degree colleges in arts and science, although it is the intention that these courses should eventually be catered for by the professional colleges themselves. The pre-professional examinations correspond to the old intermediate science examinations.

Under the pattern of the old four-year degree course some universities had a special honours

examination with advanced courses of the duration of two or three years after the intermediate examination. Andhra, Annamalai and Madras had a three-years' honours course, and conferred the MA degree, without further examination, on candidates taking the honours degree, after the lapse of a certain period. They have discontinued these courses since the introduction of the three-year degree course. Among the universities which have already switched over to the three-year degree courses only one (Poona) has an honours course of the same duration as the pass or general course, but with a larger number of papers and with specialization, on the lines of the honours courses of Delhi University. The other universities have not instituted honours courses so far. Bombay University, which still follows the old pattern of the four-year degree course, has two types of courses, known as 'general' and 'special', each of two years' duration, the difference depending upon the groups and selection of subjects. A candidate can secure honours in either course, depending upon the level of his performance at the examination. In practice, however, a very small number of candidates select the 'general' course.

The duration of courses leading to the BSc(Eng) or BE (civil, electrical and mechanical) degrees varies from three to five years after the intermediate science, or pre-professional, examination. In some universities the course includes practical training, varying from six months to a year, in others, there is no provision for practical training. The course for the MB BS degree varies from five to six years after the intermediate science, or pre-professional, examination. It includes internship from six months to a year in all universities except Agra and Mysore. The course for the LLB or BL degree varies from two to three years. The course for the bachelor's degree in commerce varies from one year after the pre-university examination, or two years after the intermediate arts, science or commerce examination, to four years after matriculation. Two universities (Andhra and Madras) have honours courses, and in one university (Bombay) candidates passing in the second class are deemed to have passed with honours. The BSc(Agr) course varies from three years after the intermediate science or the higher secondary examination to five years after matriculation. The degree courses

in dentistry and veterinary science are each of four years' duration after the intermediate science examination, and the BEd or BT course covers one year after graduation in all universities. The courses in technological subjects (other than engineering) are usually of four years' duration after the intermediate science examination or two or three years after the BSc degree. It may be broadly stated that those universities which have adopted three-year degree courses in arts and science have substituted the pre-professional or some other examination corresponding to the intermediate, as the springboard for admission to the professional courses.

Study for a postgraduate qualification normally involves attendance at advanced courses of lectures, clinics or practicals, as the case may be. Where the degree is by research, the candidate has to work under the supervision of a recognized teacher except for the DLitt and DSc degrees, which are awarded on the basis of independent research.

Most universities conduct diploma courses in a variety of subjects, cultural, technical and professional, such as foreign languages, journalism, public administration, foreign affairs, music, soap-making, pottery, teaching, librarianship and medical subjects. Some are postgraduate diplomas, others undergraduate. The duration of the courses varies from one to three years.

Some universities confer 'oriental titles' (corresponding to degrees or diplomas) on candidates who pass their examinations in courses in languages such as Sanskrit, Arabic or Urdu, or in Ayurveda or Unani (indigenous systems of medicine), or in theology or music. These courses are taught at the university level, and must not be confused with courses provided by institutions other than universities which confer their own titles on those who pass their examinations. These institutions are colleges maintained or sponsored by state governments or by learned bodies with a view to encouraging traditional courses and methods of instruction in Sanskrit or other oriental languages. For a list of oriental titles conferred by universities, see p. 426.

STAFF The teaching staff in university departments consists of professors, readers, lecturers and demonstrators. The affiliated colleges have professors, assistant professors, lecturers and demonstrators, but no readers.

The scales of pay in the universities are more or less uniform, whereas in the colleges they vary considerably. Some universities have prescribed minimum scales of pay for their college teachers. As a result of the subsidies given by the University Grants Commission, the revised scales of salaries of universities which receive such subsidies are uniform. The professors are paid Rs. 800-50-1250 per month, the readers Rs. 500-25-800 and the lecturers Rs. 250-300, with annual increments of not less than Rs. 20. The commission pays to the universities 80 per cent. of the increased expenditure due to revision, while the remaining 20 per cent. is borne by the state government or the university concerned. The four central universities pay according to the same scales as those mentioned above, with slight variations in the lecturers' scales to meet local requirements. Bombay University pays its lecturers Rs. 300-25-600. Panjab University also has slightly higher scales for its teachers. Many of the affiliated colleges have recently upgraded the salaries of their teachers on a sharing basis, the commission subsidizing the increased expenditure to the extent of 50 per cent and the state government or the college contributing the balance.

The usual method of instruction consists of the lecture, the tutorial and the seminar. Lectures predominate. Tutorials and seminars are held, once a week or fortnight, in different subjects. A college teacher is usually not burdened with more than fifteen lectures in a week, if he does not take postgraduate classes. Teachers of undergraduate classes generally get very little time to do their own research.

The practice of sabbatical leave as such is non-existent in the colleges. Teachers in the university departments are permitted to go on study leave up to a maximum of three or four years during the entire length of their service. The age of superannuation in most universities is sixty years, which may be extended by two to five years in special cases. In a very few universities it is fifty-five. No distinction is made in the case of those coming from abroad, unless the appointment is on contract for a fixed period.

The usual method of filling vacant teaching posts is by advertisement in the Indian newspapers, and sometimes also in foreign newspapers. Appointments are ordinarily made by the executive council on the recommendation of statutory selection committees, which include experts unconnected with the university.

There is no statutory bar to the appointment of nationals of other countries to university or college teaching posts, although the number of such persons is rapidly decreasing on account of the availability of Indians with high academic qualifications obtained in foreign universities. The majority of teachers are persons who have taken their first degrees in India. Only a small minority have received their first degree training abroad. The older universities have on their staffs a fair proportion of teachers who have graduated from

other universities, although the majority are from the home university.

STUDENTS Most universities enrol only full-time students but some have students taking diploma or evening courses. In *Agra University* about 25 per cent. of the students are part-time, in *Gauhati* about 17 per cent. and in *Baroda* about 12 per cent. About 13 per cent of the students in *Poona University* are external students, i.e. persons gainfully employed in the university area, who are allowed to appear for its examinations without keeping terms, after registering their names in the university office. *Calcutta*, *Delhi*, *Madras* and *Utkal* universities have small numbers of part-time students. Some of the universities, e.g. *Agra*, *Nagpur*, *Osmania*, *Rajasthan* and *Utkal*, permit certain categories of persons, such as school teachers, educational inspectors, women, librarians, library clerks and laboratory assistants, to appear as private candidates at their examinations. Very few universities conduct vacation courses or summer schools. *Poona University*, for example, conducts such a course for the *MEd* examination for secondary school teachers. The majority of students live in their own homes. About 10 to 20 per cent live in halls of residence or hostels maintained by the universities or affiliated colleges. It is usual for a university, when affiliating a college, to lay down a condition that it shall make provision for the accommodation of a certain proportion of its students in its own hostel.

Most universities and colleges have their own students' unions or representative councils. Every college has its own athletic club and a number of societies conducting cultural activities such as literary, dramatic, debating, historical and philosophical societies or clubs.

Almost every university has its contingent of the national cadet corps. Girls' divisions have recently been started in many universities. Student welfare activities are on the increase. The government of India organizes an annual inter-university youth festival. Students take part in training camps, village apprenticeship and development schemes, and labour corps, for which the universities receive financial assistance from government. Universities and colleges have their own medical officers to look after the health of their resident students. In some universities there are arrangements for the medical examination of entrants. Some universities have made physical training compulsory in the first two years of the degree course. A few universities have foreign universities' information bureaux, and *Calcutta University* has also an appointments board. As the number of students from overseas is increasing, the universities are considering a proposal to appoint advisers for them. A few universities have student counsellors.

The tuition fee varies from Rs. 120 to Rs. 250 per annum for arts and science courses, and from Rs. 250 to Rs. 400 for professional and technological courses. The cost of residence in hostels,

including boarding, varies from Rs 80 to Rs. 100 per month. For overseas students, it may go up to Rs 150 per month, but much depends on whether the university is situated in a small town or a large city.

The major sources of financial assistance by way of research studentships, fellowships and scholarships are (a) the government of India and/or the state government (b) university or college funds and (c) endowments. The government of India awards a certain number of scholarships to students coming from abroad. They also award scholarships to backward class students. The universities and colleges, too, award free studentships to deserving but poor students. As a rule, however, scholarships and other financial awards are made on the basis of merit. Figures are not available to show to what extent students receive financial assistance, though, on a rough estimate, it may be said that about 10 per cent receive financial aid. Vacation employment of students is practically unknown.

The University Grants Commission gives grants to students' aid funds established in the universities and colleges for rendering financial assistance to poor students to meet their tuition or examination fees or to purchase books or meet similar other expenses in connexion with their studies. Such grants are made on a fifty-fifty basis, subject to a maximum amount of Rs 10,000 for a university and Rs 2000 for a college. During the year 1959-60 the Commission subsidized health centres in the universities of Aligarh, Jodhpur, Kanpur, Patna and Roorkee.

The average age of Indian students joining universities is 17 plus. Foreign students (for statistics, see p. 427) are usually much older, i.e. between 18 and 24, as many of them come only for professional or postgraduate studies.

The total number of students has been increasing from year to year. It increased from 420,000 in 1951 to 862,539 in 1958-59. Of the 862,539, 115,432 were women. See also 'Statistics', p. 426.

ACADEMIC YEAR The academic year is divided into three terms in most universities. Some have only two terms. The academic year usually begins in June or July and ends in March or April. In the Jammu branch of the Jammu and Kashmir University and in Roorkee University it begins in September, and in the Punjab University in October. The long (summer) vacation, except in these three universities, falls between March and July. The difference in the terms and vacations is mainly due to climatic conditions. Most universities have a short break of a fortnight to a month in October, and another short break of ten days to a fortnight in December. No vacation courses are held in summer to enable students to earn credit for attendance.

ADULT EDUCATION The idea of extra-mural classes and university extension is comparatively new. Some universities have, however, recently been moving in that direction; for example, Poona University has established a board of

extra-mural studies which is responsible for adult education in the university area. It has 71 extra-mural centres where more than 600 lectures were delivered in 1957. It also conducts summer and autumn schools, mainly for school teachers, at a few extra-mural centres. The Marathwada University has a statutory board of extra-mural studies. It has 18 centres where about 153 lectures were delivered in 1960-61. Bombay University has recently started adult education classes in Hindi and Marathi in labour areas for labourers in mills and factories and in English for office employees desirous of acquiring a knowledge of cultural subjects. Some other universities also conduct adult education classes through their own lecturers and college teachers. The University Grants Commission gives financial assistance for university extension courses to universities undertaking them.

INTER-UNIVERSITY ORGANIZATIONS In pursuance of a resolution passed by the first conference of Indian universities held at Simla in 1924, the Inter-University Board of India was established in 1925 to co-ordinate the work of the Indian universities, by providing for the discussion of common university problems, acting as a bureau of information, facilitating the exchange of professors, assisting the universities in obtaining recognition for their degrees by other universities, and in other ways. Member universities are represented on the board by their vice-chancellors and, in their absence, by members of the syndicate or executive council. The universities of Rangoon and Ceylon are also members of the board. The board meets annually to consider proposals from individual universities and the government of India, and also convenes quinquennial conferences to discuss important university problems. Through a subsidiary sports board it conducts inter-university tournaments in the major games and in athletics. In addition to the proceedings of its annual meetings and conferences, its *Bulletin*, *Lists* of subjects in which research is in progress in the universities and research institutes and the *Bibliography of Doctorate Theses* accepted by the universities, it publishes a *Handbook* giving detailed information about the Indian universities and research institutes. It is in relationship with the Association of Universities of the British Commonwealth. The board has a standing committee, elected biennially, which acts as its executive body. The presidentship rotates annually among the vice-chancellors. The office of the board is located at 13 Lucknow Road, Civil Lines, Delhi, India. The chairman of the standing committee of the board is N. K. Sidhanta, MA Camb, Hon. LLD Tor, Vice-Chancellor of the University of Delhi. The secretary of the board is Professor V. K. Ayappan Pillai, MA Madr, BA Oxn.

There is no national association of university teachers in India, although there are local associations in some universities, e.g. Bombay and Poona, whose activities are mainly social.

There is a body called the National Union of Students, to which a few students' unions are affiliated, but it cannot be said to be a very representative body.

THE UNIVERSITIES TO-DAY. The universities are faced to-day by a number of problems, largely the result of the situation in which India finds herself since independence, and the rethinking which has become necessary for them to fulfil the requirements of the country in which they must play their rôle as integral parts of her national life. The main problems are inadequacy of staff and equipment, the pressure of an ever-increasing number of students and the replacement of English by a suitable Indian language as the medium of instruction. In a way, the universities are in a better position now than they ever were before, inasmuch as the University Grants Commission is always willing to help them. With its assistance they have been able to improve the pay scales of their teachers, build or extend their scientific and technological laboratories, strengthen their libraries and provide more accommodation for their students and staff, and, in particular, to extend their research facilities. They are anxious to bring about closer contacts between teacher and student by laying greater emphasis on tutorials and seminars than on lectures, and to improve the examination system by making the examinations more objective and giving credit to the students for their class work. They realize the importance of character-building and physical welfare for their students and the creation in them of a spirit of self-sacrifice and a desire to render social service by encouraging them to take part in labour camps and village development schemes and impressing upon them the dignity of manual labour; in a word, to make them keenly alive to the need of making their individual contribution to the building up of a more contented, prosperous and happy India. Student welfare and activities, therefore, loom large in their programmes. Their students are keen on building roads and schools for the poor villagers and swimming pools and open-air theatres for themselves by voluntary labour during their vacations. The universities themselves are extending their teaching activities and giving greater scope to their teachers and students for the development of research. Among the new specialized courses recently introduced are business management, industrial engineering and industrial administration. Nuclear research is also receiving special attention. Building programmes are going forward all over the country. New scientific laboratories and more and better hostels are being built. The constitutions of the universities are being amended with a view to strengthening the academic element. The prospect for university education for the next few years is promising, although the heavy demands made on the country's finances by the urgent need for agricultural reform and industrial expansion have made it difficult for the government to provide adequate funds for the expansion of

university education. The problem of the medium of instruction has yet to be satisfactorily solved amidst the conflicting claims of Hindi and the other regional languages.

INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES. Although the universities cover the major part of the instruction in the field of higher education, it cannot be said that 'higher education' is synonymous with 'university education'. There are a number of institutions of higher education and research which work in collaboration with, or independently of, the universities. Thus, the Bhandarkar Oriental Research Institute, Poona, is a constituent recognized institution of Poona University. The Tata Institute of Fundamental Research at Bombay, which provides instruction of a high order in specialized branches of physics, mathematics and other allied sciences, is recognized for the guidance of candidates for the masters' and doctors' degrees of Bombay University. The University of Bombay recognizes for its postgraduate degrees the research work carried on in the Indian Cancer Research Centre, Bombay, and in the Atomic Energy Establishment, at Trombay, under the guidance of the members of the research staffs of these institutions in subjects for which they have special facilities. The Central Building Research Institute, Roorkee, which is one of the national laboratories, works in close liaison with the University of Roorkee. The Leather Research Institute, Madras, and the Harcourt Butler Technological Institute, Kanpur, stand in a similar relation to the universities of Madras and Agra respectively. The national laboratories, set up by the government of India, and some of the central research institutes, are recognized by many of the Indian universities as institutions which can send students working in them for the postgraduate research degrees of the universities concerned. The All-India Institute of Medical Sciences, New Delhi, established under an act of parliament (Act 25, of 1956), and the Indian Institute of Technology, Bombay, give their own degrees in medicine and engineering, respectively. The Forest Research Institute, Dehra Dun, is a centre for the whole country for technical instruction in forestry, and confers the diploma of forestry research in India at the end of a year's course. The Central Food Research Institute, Mysore, conducts fundamental and applied research in different branches of food and a postgraduate course of two years in fruit technology, leading to an associateship of the institute. The Indian Statistical Institute, Calcutta, provides teaching courses leading to its associateship and fellowship. The Serampore College, West Bengal, functions as a university in the faculty of theology, while submitting its students in arts and science to the examinations of the University of Calcutta. The Indian Institute of Science, Bangalore, which provides instruction and facilities for research in general chemistry, organic chemistry, biochemistry, physics, applied mathe-

matics, metallurgy and various branches of engineering, has recently been accorded the status of a university. The Indian Institute of Technology, Kharagpur, in West Bengal, is another non-affiliated institution conducting courses in civil, electrical, mechanical and agricultural engineering, architecture and naval architecture, and awarding its own degree of bachelor of technology. The Jamia Millia Islamia, Jamanagar, Delhi, provides courses in the arts and social sciences leading to an examination which is recognized by government as equivalent to the BA degree of an Indian university.

For detailed information about institutions of higher education and research other than statutory universities the reader is referred to the current edition of the *Directory of Institutions for Higher Education* published by the Ministry of Education, Government of India, New Delhi.

DIRECTORY TO SUBJECTS OF STUDY

The following subjects in arts and science may be studied at most Indian universities: botany, chemistry, economics, English, French, geography, geology, German, Hindi, history of India and Europe (ancient, medieval and modern), mathematics, modern Indian languages spoken in the area, Farsi, Persian, philosophy, physics, political science, psychology, Sanskrit, sociology, statistics and zoology.

A list is given below of certain other subjects which may be studied at universities. Unless otherwise stated, the courses mentioned are for a first degree. Most universities which make provision for degree courses also provide facilities for master's and/or doctor's degrees in the same subject.

Agriculture Courses leading to the BSc(Agr) or BA degree are provided by Agra, Allahabad, Andhra, Banaras, Bihar, Calcutta, Delhi, Gauhati, Gorakhpur, Gujarat, Jabalpur, Karnatak, Kerala, Madras, Marathwada, Mysore, Nagpur, Osmania, Panjab, Poona, Rajasthan, Sardar Vallabhbhai Vidyapeeth, Saugor, Utkal and Vikram. A BSc (Dairying) is awarded by Panjab.

Commerce. Except for Jadavpur, Roorkee, S N D T. Women's and Visva-Bharati, all universities have a bachelor of commerce degree.

Dentistry. The BDS is awarded by Bombay, Calcutta, Lucknow, Madras and Panjab.

Education. All universities except Allahabad, Bihar, Jadavpur and Roorkee have courses leading to the BEd or BT degree, which are open to graduates in arts, science or commerce. Bombay and Patna also provide diploma courses in education.

Engineering. The BE, or BSc(Eng), in civil, electrical and mechanical engineering, is awarded by all universities except Allahabad, Gorakhpur, Jammu and Kashmir, Lucknow, S N D T Women's and Visva-Bharati. See also Technology.

Fine Arts. Degrees in the fine arts are offered by Baroda and S N D T. Women's, and diplomas by Allahabad, Annamalai, Banaras, Baroda and Visva-Bharati.

Forestry. Courses at Delhi

Home Science. Degree or diploma courses at Allahabad, Baroda, Calcutta, Delhi, Jabalpur, Madras and S.N.D.T. Women's.

Indigenous Medicine. Degrees in Ayurveda are offered by Banaras, Kerala, Lucknow and Poona, and in Unani medicine and surgery by Aligarh. Madras awards a BIM (Indian medicine).

Journalism. Diploma courses in journalism are offered by Calcutta, Madras, Nagpur, Osmania, Panjab.

Law. With the exception of Annamalai, Baroda, Jadavpur, Jammu and Kashmir, Roorkee,

S.N.D.T. Women's, Sri Venkateswara and Visva-Bharati, all universities have courses leading to the LLB or BL.

Library Science. Delhi has a degree and a diploma course. Aligarh, Andhra, Banaras, Baroda, Bombay, Calcutta, Madras, Nagpur and Poona have diploma or certificate courses only.

Medicine. The MB BS degree is awarded by Agra, Andhra, Baroda, Bihar, Bombay, Calcutta, Delhi, Gauhati, Gujarat, Jabalpur, Karnatak, Kerala, Lucknow, Madras, Mysore, Nagpur, Osmania, Panjab, Patna, Poona, Rajasthan, Sri Venkateswara, Utkal and Vikram.

Museology. Diploma courses at Baroda and Calcutta.

Music. Degrees in music are awarded by Annamalai, Banaras, Baroda, Calcutta, Madras and Visva-Bharati, and diplomas or certificates by Agra, Allahabad, Andhra, Annamalai, Banaras, Baroda, Gorakhpur, Madras, Patna, Poona and (music and dance) Visva-Bharati.

Nursing. Calcutta, Delhi, Madras and S.N.D.T. Women's offer a BSc in nursing.

Oriental Learning. Courses in oriental learning leading to bachelor's or master's degrees or diplomas, or (see below) oriental titles are provided by Andhra, Annamalai, Banaras, Baroda, Bihar, Jammu and Kashmir, Kerala, Madras, Osmania, Nagpur, Panjab, Patna and Rajasthan. Sanskrit, Pali and the modern Indian languages are taught in almost all universities.

Pharmacy. Degrees (BPharm or BScPharm) are offered by Agra, Andhra, Banaras, Bombay, Gujarat, Madras, Nagpur, Panjab, Rajasthan and Saugar.

Physical Education. Diplomas are awarded by Lucknow, Madras and Panjab.

Public Administration. Nagpur has a post-graduate course for the MA. Lucknow, Madras, Osmania and Patna have diploma courses. A diploma in local self-government (administration) is awarded by Allahabad and Nagpur.

STATISTICS

[Source: Ministry of Education, Government of India]

TOTAL STUDENT ENROLMENT In 1958-59 (the latest year for which official statistics are available)

938,606 students (provisional figures) were enrolled in Indian universities, their constituent and

affiliated colleges, and colleges affiliated to state boards of intermediate education. This figure was made up as follows:—

*General education** intermediate students, 468,990, BA and BSc students, 235,755, MA and MSc students, 36,399, students studying for doctorates, 3403, diploma and certificate students, 6356

*Professional education** intermediate students, 33,450, first degree students, 129,439, post-graduate students, 16,490, students studying for doctorates, 342, diploma and certificate students, 8072

STUDENTS FROM ABROAD The total number of students from abroad enrolled in 1958-59 was 3635. The countries from which they came were Afghanistan, 4; African countries, 729, Australia, 5; Austria, 1, Belgium, 1, Bhutan, 5, British Guiana, 14, Burma, 105, Cambodia, 7, Ceylon, 947, China, 25, Fiji, 36, France, 2, Germany (west), 8, Goa, 128, Indo-China, 1, Indonesia, 19, Iran, 5; Iraq, 1, Ireland, 1;

Italy, 1, Japan, 7, Laos, 1, Malaya, 244, Malta, 1, Mauritius, 26, Nepal, 547; Pakistan, 456, Philippines, 5, Russia, 3, Saudi Arabia, 13, Sikkim, 52, Switzerland, 2, Thailand, 40, Tibet, 5, Turkey, 1, United Arab Republic, 5, United Kingdom, 2, U.S.A., 17, Vietnam, 1, West Indies, 2, Yugoslavia, 1, others, 159

DEGREES AWARDED (1959) The following first and higher degrees were awarded

*General education** arts/science, 88,359, fine arts, 10, home arts/home science, 228; music, 24, oriental studies, 39, social work, 137, theology, 11

*Professional education** agriculture, 2055, commerce, 12,091, education, 10,526, engineering and technology, 4614, law, 5794, library science, 20, medicine, 3527, veterinary science, 684

Doctorates (general and professional education*) 274

* 'General education' includes arts, science, oriental studies, fine arts, etc. 'Professional education' includes agriculture, commerce, education (teachers' training), engineering and technology, law, medicine, veterinary science, etc.

GENERAL INFORMATION

Act VIII of 1926 of the United Provinces legislature provided for the establishment of a univ 'for the purpose of affiliating the colleges associated with the Univ of Allahabad' so as to set the latter free to function as a unitary, teaching and residential institution. It empowered Agra Univ to affiliate colls in Uttar Pradesh, Madhya Bharat, Vindhya Pradesh, Ajmer and Bhopal, except within the limits of the univs of Allahabad and Lucknow. The act as amended has confined the univ's jurisdiction to Uttar Pradesh. To supplement the work in affiliated colls the univ may institute teaching posts at selected centres. There is an Inst of Hindi Studies & Linguistics and an Inst of Soc Scis (see below).

Five categories of persons are eligible, subject to prescribed conditions, for degrees and other academic distinctions: (a) candidates who pass the univ's exams after pursuing an approved course at an affiliated coll; (b) teachers who pass the univ's exams; (c) inspecting officers in the dept of educn who pass the univ's exams; (d) res workers, (e) women who have carried on private study. Lectures and matrcn may be provided by the univ. for, and dipls. may be granted to, persons other than students of an affiliated coll.

CONSTITUTION The supreme governing body of the univ is the senate, the other principal authorities being the executive council, academic council and facs. The vice-chancellor is a whole-time salaried officer appointed by the chancellor from amongst persons recommended by the executive council. He is the principal executive and academic officer.

INCOME (1959-60) Total income, Rs 2,761,852 (incl Rs 1,892,652 from exam fees, Rs 1866 as contributions from state colls; Rs 171,035 govt grant)

GENERAL INFORMATION

Founded in 1877 by the late Sir Syed Ahmad
 Khan as the Mohammedan Anglo-Oriental Coll,
 with the object of imparting to the Muslim youth
 a modern scientific educn, the univ received its
 first charter in 1920. By the Act of 1951 the

constitution of the univ was amended to bring it
 into conformity with recommendations of the
 univ commission and the constitution of the
 Indian republic. The univ, a teaching and
 residential instn., brings together students and

scholars from different parts of the country with different religious, linguistic and cultural backgrounds

CONSTITUTION. The main authorities of the univ are the court, executive council, academic council, facs, and depts of studies. All teaching staff in depts. are members of the respective depts of studies. On the fac are represented all profs in the fac. and 1 reader and 1 lectr from each dept of studies assigned to it, there are also sr. teachers and learned men from outside the univ. The academic council consists of all hds of depts of studies and a few other members. These bodies deal with the academic side of the univ. The executive council, on which sr. members of the teaching staff are represented, deals with the executive side. The court is a larger body containing reps of interests outside the univ. It meets once or twice a yr and is the supreme governing body of the univ.

GENERAL INFORMATION

Founded in 1887, the univ concerned itself mainly with exams, having no teaching staff (except that of its sch of law) until 1914. Thereafter it establd chairs and readerships, etc, for res. work in econ. and mod. hist. for grad students. In 1922 an act was passed for the reorganization of the univ as a unitary teaching and residential institution, with control, however, over the quality and character of the teaching in constituent colls. The Muir Central Coll became the nucleus of a teaching univ., the jurisdiction of which was limited to a territorial area of 10 mls' radius from the convocation hall of the univ.

Within this area there are 7 institutions which supplement instruction given in the univ. The women's dept, which undertakes full instructn. for the degree course, has now been transferred from the Crosthwaite Girls' Coll to the univ area. In 1955, by a further amendment to the univ. act, two categories of coll came into existence. Colls of the univ. (which are residential colls. for students of the univ. or recog by the univ. in which tutorial and supplementary instructn. is provided) and associated colls (which are also residential, but provide full degree courses as distinct from tutorial instructn.)

The univ.'s jurisdiction is within 10 mls' radius of the Senate Hall. It serves a population of about half a million.

CONSTITUTION The principal univ. authorities are the court, executive council, academic council, fac bds. The vice-chancellor, a full-time officer, is the principal executive and academic hd of the univ. He is *ex-officio* chairman of the executive council and academic council and in the absence of the chancellor he presides at meetings of the univ. court and convocation. The court is the supreme governing body. The executive council is vested with the control of the univ. admin. The academic council is the supreme academic body. The function of the fac bds is to make recommendations to the academic council on academic matters.

INCOME (1959-60). Govt. grant (recurring and non-recurring), Rs. 169,155; fees, Rs. 239,811; other sources, Rs. 174,591.

GENERAL INFORMATION

The act of the Madras legislative council constituting the Andhra Univ. 'in and for the Telugu districts of the presidency of Madras' came into force in 1926. By a later act, the area has been narrowed down by the exclusion of certain districts, leaving the following within the affiliating jurisdiction of the univ. Srikakulam, Visakhapatnam, East Godavari, West Godavari, Kistna and Guntur. The act establishes 5 categories of colls. 'univ. colls.', providing for pass and honours or postgrad. courses for higher degrees, 'first grade colls.', providing courses for the ordinary degrees in arts or sci., 'second grade colls.' (there are none at present), preparing for the pre-univ. exam., 'professional colls.', providing courses in agric, engin, teaching, and for med. degrees, and 'oriental colls. (recognized)', providing courses for oriental titles. •

Included in the figures above are:—

Pre-University students, 9419

Pre-Professional students, 438 §

Postgraduate students, 831

* All students are full-time

§ From 1959-60 pre-professional courses in engin, pharm. and technol have been integrated with the respective degree courses and made the 1st yr. of the integrated courses. There is thus a decrease in the number of 'pre-professional students' as compared with 1958-59

|| Under the reorganization of courses, the 1st yr. of 2-yr degree courses and 3-yr honours courses has been abolished from 1959-60, so there is a decrease in the number of 'new admissions' as compared with 1958-59.

New admissions, 15,878 || Students from other countries, 19 (Countries from which largest numbers came: Fed of Malaya, 5, Mauritius, 4)

GENERAL INFORMATION

The idea of establishing a univ. at Baroda had engaged the attention of the govt. of the former state of Baroda as early as 1908, and in 1927 the Baroda univ commission appd. by the govt of Baroda submitted a report making a strong case for the immediate estab. of a univ. Circumstances, however, did not permit this. In 1949 another cttee, consisting of eminent educationists appd. by the govt of Baroda, recommended the estab. of a residential univ. The univ was established in April 1949 under the Mahatma Sayajirao University of Baroda Act. It is a unitary, teaching and residential univ.

CONSTITUTION His Highness the Maharaja of Baroda is chancellor of the univ. The vice-chancellor is the principal executive and academic officer and is asstd. by a pro-vice-chancellor or

rector. The vice-chancellor and pro-vice-chancellor or rector are elected by the senate from amongst the names of panels submitted by the syndicate. The senate is the supreme governing body and authority of the univ. and the syndicate its executive authority. Among the other authorities are the council of postgraduate studies and res which deals with all postgrad. matters, and the facs. and bds of studies which are principally responsible for all other academic matters. Provision has also been made in the act for the estab. of a bd. of extra-mural studies, bd. of sports, students' welfare bd and publicns bd.

GENERAL INFORMATION

Bombay Univ was establd. in 1857, but until the passing of the Indian Universities Act of 1904, the function of this univ., in common with that of other univs. in India, was limited to examining candidates and arranging for the courses of study which led up to its degrees. Under the act of

1904, it acquired the right of organizing teaching, arranging for univ. extension lectures, and of publishing such works as were necessary for the direct educnl work it was to carry on Under the univ. act of 1928 the univ. went on to arrange for postgrad instructn and res. through its own depts.

as well as through the teachers in affiliated colls and recog. postgrad. instns, recog as postgrad teachers of the univ. As far as undergrad educn was concerned, the univ was an affiliating univ. Before the establ. of the Univ of Sind and of regional univs in Bombay state, the jurisdiction of Bombay Univ extended over the whole of the former province of Bombay and Sind. The univ.'s jurisdiction is now confined to the limits of greater Bombay.

With the establ. of other univs. as a measure in the decentralization and reorganization of univ. educn in the then Bombay state, the univ was reconstituted by the Bombay Univ. Act, 1953. Its special features were: (1) reconstitution of the univ. as a teaching and federal univ.—all affiliated colls became constituent colls.; (2) reduction in number of elections, (3) strengthening of academic element in senate, academic council and bds of studies, (4) creation of bds. of univ teaching, predominantly academic, empowered to control post-inter. and postgrad. instructn. in constituent colls and recog. instns. and to make recommendations to syndicate for conducting such instruction in univ. colls and instns., (5) extension of powers of the univ. to include such activities as extra-mural teaching, univ. extension courses, trg. of students for competitive exams. for service under union and state govts., establ. of an employment bureau, students' unions and bd. of students' welfare, and provision for recognition of instns. of res. and specialized studies by syndicate.

CONSTITUTION. The senate is the governing body of the univ. The executive govt. is vested in the syndicate. The other authorities of the univ. are the academic council, the facs, the bds of univ. teaching and the bds. of studies in the various facs.

INCOME (1959-60) Total. Rs 7,573,282 (central govt. 1.8 per cent., Univ Grants Commission, 31.3 per cent.; state govt. 13.1 per cent., fees, 41.3 per cent., interest on endowments, 1 per cent.; other sources, 11.5 per cent.)

ADMISSION. The min. qualif. for admission to courses in the facs of arts and sci. is the passing of the entrance exam., the secondary sch. cert. exam. of the S S C Exam Bd., Maharashtra state (subject to certain conditions), the matric. exam. (subject to certain conditions) of any statutory univ. in the Indian union, or an exam. recog. as equivalent to the entrance exam. (A list of recog. exams., with conditions subject to which they are recog., is publ. in the *Handbook, Pt. II*.)

The following overseas qualifs. are recog. for the purpose of entrance: Oxford and Cambridge sch. cert., matric. cert. of South African Jt. Matric. Bd. (if exam. passed with Engl., an additional lang., hist. or geog., maths and 1 other subject, or if passed in any 5 or more subs., but with credits in at least 4 of them at one and the same exam.), G C E (ordinary level) of Cambridge and London univs. (with similar conditions), London Univ. matric. cert. (if exam. passed in Engl., an addnl. lang., hist. or geog., maths and 1 other subject, or if passed in 1st or 2nd div.); Rangoon Univ. matric. cert.; G.C.E. (advanced level) of Cambridge and London univs. is considered as equivalent to the F. Y. exam. of this univ., provided the subs. in which the candidate passes the exam. are approved by the univ. for the purpose, Cambridge and Oxford Overseas Higher Sch. Cert. exams. are equivalent to the inter. arts and sci. exams. of this univ. subject to certain conditions. Overseas qualifs. not incl. in the regns. will be considered on their merits.

Admission to univ. courses of study for the bachelor's degrees in engin. and in med. is granted only to those who have passed the univ. inter. sci. exam. or other equivalent exam. of a recognized univ. or bd. in specified groups of subjects. The min. qualif. for admission to the LLB degree course is the passing of the inter. arts, inter. sci. or inter. comm. exam. or a degree exam. in arts, sci. or comm. of the univ. or equivalent exams. of another univ. Admission to courses of study for higher degrees is granted, under certain conditions, to grads. of this, or of any other recog. univ.

FIRST DEGREES 2 yrs.—BSc(Tech) (in chem. engin., food technol., technol. of intermediates & dyes, technol. of oils, fats & waxes, technol. of pharmaceuticals & fine chemicals; technol. of pigments, paints & varnishes, technol. of plastics, textile chem.), 2½ yrs.—BPharm; 3 yrs.—BE (civil, electr., mech.), LLB (if taken from inter.), 4 yrs.—BA (general), BA (spec.), BSc, BVSc, BCom, BChemEng, BText, BDS, 5 yrs.—BArch; 4½ yrs. plus 1 yr. of internship—MB BS. at present no coll affiliated to the univ for this course

Note.—The univ. has not accepted the principle of introducing the 3-yr. degree course recommended by the Secondary Educn Commission

NON-COLLEGIATE STUDENTS The univ has introduced a scheme under which students who are unable to attend a coll can appear for a univ exam. without joining a coll The scheme is not one of 'external degrees' in the ordinary sense of the term, inasmuch as students enrolling themselves as non-collegiate students have to attend courses of instructn. in certain core subjs It combines some benefits of instructn. by teachers of the univ with the facility to appear for an exam without being a regular full-time student The lectures have been confined to the evening hours after the regular coll hours, and are given by teachers apptd by the univ Initially, the enrolment of non-collegiate students up to the stage of the inter arts exam only is envisaged. Classes for the 1st yr. arts students began in 1960-61 614 students were enrolled Under the scheme, a student on enrolment at the univ. as a non-collegiate student is permitted to appear for the 1st yr arts exam on his attending lectures in the selected subjs of the 1st yr arts course at a constituent coll fixed as the centre for instructn. for 3 terms each of 90 working days, and to the inter arts exam. on attending lectures in the selected subjs of the inter arts course for 3 similar terms The extension of the scheme up to the BA degree exam. is contemplated

HIGHER DEGREES 1 yr.—BEd, MEd, DHy, 2 yrs.—LLB (if taken after BA, BSc or BCom), MA, MSc, MSc(Agr), MSc(Med), MSc(Tech), MText, ME (auto, civil, electr, mech.), MDS, MVSc, 3 yrs.—LLM, MD, MS. Also PhD, DLitt, DSc.

GENERAL INFORMATION

In July 1854 the court of directors of the East India Company sent a dispatch to the governor-general of India in council directing the organization of the univs of Calcutta, Madras and Bombay. In pursuance of that dispatch the Univ of Calcutta was incorporated on Jan 24, 1857. The jurisdiction of the univ. extended at first throughout practically the whole of northern India, but the territorial jurisdiction has now been limited to the state of West Bengal. The Indian Universities Act of 1904 empowered the univ. to make necessary arrangements for the instruction of students, and though most of the teaching continued to be imparted in the affiliated colls., teaching in some of the higher branches began to be organized under univ. management. In 1917 a new scheme for postgrad teaching and res. centralized postgrad teaching in Calcutta within, and under the control of, the univ. The act of 1951 provided for higher postgrad. teaching in affiliated colls. along with the univ. colls.

CONSTITUTION The senate of 151 members (89 elected, 15 nominated, 47 *ex officio*) is the supreme governing body. The syndicate of 23 members (14 elected, 9 *ex officio*) is the admin. body. The academic council of 72 members (21 elected, 51 *ex officio*) is mainly concerned with making regns. for different courses. There are 12 facs and several bds of studies. The normal work of the univ. is carried on under the direction of the vice-chancellor and syndicate. Control of financial affairs is in the hands of the finance ctee.

POSTGRADUATE TEACHING AND RESEARCH Postgrad. teaching in arts, comm., law, sci. and technol. is conducted by the relevant univ. coll. councils. The univ. provides for postgrad. teaching in Engl., Sanskrit, Pali, Arabic, Persian, Hebrew, Syriac, Greek, Latin, French, German, Bengali, mod. GENERAL INFORMATION

The Univ. was established by the Delhi Univ. Act (Act VIII of 1922). The original idea of the govt. and legislature was the establishment and incorporation of a unitary teaching and residential Univ. on the model recommended by the Calcutta Univ. Commission. However, this could not be achieved at once, and the Univ. continued to recognize several colleges in which instruction was provided under prescribed conditions and provision was made for residence of students.

From 1933, when the Univ. was given a permanent home in the old vice-regal lodge, the idea of a federal Univ. gradually took shape and the last decade has witnessed rapid growth and development. Owing to the large influx of population after 1947, the number of students increased considerably and new colleges were started. The Univ. also accepted the extension of the degree course

from 2 yrs. to 3 yrs. as part of the reconstruction scheme for higher secondary education in Delhi. The scheme included the abolition of the intermediate examination, the extension of the high school course by 1 yr. (i.e. extension from 10 to 11 yrs.), and the institution of a 3-yr. degree course in the Univ. (see below).

The Delhi Univ. Amendment Act, 1952, has made important changes, based on recommendations of the Univ. Education Commission, 1950. The Univ. is now a teaching and affiliating Univ. Affiliated colleges (there are none at present) will be permitted to impart instruction only up to the bachelor's degree. The jurisdiction of the Univ. extends over the whole of Delhi state, instead of being limited to a radius of 10 miles from convocation hall. The President of India, who was the Chancellor, has now become the Visitor of the Univ., and the Chancellor is elected by the

court The vice-chancellor is a whole-time paid officer. Provision has also been made for the appt. of a pro-vice-chancellor to assist the vice-chancellor

CONSTITUTION. The chancellor is the head, the vice-chancellor the principal executive and academic officer, of the univ. The following are the principal univ. authorities: the court, consisting of about 100 members; the executive council, which consists of about 17 members and controls and administers univ. property and funds, the academic council, which is responsible for the maintenance of standards of instrcn., educn. and exam. within the univ. Each fac., subject to the control of the academic council, has charge of the teaching, courses of study and res. work in such subjects as may be assigned to it by the ordinances.

GENERAL INFORMATION

Following upon the report of a cttee under the chairmanship of the Hon G V Mavalankar, an act was passed in 1949 by the Bombay legislature for the estab and incorporation of the Gujarat Univ as a teaching and affiliating univ in the province of Bombay

Postgrad teaching and res. is carried out in the 4 univ. depts., 5 recognized instns, and 59 postgrad. centres for teaching estab. in affiliated colls in the univ area.

CONSTITUTION There are 3 principal academic and executive bodies, viz senate, syndicate and academic council. The senate is largely composed of elected members in different constituencies representing different academic groups such as registered grads., teachers, secondary teachers. The principals of affiliated colls. and hds. of recognized instns and a few persons holding public offices are *ex-officio* members. There are also 20 members nominated by the chancellor. The syndicate, the principal executive body, also has elective membership. The members of the senate and appropriate constituencies in this behalf elect the syndicate for a term of 3 yrs. The academic council is largely concerned with all academic matters such as courses of study, standards of passing and classes, text-books, etc. Every chairman of the bd of study is an *ex-officio* member of the academic council. In addition, it has 3 representatives each of the principals and hds. of recognized instns. The vice-chancellor, registrar, deans of facs and hds of univ depts. are the other *ex-officio* members of the academic council

GENERAL INFORMATION

Although the Univ. of Jabalpur is among the youngest of the univs. of India, the city of Jabalpur is one of the oldest centres of univ. educn. in India. The Radhakrishnan commission recognized the 'traditions of higher education' in Jabalpur and suggested that a unitary univ. might be developed there. This proposal was further examined by the Ctee on the Financing of Education of Madhya Pradesh, apptd. by the state govt., which recommended (in 1952) 'the immediate establishment of a univ. of the federal type at Jabalpur'. The second 5-yr. plan for the former state of Madhya Pradesh included a scheme for the establishment of a univ. at Jabalpur and an act setting up the univ. came into force in 1957.

Almost all the colls. affiliated to the univ. are in the city of Jabalpur, the univ.'s territorial jurisdiction being restricted to the revenue district of Jabalpur. It is intended to develop the univ. along federal lines and to encourage the maximum intercollegiate co-operation, especially in relation

to postgrad. courses and the development of a corporate life for the univ. as a whole. The academic council of the univ. frames the annual teaching programmes of the colls. as a whole and the recognition of profs. & readers and the appt. of teachers of private constituent colls. is normally made on the recommendation of the selection ctees. of the univ. Colls. which provide postgrad. courses in at least 2 subs. and fulfil certain other conditions are to be treated as 'constituent colls.' (there are none at present) and will be more closely linked to the univ. than the affiliated colls.

CONSTITUTION The present vice-chancellor holds his office in an honorary capacity, there being a full-time rector. There are 10 facs. (see below) and 37 depts. of study subordinate to them. In the constitution of the univ. bodies, the element of election has been kept to a minimum, while the functions of the court, academic council and executive council are similar to those of the

corresponding bodies in other Indian univs., membership of them will in most cases be *ex officio* according to seniority by rotation or by nomination. The registered grads., however, elect 20 members to the court.

INCOME (1960-61) Maintenance grant from state govt, Rs 100,000, devel grants from state govt and univ grants commission, Rs 100,000 and Rs. 50,000 respectively; exam and other fees, Rs 458,953

GENERAL INFORMATION

The National Council of Education was started in 1906 to impart educn. 'on national lines and exclusively under national control, not in opposition to, but standing apart from, the existing system of primary, secondary and collegiate education, attaching special importance to a

knowledge of the country, its literature, history and philosophy, and designed to incorporate with the best oriental ideals of life and thought the best assimilable ideals of the west, and inspire students with the genuine love for and desire to serve the country.' The council at first maintained

both arts and sci and technical depts., but finding that public demand for technical educn. was more insistent, the council devoted for the last 50 yrs almost the whole of its resources to technical educn through its coll of engin and technol

In view of the fact that the coll. of engin and technol had been virtually functioning as a univ., and in order that the degrees of the National Council of Educn should receive statutory recognition, the govt of West Bengal with the concurrence of the govt of India enacted the necessary legislation for the establishment of a univ at Jadavpur, and so Jadavpur Univ came into being on Dec 24, 1955, by West Bengal Act XXXIII of 1955

The Jadavpur Univ Act provides that 'any degree conferred by the National Council at any time between the 1st day of Jan 1944 and the commencement of this act shall, for all purposes, be deemed to be a degree corresponding to such degree of the univ as may be declared by the state govt'

CONSTITUTION On the expiry of the 1st 4-yr. period after its incorporation all authority in the univ has come to rest in a body composed of the following members: pres., rector, treasurer, dean of facs, hds of institutions under univ, pres. of alumni assocn, chairman of institution of engineers, mayor of Calcutta corporation (all *ex officio*), 2 members elected by teachers other than profs, 2 elected by profs, 2 registered grads, 8 persons elected by National Council of Educn., 4 nominated by legal reps of founder donors and 5 representing the state and union govts. The pres. is the titular hd of the univ and the rector is the principal executive officer. Other principal officers are the treasurer (an honorary officer) and the registrar. The following bodies have been constituted to advise the univ on different matters: academic council, administrative council, finance council and development council

The univ has no affiliated colls. but the coll of engin, and technol., the coll. of arts and the coll of sci. are constituent colls. and function as teaching depts. of the univ

INCOME (1960-61) Total income Rs 6,198,780 (govt grants, 82.4 per cent, fees, 9.2 per cent, other sources, 8.4 per cent)

LIBRARY 89,750 vols
